JUDICIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 11th December 1892.

READ :—

Letter No. 142—13, dated 18th July 1892, from the Inspector General of Police in Mysore, submitting proposals for the tentative separation of Police powers from the Amildars and stating that the scheme may be tried in a few selected Taluks of each District in the Province.

Proceedings of the Government of His Highness the Maharaja of Mysore, Camp No. 450-60, dated Mysore, 1st November 1891.

No. 9118-28—J. 508-92, DATED BANGALORE, 11TH DECEMBER 1892.

ORDER THEREON.—In March 1891, the Inspector General of Police (Mr. Ricketts) brought to the notice of Government that the system, under which Amildars were heads of Taluk Police, did not work well and should be changed.

2. The Government, while generally endorsing the opinion of the Inspector General that Amildars as Heads of Taluk Police had not fulfilled the expectations formed of them, when in 1879-80, they were re-invested with Police functions, gave a qualified assent to the experiment of relieving Amildars, of Police duties being tried in two selected Districts, *viz.*, in one Head-quarter District and in one Mofussil District and requested the Inspector General, should he wish the experiment to be tried in any particular Taluk or Taluks, to submit a recommendation to that effect in due course. It was added that the experiment, if undertaken at all, must be introduced gradually as competent Inspectors became available.

3. Mr. Madhava Rao now submits proposals for trying the experiment. He would not restrict it to two Districts, but proposes to try it in two or three Taluks of each of the eight Districts, as shown below :—

Bangalore Mysore Tumkur Kolar Shimoga	3 Taluks in each District.	Hassan Kadur Chitaldroog	2 Taluks in each District.

He further purposes that Inspectors to be appointed to independent charge of the Taluk Police should temporarily receive increase of pay and be graded as follows :—

8 in the 1st Class on Rs. 80÷15. | 13 in the 2nd Class on Rs. 70÷15.

4. On a careful consideration of the matter, the Government are of opinion that it is not expedient to relieve the Amildars at present of Police functions, as proposed by the Inspector General, as the advantages accuring from the measure are doubtful, while the disadvantages resulting therefrom are manifold.

5. The revision of the Village Police cannot be deferred much longer without leading to a further deterioration of this useful body, which, slightly improved, is capable of rendering much efficient service to the Police Administration of the State. It has hitherto been accustomed to work under the Amildar of the Taluk in all Revenue and Police matters and to look upon him as its natural superior, and the withdrawal of Police powers from the Amildars will have the effect of subordinating it to the dual control of the Amildar and the Inspector and thereby causing friction and inconvenience.

6. The Government cannot admit the correctness of the proposition that for Police Administration to be successful, the Amildar's connection therewith should entirely cease, for it would depend for much of its success more upon the personal character of the officer at its head, whether he be Amildar or Inspector than upon the kind of office held by him, and it is rather an advantage than the reverse, when the Officer appointed is one possessing the status of an Amildar. When the Amildar and Taluk Inspector are Officers of more than the average ability, the results are likely to be as satisfactory as, when these Officers are indifferent, the reverse would be the case.

7. The Amildar while he is able, on occasions of emergency, to have recourse to the various resources at his command throughout the Taluk, is always in a position able to exercise a healthy moderating influence over the Police, who without such influence, are at times liable to be carried away by departmental zeal into excesses. Altogether, his connection with the Department is calculated to produce a salutary moral effect both on the lower ranks of the Police and on the general public, which can scarcely be expected from the Taluk Inspector however highly paid or however independent he may be.

8. If the Village Police is ever to be improved, it can only be with the co-operation and through the instrumentality of the Amildar of the Taluk.

9. Under such circumstances, the Government are of opinion that it is most undesirable to sever the Amildar's connection with the Police Administration of his Taluk.

10. There is, however, some truth in the allegation that the Amildars being above the powers of punishment vested in the Inspector General any incapacity or unwillingness or any dereliction of duty in Police matters on their part often goes unpunished. The Inspector General complains, and complains not without reason, that the good or bad work of Amildars in the Police Department does not invariably receive at the hands of the Government that treatment which it deserves. This, however, is due more to the present system, under which recommendations for promotion or punishment of Amildars are submitted by Deputy Commissioners to the Government direct, based upon the estimate of the work done in other Departments, than to any desire to ignore the importance of the good or bad Police work of an Amildar. The remedy for this evil is not far to seek or difficult to apply. If the recommendation by a Deputy Commissioner for the promotion or punishment of an Amildar, instead of being submitted direct to Government, is required to be sent through the Inspector General of Police, so as to enable the latter Officer to forward it after recording his opinion of the Amildar's discharge of Police duties, the Government will then be able to adjudge its reward or punishment, after due consideration of the way in which the whole of the duties of the Taluk, including those relating to the Police, may have been discharged. By the adoption of this course, which the Deputy Commissioners are now enjoined to follow, the objection, that the indifference of the Amildar to Police work is the result of the want of sufficient powers of control in the Departmental Head, will, it is hoped, altogether disappear.

11. In these circumstances the Government are not prepared to see the Inspector freed from the control of the Amildar or the Amildar divested of the responsibility for the working of the Police in his Taluk.

12. While differing from the Inspector General and holding that it is not expedient to divest the Amildars of Police powers, the Government are free to acknowledge that they agree with him in his recommendation that it is desirable to improve the position and prospects of the Taluk Inspectors. In the general reductions necessitated by the financial exigencies of the State in consequence of the late famine of 1876-78 the number and pay of the Police Inspectors were considerably reduced, and although in many respects, improvements have since been, from time to time, effected, yet it cannot be said that the Police service in the Taluk Inspector's grades is sufficiently attractive to draw to it a superior class of men. The Government, therefore, in the interests of efficient Police Administration, resolve to revise the existing grades of Taluk Inspectors, so as to provide a sufficient number of better paid appointments for officials of this class. It is accordingly directed that two higher grades of Inspectors be constituted, one on Rs. 80+15 and the other on Rs. 70+15 and that a scale of 14 Inspectors of these higher grades be forthwith adopted, 6 in the 1st grade and 8 in the 2nd grade, the total number being distributed as follows:—

Mysore Bangalore Tumkur Kolar Shimoga	2 in each District.	Hassan Kadur Chitaldroog French Rocks Sub-Division	1 in each District.

13. Turning next to consider what should be done to improve the village Police, it is observed that the head of it-the Patel-is the only official, whose remuneration has been fixed by the Survey. It is partly in land and partly in cash; but in theory, it is regarded as cash salary. How far a reversion, in whole or in part, to the old system of land remuneration is desirable or feasible is a question that will engage the early attention of the Government. As regards the minor village servants, the Toti and Talari, their remuneration in grain has been defined by specific rules in the Districts of Bangalore, Kolar and Tumkur; in other Districts, the rates are still regulated by custom and are not easy of recovery; and in the Malnad tracts, this class does not now exist and has newly to be appointed. But viewing the organization as a whole, it is admitted on all hands that the Village Police, in spite of discouragement and neglect in the past, still shows signs of considerable vitality, and with some care and attention, it can readily be adapted to the requirements of the present system of Police Administration. The experiment of employing Totis and Talaris to watch the ghauts and out-posts during the late season of scarcity has been an unqualified success. The Government are satisfied that if this class of village servants be placed on a better footing as regards remuneration, and its duties and responsibilities duly defined, it is capable of rendering most useful service to the Police and Revenue Administration of the State, and that there is no way, in which the complete efficiency of the Police can be more readily secured than by the improvement of this class of village servants.

14. The Inspector General is accordingly requested to take up at an early date the question of reorganizing the Village Police, and after consulting the Deputy Commissioners, to draw up a general scheme -

(*a*) defining the respective powers and duties of the various officials constituting the Village Police and their relation to the Regular Police,

and (*b*) fixing the scale of remuneration for Totis and Talaris, whether wholly or partly in grain miras, or in land or cash from Government, as local circumstances may demand. The Government are of opinion that cash remuneration is unsuitable for this class of servants, and that to the extent it is found necessary to resort to it, a corresponding reduction in the strength of the Regular Police is desirable.

15. After the Government accords its sanction to the general scheme above ordered, the details of its actual introduction into each District can be separately worked out.

Proceedings of Government, No. 6397-8—70, dated 5th September 1890, passing orders on the statements of credits and debits of the several Funds of the Mysore Local Military Force for 1888-89 and 1889-90 and calling for certain explanation.

Letters Nos. 2825 and 388, dated 2nd October 1890 and 21st April 1891, from the Comptroller, making certain suggestions regarding the audit of the said funds.

No. 9107-9—J. 505-92, DATED BANGALORE, 11TH DECEMBER 1892.

ORDER THEREON.—In the Proceedings of Government read above, the Comptroller was called upon to report the authority, under which the equipment, cloth surplus and stallion Funds, which were not included in the statements appended to the late Chief Commissioner's Proceedings, dated 22nd January 1877, No. 181, were formed, and he states, in reply, that information regarding the formation of these Funds is not forthcoming in his Office and that the Military Secretary, though he was repeatedly asked for it, did not furnish it. The Military Secretary will now be requested to furnish without further delay the information required regarding the said Funds as well as the Manure Fund shown in the statement submitted by the Comptroller.

2. The Comptroller reports that none of the Military Funds referred to above, are subject to any systematic audit in his Office, and that the only Fund for which any account is rendered by the Military Secretary to him, is the equipment account, the debits, credits and the balance of which are scrutinized in his (Comptroller's) Office.

3. It his highly objectionable that Funds, involving several thousands of rupees, should practically be left without audit of any kind, and it is most undesirable that the present unsatisfactory state of things should be allowed to continue any longer.

4. Further, it does not appear that either the receipts or the expenditure connected with any of the Funds are regularly budgetted for and passed by Government, as is done in the other Departments of service, and in view to bring them under proper control, the Military Secretary will be requested to submit, in future to the Comptroller for submission to Government, the usual estimates of receipts and expenditure under the several Funds. No expenditure, not regularly budgetted for, will, in future, be passed without formal sanction.

5. To ensure thorough scrutiny into accounts it seems desirable that an independent periodical audit of the accounts kept both in the Military Secretary's Office as well as by the Regiments located at different places in the Province, should be held, and for this purpose, a competent Accountant either from the Comptroller's or the Public Works Examiner's or the Military Secretary's Office should be deputed by rotation, and the Comptroller is requested to put himself in communication with the Military Secretary and the Public Works Examiner and make the necessary arrangements for giving effect to the above order and report the same for the information of the Government. Whenever, for the purpose of auditing the accounts kept by Regiments, it is found necessary to muster the whole of a Regiment or detachment thereof, the muster parade must be held, not by the Official deputed for the audit work, but by the Military Secretary, if possible, and if that cannot conveniently be done, by the Deputy Commissioner or any other graded officer holding a rank, not below that of an Assistant Commissioner.

6. With regard to the explanation submitted by the Military Secretary for the heavy debit balances shown against certain Funds under his control, it is observed that the explanation submitted is not, in all cases, satisfactory.

7. With respect to the Equipment account, it is clear from the explanation furnished by the Military Secretary, that out of Rs. 1,13,199—9—1, which was the debit balance on 1st April 1890, about Rs. 52,000 represented the advances, made to the Barr and Silahdar Force to be recovered by monthly deductions from their pay, and the remainder, the value of cloth, saddles, &c., in store. It does not, however, appear that any stock was regularly taken of the articles in store periodically and adjustments made for loss by damage or deterioration, and in the absence of such stock taking, it is impossible to say whether the stock on hand really represented the difference between the debit balance shown in the accounts and the amount recoverable from the Force. The Military Secretary is therefore requested to arrange for stock taking at the end of each official year and report the result through the Comptroller for the information of the Government.

8. It is further observed that in the case of a Silahdar, his liability, which amounts to Rs. 20 a year is discharged in the course of each year by monthly recoveries at Rs. 1—12—0, whereas in the case of a sepoy, whose liability is estimated at Rs. 16, only Rs. 9 are recovered from him in a year. There is thus room for the accrual of heavy arrears in case of the Sepoy, and the Military Secretary is requested to report how such arrears are paid up and what security the Government has for recovery thereof.

Chanda Fund.

9. The procedure reported to be followed with respect to this Fund is also irregular and requires correction. The payments made for the purchase of gram, &c., are apparently not shown as advances and subjected to audit by the Comptroller, and there is therefore room for adjustments being delayed longer than is desirable or necessary. The best way of meeting the difficulty, without at the same time causing inconvenience to the transaction of the business of the Department, would be to place a certain sum at the disposal of the Military Secretary that he may draw advances therefrom, for meeting the necessary expenses, such as those referred to in his Memo. the advances so drawn being subsequently recouped by recoveries, as they are made.

10. The same procedure should be followed with respect to the other Funds, *viz.*, cloth surplus, manure, Barr lines and Silhadar stables Repairs Funds, and Stallion Funds, the current expenses connected with which, being met from the permanent advances which will be placed at the disposal of the Military Secretary and subsequently adjusted.

11. The Military Secretary will accordingly report what sum he would desire to be placed at his disposal as a permanent advance for the current expenses usually met from the several Funds referred to above.

12. In addition to the Funds above referred to, there has recently been started, it is believed a Retiring fund from which loans are given to the men of the Silahdar Forces. The previous sanction of Government should have been obtained for the constitution of this fund. The Military Secretary is now requested to submit for the information and orders of Government the Rules laid down for the constitution of this fund together with a report of the operations carried on in connection therewith and the accounts showing its present financial condition.

13. The foregoing orders relating to all Military funds are issued as it is undesirable that any Department should carry on financial transactions of any kind without the advice, sanction and control of the Government.

Report on the Mysore Government Museum for 1891-92.

No. 9962—J. 552-92, DATED BANGALORE, 29TH DECEMBER 1892.

ORDER THEREON.—The report read above is for a period of 15 months from 1st April 1891 to 30th June 1892.

2. The total number of visitors to the Museum during the official year 1891-92 was 187,944 and, during the next 3 months April, May and June 1892, 45,248, making a total of 233,192 for the 15 months, as compared with 209,170 in 1890-91. This large falling off, Mr. Cameron attributes to the counterattractions of the Lal-Bagh, where the new Exhibition building and the Orang Outang since acquired attract enormous crowds of people. The percentage of female visitors was 35·9 as against 42·02 in 1890-91.

3. The institution was honored by a visit from His Highness the Maharaja Gaekwar of Baroda, who was pleased to offer a donation which was utilized for the purchase of a set of 15 large photographs of temples and other places of interest at Mysore and Seringapatam.

4. Two hundred and ninety-five coins were acquired, of which 157 were Roman silver coins found near Subedar's Chattram on the Bangalore-Hindupur Railway Line. These range in date from 23 B. C. to 51 A. D. and are thus 1,900 years old.

5. Several contributions have been received to the collection of plants, mammals and birds. Some excellent specimens of gold quartz, amalgam and pure gold, kindly furnished by Mr. F. W. Grey, the Manager of the Nundydroog Mine at Kolar, have been placed in the Museum.

6. Through the courtesy of Dr. Warth, Officiating Superintendent of the Central Museum at Madras, the collection of local fresh water fishes has been correctly named and classified and an additional supply of specimens of the Marine Fauna is expected to be made to the present collection.

7. The total number of books in the Library now amounts to 177 volumes.

8. The expenditure during 1891-92 amounted to Rs. 2,981—11—5 and for April, May and June 1892 to Rs. 834—4—2, or Rs. 3,816—0—1 for the 15 months, as compared with Rs. 2,914—3—5 in the previous year.

9. The Superintendent is requested to convey the thanks of Government to the several gentlemen who presented articles to the Museum.

The annual report on the condition and progress of the Daria Daulat Bagh at Seringapatam received with letter No. 104, dated 18th May 1892, from the Director of Statistics and Agriculture in Mysore.

No. 10055-6—J. 560-92, DATED BANGALORE, 29TH DECEMBER 1892.

ORDER THEREON.—The Government have perused with much interest the first report submitted by Mr. Cameron on the working of the Daria Daulat Garden at Seringapatam, which was once known as the Summer Palace of Tippu Sultan and which, after the fall of Seringapatam, formed, for some time, the picturesque abode of the Duke of Wellington.

2. The Bagh grounds were taken charge of by Mr. Cameron on 19th December 1890, and the present report embraces a period of 15 months ending 31st March 1892, during which short period considerable improvements have been effected, so as to make the garden attractive. Much attention has been paid

to the cultivation of small fruits, vegetables and products of local utility and with remarkable success. It is satisfactory to note that the garden is expected to serve as a small Depôt for the dissemination of useful exotics to the whole of the Mysore District.

3. The receipts of the Bagh for the year 1891-92 amounted to Rs. 780—11—8 and the expenditure to Rs. 1,731—1—5.

4. It is hoped that, in course of time, the Bagh will, under the able management of Mr. Cameron, become self supporting and more useful and profitable.

(1) Letter No. 329 to 334 R., dated 19th June 1891, to the Deputy Commissioners of Districts except Kolar and Shimoga.

It having been brought to notice that in many villages situated on the Mysore-Harihar Line of Railway, the gates of Field-access Level-crossings are left by the villagers persistently open, I have the honor to convey the wishes of the Darbar that you will be good enough to adopt such measures as you may think necessary to enforce the proper closing of all such gates by the villagers using them immediately, they, their carts and their cattle have passed through.

(2) Memorandum of the Joint-Secretary for Railways, dated 2nd December 1892.

On the 19th of June 1891, with your approval I wrote to the Deputy Commissioners of Districts, as per enclosed draft regarding persistency of villagers in keeping open the gates of 3rd class of Field-access Road crossings and forwarded a copy to the Resident Engineer, Mysore section of the Southern Mahratta Railway Company, Bangalore, with a request to inform Deputy Commissioners of further persistency on the part of villagers.

2. As these endeavours in the interests of order and public safety have been of no avail, I beg to suggest that orders may be issued for occasional patrol of all lines of Railway in this State by Police with the view of the villagers being compelled to keep the gates closed at Road crossings of the 3rd class and where no gatemen are posted.

3. Apparently such neglect is common throughout India, and has resulted in order of the Government of India that henceforth all Road crossings on fenced lines of Railway shall be manned to the increase of working expenses and consequent decrease of Nett earnings.

(3) Minute of the Dewan, dated the 11th December 1892.

I don't think that a mere order to the Police for an occasional patrol will be of much use. The Deputy Commissioners should be called upon to issue a Circular to the various Amildars concerned to explain to all villagers on the line what is required of them (with copies of circular for distribution to all Police and village officials in the vicinity of unguarded gates). The Amildar and Police Inspector and minor Revenue and Police officials should make an occasional patrol till the rule is brought into practical enforcement. At the end of one year the result should be reported.

No. 10057-67—J. 561-92, DATED 31ST DECEMBER 1892.

ORDER THEREON.—The foregoing papers are communicated to the Inspector General of Police and Deputy Commissioners of Districts for information and guidance and for issue of the necessary orders in accordance with the Dewan's Minute.

2. Circulars to Police and Village officers, will be printed at the Government Press, as speedily as possible, on the application of the Inspector General of Police and Deputy Commissioners, for distribution.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 26th December 1892.

READ :—

Letter from the Deputy Commissioner Bangalore District, D. 351, dated 17th October 1892:—

In reference to paragraph 5 of the Proceedings of the Government No. 1168—14, dated 22nd April 1891, passing orders on the administration of Criminal Justice in 1889, I have the honor, with all deference to the opinion expressed by the Government, to submit that the Government may be pleased to reconsider their order in the light of what I purpose to submit in the following lines. I should not have troubled the Government but for an order of the Chief Court drawing my attention to the above order and requiring me to obey it.

2. In all Police cases, I get reports, as head of the District Police, of the investigation made by the Police at every stage of the investigation. Thus, if I am to try a Police case, by the time it comes before me in my Judicial capacity, I shall have become acquainted with the Police version of the case which cannot but influence my trial of the case. It is hardly fair to the accused that a Magistrate who has unavoidably prejudged the case, should sit in judgement on him. It is for this reason that, as a rule, I abstain from trying Police cases. Though I do not try them, I watch the trials closely through Police reports and this is known to the Police and the subordinate Magistracy alike. I believe that this close and careful watching produces the result which the Government anticipate from the District Magistrate trying cases. From this it is not to be understood that I would absolutely abstain from trying all cases, there may arise a case, the importance of which, may overbalance the objection to my trying as stated above. Such cases, of course I take on my own file.

3. The trial of a case involves the expenditure of much time, especially on recording evidence, which I think is spent to greater advantage on appeals, revision petitions, calendars and other general supervision.

4. The District Magistrate ought, I think, to be given discretion to decide whether, or not, cases arising in his district, are of sufficient importance to justify his spending his time on them.

No. 11875—J. 592—92, DATED, BANGALORE, 26TH DECEMBER 1892.

ORDER THEREON.—The Government see no good reason to reconsider para 5 of their Proceedings No. 1168—14, dated 22nd April 1891.

2. Adverting to the remarks made by the Deputy Commissioner in para 2 of the foregoing letter it is observed that a perusal of the police diaries or reports is not at all likely to influence the District Magistrates in the trial of a case, as it does not require more than an ordinary judicial frame of mind to keep ones mind open to the reception of judicial evidence ; and as a reference to the said diaries is permitted by Section 172 of the Code of Criminal Procedure to aid the Magistrates in the enquiry or trial of a Criminal case, the objections urged by the Deputy Commissioner lose their force.

3. It is of the utmost importance that District Magistrates should take up a fair share of the original criminal work of their Districts ; but the use of their discretion in the choice of cases for trial by themselves, is not interfered with by para 5 of the Proceedings quoted above. Only a wiser, better and more frequent exercise of it is called for.

Report of the Chemical Examiner for 1890.

No. 12226—J. 604-92, DATED, BANGALORE, 29TH DECEMBER 1892.

REVIEW THEREON.—The total number of cases submitted for examination during the year, exclusive of the Civil and Military Station and Croog, was 73 as against 62 in the previous year, showing an increase of 11 cases.

II. Of these, 42 or 57·5 per cent of the total number were cases of suspected poisoning as against 65 cases and 65·7 per cent in the previous year. The largest number of cases of suspected poisoning have arisen in the Kadur and Bangalore Districts.

III. The number of real cases of poisoning decreased from 23 to 19 and the percentage thereof to suspected cases from 65·7 to 45·2. The number of cases in which arsenic was found was 12, being the same as in 1889.

IV. The number of cases in which blood stains were examined was 15 as against 10 of the previous year. In para 4 of the report it is stated that 15 samples of water were sent for analysis. This is apparently incorrect as the statement appended to the report shows there were only 4 cases of water analysis.

V. The number of articles examined in connection with medico legal cases shows a slight decrease of 5, being 177 as against 182 in 1889.

VI. The cost of the establishment shows Rs. 1,495 in 1890 as against Rs. 1,390 in 1889, and the increase was chiefly due to the allowance of Rs. 20 per mensem sanctioned to the Hospital Assistant Sabhapati Pille.

Correspondence ending with letter No. 742, dated 7th December 1891, from the Inspector General of Prisons in Mysore, regarding the introduction of revised rules for the management of District and Taluk Lock-ups.

No. 12585-96—J. F. 39-92, DATED, BANGALORE, 22ND DECEMBER 1892.

ORDER THEREON.—The late Inspector General of Prisons submitted for the approval and sanction of Government a set of rules for guarding, feeding and clothing the short term convicts and under-trial prisoners, confined in the Lock-ups and for keeping certain Registers connected therewith. As the proposal submitted involved an additional expenditure of nearly Rs. 15,000 per annum, the Government, in their Order No. 8677-8—1041, dated 23rd October 1890, intimated to the Inspector General that while they agreed with him in thinking it desirable to make the Jail administration as uniform and efficient as possible, they were not prepared to incur the additional expenditure, entailed by the proposed rules, and requested him to revise them, so that the proposed uncalled for regulation as to dieting, clothing, imposition of needless clerical labor, &c, all of which involved additional expenditure, without corresponding benefit to the prisoners or the Jail administration, might be dispensed with. The Inspector General with the letter referred to above accordingly now submits a set of Drafts Revised Rules for the approval of Government.

2. The rules now submitted do not involve any extra expenditure and the Government approve of them with slight modifications as printed below.

3. As recommended by the Inspector General in his letters Nos. 2971—83 and 536, dated 4th July 1891 and 7th August 1891, the Government also sanction (with effect from 1st February next or such other subsequent date as may be practicable) establishments for the District Lock-ups at Kolar and Tumkur, as detailed below, subject to such modifications as may be found necessary from time to time:—

District Lock-up at Kolar.

4. In consequence of the special establishment now sanctioned for the District Lock-ups, any establishment hitherto maintained for the Taluk Lock-ups at those places will cease to exist as a separate establishment from the date of sanction.

5. The Rules as approved of by Government will be published in 3 successive issues of the Government Gazette.

6. Now that Lock-up Rules have been approved and passed by the Government, the Inspector General is requested to take in hand the preparation of the revised edition of the Jail Manual and complete it as early as practicable.

Rules applicable to Convicted and Under-trial Prisoners in the Lock-ups.

1. The classes of prisoners to be kept in Lock-ups are:—

(*a*) Convicted prisoners sentenced to 30 days and under.

(*b*) Prisoners under-going trial.

(*c*) Prisoners committed to Sessions.

2. No prisoner should be received in a Lock-up without a warrant or written order from a Magistrate, nor should any prisoner be allowed to attend Court, or in any way leave the prison, without such order; when a prisoner is taken to Court under an escort of Police and detained over the night, he should not be admitted to the Lock-up without a written order from the Magistrate.

3. Prisoners in the Lock-ups are not to have their hair cut, or their beard clipped, or shaved.

4. All female convicted prisoners will be kept totally apart from the male convicted prisoners, in such a manner as to prevent them seeing or conversing or holding any intercourse with men.

5. Prisoners sentenced to simple imprisonment are to be kept apart from those sentenced to rigorous imprisonment.

6. Prisoners under-trial before the Magistrate and committed to the Sessions should not be allowed to mix with convicted prisoners.

7. When one of a gang of under-trial prisoners has been admitted by the Committing Magistrate as an approver, he should invariably be kept separate and apart in the Lock-up from the rest of the gang.

8. Female convicted prisoners are to be separated from under-trial prisoners in the same way as males.

9. Juvenile prisoners, before and after conviction, must be kept separate from adult prisoners.

N. B.—Rules 4 to 9 will be observed by all the District Lock-ups and by Taluk Lock-ups, if possible.

10. Prisoners in the Lock-ups, except those rigorously imprisoned, will be allowed to wear their own clothing, provided it is good and clean. They may also be allowed their own food, provided the meals are served in the presence of the Lock-up Officer. Every prisoner sentenced to rigorous imprisonment shall work on admission, unless he be prevented by sickness from doing so.

11. All prisoners under trial shall be allowed their own clothes and use their own bedding; if they have no clothes or bedding, the Officer in charge of the Lock-up shall provide them with the same, according to the scale sanctioned for the Lock-up, the cost thereof being charged in the contingent bill.

12. Convicted prisoners, when sent to Court for trial, should not be placed in the dock with irons on their legs.

13. Every prisoner will be required to wash his own clothing, except in the case of sick prisoners, whose clothing will be washed by some other prisoner.

14. A ticket showing his number, name, crime, term and date of release, will be supplied to each prisoner, to be constantly worn or kept by him.

15. On the admission of a prisoner, he should be searched, and the list of all his property should be entered in a book kept for the purpose, and each entry should be signed by the owner of the property. The properties of each of the prisoners shall be put in a bag duly labelled with his number, number of the case, number of warrant and name of the prisoner, and kept in a box which should be securely lodged in the Taluk Treasury Guard Room.

16. The following offences against discipline are to be read over and explained to every prisoner, on his first admission to the Lock-up, by the Lock-up Gumasta :—

I. Wilful disobedience to these regulations of the prison.

II. Assault or use of criminal force.

III. Use of insulting or threatening language to any officer or prisoner.

IV. Indecent or disorderly behavior.

V. Wilfully disabling himself from labor.

VI. Refusing to take food prepared and served in the Lock-up.

VII. Contumaciously refusing to work.

VIII. Filing or cutting irons or bars.

IX. Idleness or negligence at work.

X. Wilful mismanagement of work entrusted to a prisoner.

XI. Wilful damage to prison property.

XII. Conspiring to escape, or to assist in escaping, or to commit any other of the offences aforesaid.

17. No one will be allowed to bring, throw, or attempt, by any means whatever, to introduce into the Lock-up, any spirituous or fermented liquor, or tobacco, or intoxicating or poisonous drugs, or other forbidden articles.

18. The offences against the Rules mentioned in Section 16 above, are to be reported to the Officer in charge, giving a brief account of the offence, together with the statement of the prisoner. The said Officer will enquire into the offence and punish the offender in any one of the following ways :—

(*a*) by change of labour to some form less agreeable to the convict,

(*b*) penal or reduced diet for a day or two, in consultation with the Medical Officer,

(*c*) solitary confinement for a day or two.

19. If any prisoner, on or after admission, be found to be sick, he shall at once be placed under treatment and be sent to the nearest Hospital or Dispensary If he is too weak to be so taken, the Medical Officer should visit him once daily and oftener, if necessary.

20. No convicted or under-trial prisoner, confined in a Lock-up, should be despatched to the Head-quarters of the District, or elsewhere, for trial or for other purposes, unless the Officer in charge of the Lock-up is satisfied, after personal examination, that the prisoner is in a fit condition to travel. In cases of doubt, he should apply, in writing, for the advice of the Medical Officer and act according to his advice, which should also be given in writing.

21. Similar precautions should be observed in the case of prisoners who may, on their way to another station, be taken ill. They should be sent to the nearest Hospital for treatment, either by cart or otherwise as the circumstances of each case may require.

22. It shall be considered a standing order that, on the occurrence of an unnatural or sudden death in the Lock-up, the body is, if possible, to be left in the same position in which it is found, until the arrival of the Medical Officer.

23. Permission shall be granted to prisoners to see their friends occasionally, to enable them to execute a power of attorney for the purpose of preferring an appeal. Such visits should be between 8. A. M. and 4. P. M.

24. Petitions of appeal from prisoners in Lock-ups are to be written, if the prisoners so desire, by a Lock-up Official, free of all charges and forwarded on to the appellate court by the Lock-up Officer. When the appeal is presented by friends of the prisoner, the petition of appeal is not to be written by a Lock-up Official, except under the order of the Officer in charge of the Lock-up. Such order is only to be given under very special circumstances. The Officer in charge of Lock-up should refuse to countersign and to forward appeal memos from prisoners which are worded improperly and indecorously.

25. When any prisoner wishes to execute a power of attorney for the purpose of preferring an appeal, the Officer in charge of the Lock-up will have it duly attested.

26. The Police shall guard the Lock-up whenever there are prisoners, and the cost of guarding shall be calculated as laid down in Resolution "I," dated 4th December 1879, and it will be entered in the Annual Return No. X as nominal cost. In the case of District Lock-ups, separate guarding establishments sanctioned by Government will be maintained.

27. Rations shall be issued to the convicts and under-trial prisoners, in accordance with the scale of diet prescribed (*vide* Appendices A and B), and correct accounts kept in the form prescribed for Lock-up contingent bills.

28. A blanket and matting whereon to sleep shall be provided for every sentenced prisoner.

29. A Medical Officer should visit the Lock-up at least once a week and satisfy himself as to the general sanitation and health of the prisoners, also as to their food, and enter his visits and remarks in a book set apart for the purpose. Should the Medical Officer find the general sanitation bad, he should at once report the matter to the Officer in charge of the Lock-up.

30. It shall be the duty of the Officer in charge of the Lock-up to provide penal labor for all prisoners confined in the Lock-up under sentence of rigorous imprisonment, and how the prisoners are employed shall be shown in a separate column in the monthly statement at present submitted.

31. The convicted prisoners (sentenced to rigorous imprisonment) should be employed in keeping the Lock-up clean, in drawing water and cutting firewood, required for the use of Lock-ups; also in doing any repairs to the Lock-up as far as possible. If convenient, they may also be employed on any remunerative labor. Should there be any surplus number of prisoners, they should be employed in road mending, but on no account should they be employed by the prison officials on private work.

32. Prisoners who are received in the Lock-ups, pending transfer to the District Jail, should be made to work like other prisoners during their stay in the Lock-ups.

33. When prisoners are employed outside the Jail, one peon will guard every five prisoners, the pay of these peons to be charged to the Officer or Department employing the convict labor.

34. Prisoners sentenced to simple imprisonment, if willing to work, should receive full rations.

35. Wherever there is a Munsiff, he will be in charge of the Lock-up, one of his Gumastas attending to the clerical work of the Lock-up, and in other places, the Amildar, Deputy Amildar, or the Sheristadar, one of his Gumastas or a literate Dafadar being deputed to do the clerical work. For the District Lock-up, a separate establishment will be allowed with the sanction of Government.

36. Under-trial prisoners shall be subject to no further restraint than is necessary to their safe custody. They must, however, conform themselves to the Rules of the Lock-up and, for in subordination, will be liable to punishment. They are required to be clean in clothing and person. They shall have all reasonable facilities for conversing with their friends and legal advisers.

37. The Officer in charge of the Lock-up shall visit the Lock-up every morning and inspect all the prisoners in the Lock-up and satisfy himself that the prisoners are clean in their person and have proper clothing. He shall frequently satisfy himself that the diet articles are properly issued and properly cooked and distributed. He shall occasionally visit the Lock-up at meal times. He shall verify the inventory of the property in the Lock-up every quarter and shall curtail expenses of all kinds. He shall cause a strict account to be kept of all clothing.

38. No one shall be allowed to sell, or let, or derive any benefit from selling or letting any article to any prisoner.

39. The Police or other Officer acting as Gate Porter, or guarding the Lock-up may examine any thing carried in or out of the Lock-up, and may stop and search any person suspected of bringing in spirits or other prohibited articles into the Lock-up.

40. The Officer in charge of the Lock-up shall keep a correct inventory of all clothing, bedding, furniture, tools, cooking utensils, and other Government property belonging to the Lock-up. He shall be held responsible for the safe custody of all property belonging to the prisoners. He shall not allow any prisoner to retain any of his property, but, immediately on the prisoner coming to prison, deprive him of it. On the release of the prisoner, the property will be returned to him, and a receipt obtained from the prisoner should be duly attested by the Officer in charge of the Lock-up in whose presence the property is delivered.

41. The Officer in charge of the Lock-up shall frequently, at uncertain times, search every prisoner, his clothing and bedding, with a view to ascertain whether he has any prohibited articles. He shall also visit the Lock-up at night. Smoking is strictly prohibited in the Lock-up.

42. The Night Watchman or Guard will look to the protection duties, and prevent any escape, disturbance or out-break.

43. The Officer in charge will be held responsible for the correct keeping of the Registers and Accounts, as per Forms referred to in the Appendix.

I. Register of admission of prisoners in the Lock-up.

II. Register showing when each prisoner is to be released.

III. Register showing the employment of prisoners.

IV. Register of punishment inflicted for offences committed in the Lock-up.

V. Register of under-trial prisoners.

VI. Medical Officer's Minute Book.

VII. Visitors' Book.

VIII. Contingent Bills.

44. Admission of prisoners into the Lock-ups shall be in accordance with the following rules:—

I. In cases tried by all Magistrates and Sessions Judges—

(A) all persons sentenced to imprisonment for a term of 30 days or under, shall be sent to the Lock-up of the Taluk or the Sub-Taluk in which the sentence is passed,

(B) and all persons sentenced to more than 30 days' imprisonment, shall be sent to the following Jails :—

In the Bangalore, Kolar, Tumkur, Chitaldroog and Kadur Districts....	To the Bangalore Central Jail.
In the Mysore and Hassan Districts	To the Mysore Jail.
In the Shimoga District	To the Shimoga Jail.

Provided however that in cases tried by Railway Magistrates, all persons sentenced to more than 30 days' imprisonment shall be sent—

(1) to the Mysore Jail in those cases in which sentence is passed in the Mysore District; and

(2) to the Bangalore Central Jail, in other cases.

II. In the foregoing rules, imprisonment means imprisonment as a substantive sentence and not in default of payment of fine.

III. Provided that if, at any time, the existing accommodation, calculated at 500 cubic feet and 36 superficial feet for each prisoner, is not sufficient for the actual numbers confined in any Lock-up, so many prisoners must be sent to the Head-quarters Jail as shall provide the required accommodation for the remainder.

IV. The distance to be travelled by prisoners sent in to the Head-quarters Jail shall ordinarily be 15 miles a day. But no prisoner physically unfit shall be forced to march at that rate.

V. No convicted prisoners shall be confined in any Taluk Lock-up which is situated within 10 miles of either of the Jails at Shimoga, Mysore or Bangalore. Convicted prisoners, who would otherwise have been confined in such Lock-up, shall be sent on to such of the said Jails as is nearest.

REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 2nd December 1892.

READ:—

Letter No. 2321, dated 15th November 1892, from the Comptroller to the Government of Mysore.

No. 7931-9—R. 991-92, DATED, BANGALORE, 2ND DECEMBER 1892.

ORDER THEREON.—The Comptroller having brought to notice that requisitions from Treasury Officers made at the instance of the Revenue Department for corrections in the District Treasury Cash Accounts, long after their receipt in his office, cause much inconvenience and lead to inaccuracy in the classification of the accounts furnished to Government and other Departments, Deputy Commissioners are requested to see that when monies are tendered to the Treasuries, the minor as well as the major heads of credit are correctly entered in the chellans sent therewith, and thus avoid the necessity of applying for corrections in the accounts once furnished to the Comptroller.

2. The attention of all Revenue officials (including Shanbhogs and Patels) should be drawn to Rule 3, Chapter I of the Civil Account Code, 5th Edition, which should be strictly enforced, and District Treasury Officers should exercise an effective check in the compiling branch of their office.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts,
The Comptroller to the Government of Mysore.

No. 8547-55—R. F. 213-92, DATED, BANGALORE, 11TH DECEMBER 1892.

ORDER.—The Government of His Highness the Maharaja are pleased to issue the following instructions in regard to the inspection of Treasuries in the Province:—

1. The Deputy Commissioner or one of his Assistants should inspect once at least every six months every Taluk Treasury in the District and report the result of his examination to the Comptroller.

2. Similarly, the Comptroller should inspect not less than once in every two years, every District Treasury in the Province and issue needful instructions to the officers concerned, reporting to Government such facts as may, in his opinion, require the orders of Government.

3. At every examination of a Treasury, attention should be paid to the defects pointed out and the instructions issued at the previous examination, with a view to seeing whether the defects have been corrected and the instructions have been carefully carried out. The Comptroller will be good enough to insert a query on this point among the list of queries to be answered in the prescribed form for Treasury inspection report.

T. ANANDA ROW,
Chief Secretary.

The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 11th December 189.

READ :—

Letter No. 107, dated 6th May 1892, from the Secretary to the Insurance Committee, submitting for sanction of Government a Memo containing the opinion of the Members of the Committee anent the Insurance of life to be effected by one Kesava Rao Naidu, a servant of this Government, lent for employment under the Southern Mahratta Railway Company.

No. 8767-807—R. F. 161-92, DATED, BANGALORE, 11TH DECEMBER 1892.

ORDER THEREON.—Government are of opinion that requirements of such cases will be met by amending Rule 26 by adding after the words "till his policy matures" the words "or when an Officer of the Mysore Government is "transferred to Foreign Service under the provisions of Section 388 of the "Mysore Service Regulations."

2. Thus modified, the Rule 26 will read as follows :—

"*Rule* 26. When an Insured, who has ceased to be in the service of Government, is permitted to continue to pay premium till his policy matures or when an Officer of the Mysore Government is transferred to Foreign Service under the provisions of Section 388 of the Mysore Service Regulations, he may be allowed by the Committee to pay such premium monthly, quarterly, half-yearly, or yearly into any Treasury of the Mysore Government. A grace of 15 days shall be allowed when the premium is payable monthly, and a grace of one month when it is paid otherwise. If the insured fails to pay the premium within the days of grace, no further cash payments shall be received from him, but the arrears due and all future premiums shall be treated as a debt against his policy and recovered with compound interest at 5 per cent from his bonus."

A notification to this effect will be issued in the Mysore Gazette.

Order.—It has been brought to the notice of the Government that there is at present a diversity of practice in regard to the levying of Court Fee on applications or petitions submitted by Abkari contractors. The Government agree with the Excise Commissioner and the Government Advocate that all papers from the contractors containing a prayer for the issue of licenses for permission to transfer shops from one place to another, for correction or alteration of names in the licenses, &c., should, under Article 1, Schedule II of the Court Fees Act, be stamped with a Court Fee label of one anna, and they direct that the said rule of the Court Fees Act be strictly adhered to.

T. ANANDA ROW,

To—The Excise Commissioner in Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 16th December 1892.

No. 8828-9—R. F. 216-92, DATED, BANGALORE, 16TH DECEMBER 1892.

ORDER.—The Government have had before them a proposal for the exaction of the service appertaining to the Blacksmith's Inam at Gabbur in the Nelamangala Taluk which is in the possession of a mortgagee since 1868. The holder of the Inam who executed the mortgage is said to have died without leaving any heirs. The villagers pray that the land be taken back from the mortgagee and given to a new blacksmith, but the Deputy Commissioner recommends as a temporary measure that the mortgagee be required to employ a blacksmith for the service of the villagers upon the latter undertaking to give mirasi.

2. In another case, however, in which the Carpenter's Inam of Tipsandra in the Magadi Taluk was concerned, the land was fully assessed and the title-deed submitted for cancellation, upon the failure of the Inamdar to pay jodi and the consequent sale of the land for arrears of jodi.

4. Inams of the above kind granted to artizans for services rendered to the village community differ in their nature from Inams granted to village officers. As the services in question are easily procurable, it does not appear to be necessary to protect the Inams granted in ancient times for the same from alienation and to transfer the Inam, on failure of one incumbent, to another, or to compel the alienee to render the services under Section VIII E of the original Settlement Rules. Inams of the class in question were confirmed as hereditary grants to the holders and their heirs, subject to the continued performance of the service for which they were granted, and the Government consider that on proof of non-performance of the service, the Inams may be resumed and the lands fully assessed.

5. In the cases referred to, the Inam tenure will be cancelled and the lands assessed and treated as ordinary kandayam lands.

Letter No. 2176-102 of the 14th October 1892 from the Excise Commissioner in Mysore, forwarding copy of a letter No. 717 of the 10th idem from the Deputy Commissioner of the Hassan District, requesting definite instructions as regards the disposal of questions connected with appointments, transfers, &c., of the subordinates of the Excise Department, and stating that the powers of Deputy Commissioners to appoint the officials of the said Department should be limited to Rs. 30 as in the Police Department.

No. 8831-9—R. 1113-92, DATED, BANGALORE, 17TH DECEMBER 1892.

ORDER THEREON.—As the powers of the Deputy Commissioners in regard to the appointment of subordinate officials in the Revenue Department extend up to the limit of Rs. 40 (as per orders contained in Notification Camp No. 141, dated 10th April 1888), the same limit may be observed in regard to appointments in the Excise Department.

Letter No. 857, dated 12th March 1890, from the Deputy Commissioner, Bangalore District, submitting Hoskote Amildar's report and stating that, as the Kola i Tank of Manchappanahalli village in the Hoskote Taluk was abandoned by the Public Works Department, the Kodagidar claims the stones of his Kodagi Tank.

ALSO:—

The subsequent correspondence ending with letter No. 2752—638 of 19th December 1890, from the Deputy Commissioner, Kolar District, submitting his opinion as to the right of Kodagidars to the materials of abandoned Tanks.

No. 9006-13—R. F. 221-92, DATED, BANGALORE, 20TH DECEMBER 1892.

ORDER THEREON.—Government observe that abandonment of Kodagi tank by the Public Works Department does not give any right to the Kodagidar to the stones. Enfranchisement relieves the Kodagidars of their rights and liabilities, and no reversionary right to the stones can be recognised.

7. *Judgment in Revenue Miscellaneous Case No. 3 of 1889-90 on the file of the Deputy Commissioner, Mysore District.*

The Jahgirdar of Yelandur who is the claimant in this case possesses the right to Toddy revenue within the limits of his Jahgir. The right is conceded by sannad.

2. As there are very few date trees in the Jahgir and the yield of Toddy from them if, any, is inappreciably small, the right to Toddy revenue practically amounts only to the Excise. There is not the element of rent for Jahgir trees.

3. Messrs. Davy, Muddappa and Co. were Government Toddy Contractors for the Mysore District from 1st April 1881 to 31st March 1887, a period of 72 months or 6 years.

4. They enjoyed the Jahgirdar's right to Toddy revenue by selling Toddy within Jahgir limits, alike within the Jahgir proper and within the limits of Inam villages comprised within the Jahgir. The Jahgirdar's present claim is of course for the former only.

5. The six years during which Messrs. Davy, Muddappa and Co. were Government Contractors comprise two contracts at different annual rates. The first contract was for two years and one month ending 30th April 1883 and the second one was for three years and eleven months ending 31st March 1887. The Jahgirdar claims similarly different rates for the two periods for himself.

6. The Jahgirdar's claim is as follows:—

	Rs.	A.	P.
For the first 2 years and 1 month at Rs. 9,279-8-1 per annum	19,332	4	10
For the next 3 years and 11 months at Rs. 8258-3-8 per annum	31,953	1	4
Total.....	51.285	6	2
Deduct paid by Davy, Muddappa and Co. ...	36,961	4	2
Balance due	16,324	2	0

is the net amount now claimed.

7. Reduced to rates per mensem, the above figures yield the following results:—

Claim Rs. 773-4-8 per mensem for 1st period, Rs. 679-13-8 per mensem for 2nd period, which give an average of Rs. 712 per mensem for both periods. Payment made by Davy, Muddappa and Co. Rs. 485-9-2 per mensem on an average for both periods.

8. The Jahgirdar calculates his rates by rule of proportions. Messrs. Taylor and Co., the first Government Toddy Contractors, were the first and only contractors to execute a muchalika to the Jahgirdar for working his rights. The rates at which the Jahgirdar demands from Davy, Muddappa and Co., are made to bear the same proportion to the rates paid to him by Messrs. Taylor and Co, which the aggregate amount of Messrs. Davy, Muddappa and Co.'s contract with Government bears to the aggregate amount of Messrs. Taylor and Co.'s contract with Government. In making this calculation no allowance is made for the facts that whereas Messrs. Taylor and Co.'s contract was for the entire Ashtagram Division and comprised Ganja, Opium, &c., in addition to Toddy, the contract of Messrs. Davy, Muddappa and Co., is for vend of Toddy only and in the Mysore District alone. But as the amount of Davy, Muddappa and Co.'s contract with Government is considerably higher than Taylor and Co's., such as the latter was, the defect in the Jahgirdar's calculation operates against the Jahgirdar, the claimant himself.

9. The pleas of Messrs. Davy, Muddappa and Co. in answer to the claim may be summed up as follows: —

(*a*) There was no agreement with the Jahgirdar.

(*b*) Rs. 485 is the monthly rate actually paid and which they consider payable in view of the amount paid by their immediate predecessors Messrs. Chik-Papanna and Co.

(*c*) The net actual receipts by sale of Toddy in the Jahgir do not allow of more being paid to the Jahgirdar.

10. Witnesses were examined and exhibits filed as per lists annexed to this judgment.

11. Between Taylor and Co., and Davy, Muddappa and Co., there were two contractors for a period of 6 years. The Jahgirdar took no agreement from them. His claims against them are still open and he has lodged them. It is therefore not possible to apply the rule of 5 previous years' average in this case in its fulness. These previous contractors have admittedly made some payments. The average figures are as follows:—

Rates per mensem.	
Claimed	Rs. 658—8— 1.
Actually paid	Rs. 586—2—10.

The amount of Davy, Muddappa and Co.'s contract with Government being larger, the rates payable by them to the Jahgirdar, if the rule of proportion be taken, will be higher at least than Rs. 586. But Davy, Muddappa and Co., refuse to concede more than Rs. 485.

12. There has been no diminution of the number of Toddy shops during the period of Davy, Muddappa and Co.'s contract. There is nothing to show that the sales have been less. On the other hand, it is on record and on the admission of Davy, Muddappa and Co., that to the date groves of the Chamrajnagar Taluk which usually supplied Toddy to the shops of Yelandur Jahgir, the Hosahalli Peta has been *added* in or about the year 1881. Hosahalli Peta previously supplied Toddy for export to Kollegal (Her Majesty's Territory). Such export beyond the limits of the farm having been prohibited in 1880, the Toddy of the Hosahalli Peta was allotted to Yelandur Jahgir. It is notorious and I have latterly myself seen many people of Kollegal drinking Toddy at shop in Yelandur Jahgir limits. This shows more Toddy sales and consequently better Toddy revenue.

13. In Dewan's Proceedings No. 1443-5, dated 17th November 1885, higher maximum rates were sanctioned for vend of toddy in 4 out of 23* shops in the Jahgir. There is nothing to show whether or not the contractors availed themselves of this concession. But it is proof that Toddy revenue has not been diminishing.

* 30 Shops in Taluk.
7 in Inam villages.
23 in Jahgir proper.

14. Every indication being thus in favor of improvement in Toddy revenue and there being no proof adduced that the cost of transit of Toddy from groves to Jahgir or expenses of management increased under Davy, Muddappa and Co., and the item under claim being practically Excise, there seems less reason to hesitate to concede to the Jahgirdar the benefit of improvement in the revenue and higher rates than what Davy, Muddappa and Co.'s predecessors paid.

15. The pleas adduced by the Respondents may next be considered in the order mentioned in para 9 above.

16. First as to the fact that there has been no agreement between the parties:—This is a flaw no doubt. But the circumstance cuts both ways. It is as much against the Jahgirdar who allowed his rights to be exercised as against the contractors who took the liberty of exercising them, without a distinct understanding

17. Next as to the comparison with the amount actually paid by their immediate predecessors Chik Papanna and Co:—The agreement is that Chik Papanna and Co., paid at the rate of Rs. 53o* per mensem, that Davy, Muddappa and Co.'s receipts have been less and that therefore Davy, Muddappa and Co., should pay less. There is nothing to show that Davy, Muddappa and Co.'s net receipts were less than Chik Papanna and Co.'s: on the contrary the circumstances which have already been adduced indicate larger receipts. Another argument is that because Davy, Muddappa and Co., paid Government more or the contract of the entire District, that therefore they should pay the Jahgirdar less than what Chik Papanna and Co. paid. This assumes that the Government contract is at the expense of the Inamdar's revenue, which is of course absurd.

*(Fractions omitted)

18. Next as to the plea that the net actual receipts which accrued to Davy, Muddappa and Co., do not allow of their paying more than what they have actually paid, *viz.*, Rs. 485 and odd per mensem:—Davy, Muddappa and Co., produce certain accounts, the abstract of which is embodied in the depositions. Even so, the argument goes too far, because on their own showing Davy, Muddappa and Co.'s net receipts amounted to Rs. *438 and a fraction. And they have paid at Rs. 485 and odd per month. It cannot be that they deliberately paid Rs. 47 more than actual receipts, and this shows that their payments have not been made with a reference to their actual net receipts as the latter is now calculated by them. Again their calculations of net receipts require examination. Their gross receipts have admittedly been Rs. 91,507 (omitting fractions). They set off against this certain items of expenditure among which the Amildar of Yelandur has taken no objection and none could fairly be taken to the following items:—

*The exact amount is Rs. 438—1—1.

		Rs.	As.	P.
Taluk establishment	..	3,754	7	5
Wages for drawing Toddy	..	931	6	8
Transport charges	..	391	1	5
Miscellaneous contingencies	..	475	9	10
	Total ..	5,552	9	4

to which may also be added 1,800—0—0, pay of an Inspector at Rs. 25 per mensem, making a total of Rs. 7,352—9—4. As Toddy is drawn in Government groves in the Chamrajnagar Taluk for sale in the Jahgir limits, no Toddy being available within the Jahgir, a rent for toddy groves, *i. e.*, the juice of toddy where it is drawn should also in common fairness be debited against the Jahgir receipts, though the Amildar of Yelandur objects. This may be taken at Rs. 485 per mensem, the figure which Davy, Muddappa and Co., take in their accounts, because long before the present takrar between Jahgirdar and Davy, Muddappa and Co., arose, the latter have for purposes of their own accounts fixed the aforesaid amount as what the Yelandur Jahgir should give the Chamrajnagar Taluk credit for (see Exhibit D) Rs. 485 per mensem amounts for the six years to Rs. 34,920 which added to Rs. 7,353 (in round numbers) already arrived at, gives a total of Rs 42,273 as the amount to be set

off against the gross receipts (Rs. 91,507). The balance is Rs. 49,234 which gives Rs. 684 per mensem. In this calculation two items mentioned by Davy, Muddappa and Co., are not taken into account. One is Rs. 7,200 proportionate cost of *Head Office charges* (at Rs. 100 per mensem). As the amount payable by Davy, Muddappa and Co., to the Jahgirdar is "compensation" as mentioned in the conditions of the Government contract, and as this is an item of expenditure which the Jahgirdar would have no need to incur if the item were under his own management, it seems to me that it is not a fair debit. The other is Rs. 7,200 (at Rs. 100 per mensem) for loss in sales of shendi in Chamrajnagar Taluk shops "in the neighbourhood of the topes "tapped for the Yelandur Jahgir." It is explained that when a date grove is tapped for toddy and there is also a shop established in the neighbourhood, the sales at the latter are less than they would be if the groves were not tapped but toddy brought from a distance, the reason being that toddy is drunk by stealth on the spot. The argument has only to be mentioned to be rejected. Thus on the accounts produced by Davy, Muddappa and Co., Rs. 684 (six hundred and eighty-four) appear to be the net monthly receipts. It should here be noted per contra that no allowance has been made for inefficient outstandings or irrecoverable balances, of which there is always a certain amount in transactions extending over large arrears and long periods of time.

19. Messrs. Davy, Muddappa and Co., have once (at all events) sub-leased the right of vending Toddy in the entire Jahgir for a period of 13 months from the middle of 1886. Timme Gauda agreed to pay them Rs. 1,255 per month. According to the terms of the bond (Exhibit B) this amount covers the rent for date groves in Chamrajnagar Taluk which usually supply Toddy to the Jahgir and includes Mohatarfa taxes, and Timme Gauda agrees to take over such shops in other Taluks as may suffer in consequence of the shops comprised in his own lease. Thus all the items which Davy, Muddappa and Co., desire to set off against the gross receipts happen to be allowed for in Timme Gauda's contract, and the net amount payable by Timme Gauda after making such allowance is Rs. 1,255 per mensem.

As this is for entire Jahgir including Inam villages, and as Rs. 109 may be taken to represent these villages (see Mr. Chik Muddappa's deposition), (1,255 – 109=) Rs. 1,146 represents the amount Timme Gauda paid to the contractors for Toddy revenue of Jahgir proper. Deducting Rs. 485 for rent of Toddy groves in the Chamrajnagar Taluk, the net receipts on account of Jahgirdar's Excise rights amount to Rs. (1,146 – 485=)661 per mensem.

20. On a consideration of all the circumstances of the case above set forth, it seems to me that an average monthly rate of Rs. *650* for the entire period of six years in question is fair, considering the interdependence of the two parties for Toddy revenue and the absence of any specific engagement between them.

21. Next as to the question of Local Fund:— The Jahgirdar pays no Local Funds to the State on the beriz of the Jahgir and the aforesaid award of Rs. 650 per mensem is based upon a consideration of amounts which are actual cash receipts irrespective of details of main revenue and Local Cess thereon. The amount of Rs. 650 will therefore be taken as representing the cash payable by Messrs. Davy, Muddappa and Co., to Jahgirdar irrespective of, *i. e.* including Local Fund, &c.

22. **At the rate of Rs. 650 per mensem the amount payable for the six years in question will be Rs. *46,800*. Deducting the Rs. *34,961—4—2* already paid, the balance of Rs. *11,838—11—10* (eleven thousand, eight hundred and thirty-eight rupees, eleven annas and ten pies) is hereby decreed to be paid on or before 31st December 1889 and with interest at 6 per cent per annum thereafter.**

***Dated, 14th November* 1889.**

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 11th December 1892.

8. *Judgment in Revenue Miscellaneous Case No. 4 of 1889-90 on the file of the Deputy Commissioner, Mysore District.*

This is a claim by the Jahgirdar of Yelandur advanced against Messrs. R. C. Muddappa and Co., Government Toddy Contractors for the Mysore District, for the 3 years comprised in the period from the 1st April 1887 to 31st March 1890. The claim is on account of Toddy revenue for the Jahgir.

2. The general remarks made in the judgment in the Jahgirdar's claim against Messrs. Davy, Muddappa and Co., the last preceding Contractors, apply to this case also.

3. The Contractors R. C. Muddappa and Co., have been selling Toddy within Jahgir limits.

4. The Jahgirdar claims payment at the rate of Rs. 809—12—6 per mensem, this rate being fixed by rule of proportions so as to bear the same proportion to the rate paid to him by Messrs. Taylor and Co., as that which the amount of R. C. Muddappa and Co.'s contract for the whole District with Government bears to the amount of Taylor and Co.'s contract.

5. The immediate predecessors of the Respondents in this case were Davy, Muddappa and Co. The amount payable by Davy, Muddappa and Co., forming the subject of takrar, it has been my duty to fix it at Rs. 650 per mensem, the rate *actually paid* by them, being a trifle more than Rs. 485 per mensem, and that *actually paid* by their predecessors again Chik Papanna and Co., being Rs. 533 which is about 15 Rs. less than what the Jahgirdar still claims from Chik Papanna and Co.

6. The Respondents R. C. Muddappa and Co., have yet paid nothing to the Jahgirdar.

7. R. C. Muddappa and Co's answer to the claim is :—

(*a*) That no amount is payable because the Yelandur Jahgir is mentioned among the Taluks comprised in their contract with Government.

(*b*) That if it be held otherwise, Rs. 250 per mensem should be the award, which is about half the rate paid by C. Papanna and Co.

8. The first plea of course cannot stand. By including Yelandur among the Taluks in which R. C. Muddappa and Co., were given the exclusive right of selling toddy, the Jahgirdar was only precluded from farming the Toddy revenue of the Jahgir seperately. He was not deprived of it or thereby disentitled to receive payment from the Government contractors any more than any other holder of an Inam village in the District was deprived or disentitled by the terms of the farm to R. C. Muddappa and Co.

9. All that has been set forth in the case against Davy, Muddappa and Co. has to be borne in mind in determining the proper rate payable by R. C. Muddappa and Co.

10. No proof has been adduced of circumstances which justify supposition that R. C. Muddappa and Co., have been working the farm in the Jahgir to less advantage than their predecessors. There is admittedly a decrease in the number of shops and Mr. R. C. Muddappa explains that he has been managing the farm under amani instead of by giving out shikni contracts as his predecessors did, and has found it expedient to reduce the number of shops. In the circumstances, this does not necessarily signify less revenue. Again whereas the number of shops under Davy, Muddappa and Co.'s contract was 23 in the Jahgir proper, the number under R. C. Muddappa and Co. is stated to be 21 besides special shops on special occasions. Unimportant as the variation in the number of shops is, the sales in these

21 shops should be regarded as greater than in the 23 shops of Davy, Muddappa and Co., because concurrently with these 23 shops there were seven shops within the limits of the Inam villages comprised in the Yelandur Taluk, whereas the present contractors R. C. Muddappa and Co. have abolished these shops.

11. The amount of R. C. Muddappa and Co.'s contract with Government is a trifle more than 19 Rs. per cent higher than that of their immediate predecessors Davy, Muddappa and Co.'s contract with Government. Toddy revenue during the years 1887-1890 should thus be taken as 19 per cent better than that during the years 1883-1887.

12. "Toddy Revenue" consists of Excise + Rent. According to the decision in the case against the previous Contractors (Davy, Muddappa and Co.)

The Excise is Rs. 650
The Rent is Rs. 485

so that the total Toddy revenue of the Yelandur Jahgir is Rs. 1,135. Improving this by 19 per cent, the amount is Rs. 1,350 (fractions omitted), the excess being Rs. 215. The Jahgirdar would be entitled to the whole of this if the date groves were his. But as they are not his and as he is as much dependent on the Government contractor as the latter is on the former, I would split the excess and divide it equally between the Jahgirdar and the Government contractor, *i. e.*, equally between "Excise" and "Rent," so that both elements might equally share in the prosperity of the revenue. Adding thus ($\frac{1}{2}$ of 215, *i. e.*) 107½ to Rs. 650, the total is Rs. 757-8-0. This rate per mensem I award.

13. As the contractors have been selling toddy in the Jahgir and the current year is well advanced, the above award shall take effect alike for the past and the remaining future period of R. C Muddappa and Co.'s contract which ends on 31st March 1890.

14. At Rs. 757—8—0 per mensem, the amount payable for the two years ending 31st March 1889 is Rs. 18,180. This shall be paid on or before 15th December 1889 with interest at 6 per cent per annum after that date.

The amount for six months ending 30th September 1889 is Rs. 4,545. This shall be paid on or before 31st December 1889 with interest at 6 per cent per annum thereafter.

The amount for each succeeding month shall be paid forthwith and monthly.

No. 9020-3—R. F. 223-92, DATED, BANGALORE, 11TH DECEMBER 1892.

ORDER THEREON.—In case No. 3, the Defendants Messrs. Davy, Muddappa and Co., were the Toddy Contractors of the Mysore District for 6 years from 1st April 1881 to 31st March 1887. They paid the Jahgirdar Rs. 34,961—4—2 as the Toddy Revenue of the Jahgir for the said period. The Jahgirdar claimed a balance of Rs. 16,324—2—0 and the Deputy Commissioner awarded Rs. 11,838-11-10. Both the Jahgirdar and the Contractors are dissatisfied with this decision of the Deputy Commissioner and appeal against it.

2. In the other case No. 4, Messrs. R. C. Muddappa and Co., were the Toddy Contractors of the Mysore District for three years from 1st April 1887 to 31st March 1890. They paid nothing to the Jahgirdar whose claim was at the rate of Rs. 809—12—6 per month for the 3 years. The Contractors offered to pay Rs. 250 a month and the Deputy Commissioner's award was for Rs. 757½ per month. Both parties appeal against this award. It is convenient to consider both these cases together, as the main contentions in them on either side are identical.

3. The Contractors executed no contracts to the Jahgirdar for the period in question from 1st April 1881 to 31st March 1890. The Jahgirdar therefore

based his claim upon a calculation of the increase due to him in proportion to the increase in the Government Toddy Revenue of the District, since Messrs. Taylor and Co's., contract. Messrs. Taylor and Co., were the Contractors from 1st April 1870 to 31st March 1875 and they paid the Jahgirdar Rs. 502—11—8 a month, but the amount of the Government Toddy Revenue of the Mysore District during their contract is not ascertainable, because that contract was for the Ashtagram Division and included Ganja and Opium. The contracts of the Defendants were for the Mysore District only and for the single item of Toddy alone. The Defendants' main contention was that in the absence of specific contracts between them and the Jahgirdar, the latter could not claim more than a reasonable sum calculated upon actual realizations. They further repudiated their objection to be bound by the rule of proportion on which the Jahgirdar had based his claim.

4. In order to decide whether the rule of proportion above referred to is binding upon the Toddy Contractors enjoying an Inamdar's Toddy rights, it is necessary to refer briefly to the previous orders on the subject.

5. By order of the late Chief Commissioner, dated 8th October 1873, the management of the Sayer and Abkari Revenues in Inam villages was formally ordered to be assumed by the Government and the Inamdars were promised payment of the net revenue realized. These orders were intended to cancel previous orders, which directed the reservation of Sayer and Abkari Revenue in Inam villages and the payment of compensation for such revenue, either by deduction of the average amount of such revenue from the quit-rent, if any, payable by the Inamdars, or by payment of the same to them in cash. The orders of 8th October 1873 did not introduce any practical change in the manner in which the Inamdar's Toddy rights used to be exercised for him by the Government, ever since the adoption of the contract system. Both before and after the issue of these orders, Toddy Revenue in Inam villages was being realized by the Government Contractor, a certain fixed sum being recognized as the amount of Toddy Revenue due to the Inamdar. This sum was originally fixed with reference to actual realizations when the Abkari was under direct Government management, and it was from time to time increased or decreased in the proportion of the increase or decrease of the Government Revenue, that is to say, of the amount the contractor paid to the Government. The Government Contractor has always paid the Inamdars their Toddy Revenue ascertained as above, and these payments have been made by him directly to them over and above the amount of the contract paid by him to the Government.

6. The arrangement above described has been definitely laid down in express terms by the orders of Government issued from time to time during the past 20 or 30 years and under it the Inamdar has always received his dues which were always regulated in proportion to the amount of the Government contract, unless for any special reasons the Inamdar and Contractor were able to enter into any special terms as to payment between themselves.

7. In August 1881, the Government ruled that in cases of dispute between Inamdar and Contractor as to the amount payable to the former by the latter, the Deputy Commissioner should fix the same with reference to the average receipts of the past five years.

8. The Toddy advertisements for the contracts from 1st April 1875 to 15th May 1879 and from 16th May 1879 to 31st March 1881 contained the following provision on this subject:—

"Lease of Toddy in Inam, &c., villages will be taken for the same period, and "on the same condition, as those of the Government contract at proportionate rates."

This was rather loosely worded, but the meaning of it was quite clear to both Government and the Contractor, and the latter executed his bond in the same terms.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 11th December 1892.

9. In subsequent Toddy advertisements, those from 1st April 1881 to 31st March 1884, and from 1st April 1884 to 31st March 1887, the *same existing* arrangement was expressed in somewhat different words with provision for decision by Deputy Commissioner in case of dispute. The words used were as follows:—

"No interference shall be made by the lessee with the rights as already "ascertained and defined of the holders of Jodi, Sarvamanyam, and Kayamgutta "villages, who are authorized by the sanad, &c., to exercise such rights within the "limits of their villages. Disputes regarding such rights will be decided by the "Deputy Commissioner of the District and the lessee shall be bound by such decision, "which shall be subject however to the confirmation or otherwise, on appeal, "of the Chief Commissioner."

10. In the Toddy advertisement for the period from 1st April 1887 to 31st March 1890, the same words have been used with additional express provision regarding disposal by "Deputy Commissioner of disputes regarding the amount of "compensation due to Inamdars as Toddy revenue." The orders of 1881 and subsequent years above referred to, in regard to disposal of disputes were not intended to abolish the rule of proportion, but merely provided a method for the disposal of disputes which might arise.

11. Under such circumstances, there can be no reasonable doubt as to the applicability, if feasible, of the rule of proportion to the cases now under consideration. But the real difficulty in these cases arises from the absence of sufficient material for the application of this rule. Admittedly the Jahgirdar has slept over his rights and omitted for many years to enforce the rule of proportion against the various contractors. He wishes now to go back to the period of Messrs. Taylor and Co.'s contract to ascertain what the Defendants have to pay him, and his accounts with the Contractors intermediate between Messrs. Taylor and Co. and the present Defendants are said to be still open and not finally settled. However all this may be, the Government cannot accept the arrangement made by the Jahgirdar with Messrs. Taylor and Co., as binding upon subsequent Toddy Contractors of the Mysore District, firstly because for reasons already stated, the amount of the Toddy Revenue of the Mysore District during that contract is not ascertainable, and secondly because the increase given to Inamdars by Messrs. Taylor and Co., was not itself arrived at by a strict calculation of the rule of proportion. Their predecessors, namely, Messrs. Arnachella Mudali, Vira Pille and Co., apparently paid no increase over Messrs. Edwards and Co.'s figures and Messrs. Brown, Ruchmal and Co. who succeeded Messrs. Taylor and Co., refused to calculate the increase payable by them upon Messrs. Taylor and Co.'s figures and were given the option of calculating it on the figures during Messrs. Edwards and Co.'s contract which terminated in 1868. It is not allowable now to go back to the contract of Messrs. Taylor and Co., merely because the Jahgirdar happens to hold a mutchalika executed by that firm and does not possess such a document from the subsequent contractors. If he had taken the trouble to get the amount payable to him by each successive contractor settled from time by time, there would have been no occasion for any doubt or difference of opinion in the matter. But in the circumstances in which unfortunately the Toddy Revenue of the Jahgir has been left unsettled, the Government in the interests of both parties did its best to obtain the best materials possible for a reasonable settlement. They caused a complete search to be made in the District records for information as regards actual Jahgir Toddy Revenue for a series of years, and they eventually sent for the Jahgir Amildar to produce any accounts likely to throw more light upon the subject. The result of all this investigation was to satisfy the Government of the utter uselessness of trying to apply the rule of proportion to the cases now before them. All they could get from the Jahgir Amildar was a list of the actual accounts paid by the various contractors from 1861-62 to 1879-80. It is seen from this list that Messrs. Edwards and Co. paid Rs. 5,016 per annum from 1863-64 to 1865-66, their successors till 1869-70 paid varying amounts in each

year which give an average of only Rs. 5,578 per annum. Next come Messrs. Taylor and Co. with Rs. 6,032 per annum up to 1873-74. The payments for the following years were as shown below :—

By.	Period of Contract.	Average per annum actually paid
Messrs. Brown and Ruchmal	... April 1875 to 16th May 1879 ...	Rs. 7,322
Messrs. C. Papanna and others	... 16th May 1879 to 31st March 1881 ..	Rs. 6,440

12. Calculating from Messrs. Edwards and Co.'s payment of Rs. 5,016 per annum, Messrs. Taylor and Co. should have paid Rs. 5,971, but they paid Rs. 6,032 : Messrs. Brown and Co., it is said, had to pay, at Rs. 8,506 per annum, Rs. 35,088, but paid only Rs. 30,204 ; Chik Papanna and Co. had to pay Rs. 12,324, but paid Rs. 12,000. With the history of the Jahgir Toddy Revenue as above described, it is impossible to apply the rule of proportion to the cases now under consideration in a reasonable and satisfactory manner. We cannot now for obvious reasons base our calculations upon the unenforced and disputed demand of the Jahgirdar against Messrs. Brown, Ruchmal and Co. But it may perhaps be remarked in this place that even upon calculations so based, the Jahgirdar cannot claim more than Rs. 680 per month from 1st April 1881 to 31st March 1887.

13. But it is undesirable to base our decision upon an imperfect and erroneous application of the rule of proportion which after all is intended only as a ready means of ascertaining the Inamdar's lawful dues. The Inamdar's real right is to receive what is realized in his Inam from Toddy, and the Government must ascertain the actual realizations by proper investigations when the rule of proportion cannot be readily applied, and when the Inamdar and Contractor are unable to arrive at an understanding on the subject. This procedure has to be resorted to in the cases now under consideration for the reasons already explained.

14. The Government have carefully studied the methods adopted by the Deputy Commissioner in case No. 3 for ascertaining the Jahgir Toddy Revenue and they are satisfied that the result arrived at by him is correct, and that Rs. 650 per month is a proper amount for the contractors to pay for the period from 1st April 1881 to 31st March 1887. The Government accordingly confirm the Deputy Commissioner's awards given in cases Nos. 3 and 4 for the period from 1st April 1881 to 31st March 1890 and decline to interfere with them in any way.

READ:—

Letter No. 276—264, dated the 13th June 1892, from the Deputy Commissioner, Shimoga District, bringing to notice the frequent failure of supari merchants to return the Sayer Rahadaris obtained by them.

I have the honor to state that one Rachotippa of Honnali obtained two Sayer Rahadaris Nos. 1233 and 1234 at Siralkoppa where he paid the duty on his supari consigned to the former place. He failed not only to show the Rahadaris at the kattes enroute and give them up at the final katte at Honnali under the existing practice, but also made no report of the consignment at any of the kattes.

2. His failure was discovered sometime after when the accounts of the Rahadaris issued were checked. On enquiry then, he pleaded to have lost the Rahadaris.

3. Failures of this kind are of frequent occurrence, and there is nothing in the rules as to how they should be dealt with. In fact, defaults are made with impunity, as no punishment is provided therefor.

4. For the protection of the Sayer Revenue, which is an important item in the Malnad District, it is highly necessary that a provision should be made to punish the defaulters.

5. So far back as 1884 a reference was made to Government on the subject in this office letter No. 2 06—156, dated the 23rd May, but the orders* of Government received thereon do not appear, I submit, to meet the point in question.

No. 7796-803—161, dated 26th September 1890.

6. I beg therefore to request that some definite orders may be passed on the subject.

7. In the case of licenses issued for Tangadi bark, a deposit of Rs. 5 in each case is received, which the license holder forfeits, if he should not return the license in time. A similar order may well meet the defaults to return the Sayer Rahadaris under adverteuce.

No. 9266-73—R. 1175-92, DATED, BANGALORE, 19TH DECEMBER 1892.

ORDER THEREON.—The Deputy Commissioners of other Districts are requested to favor the Government with their opinion on the suggestion made by Mr. Abdul Rahman in para 7 of the above letter.

It may be observed that the proposal of the Shimoga Deputy Commissioner would add to the great inconvenience to which supari exporters are already put. In the case of the Tangadi bark, the amount deposited is taken back from the Deputy Commissioners whose head-quarters in most Districts are on the way through which the bark is taken. But the case is otherwise as regards the Sayer Rahadari, as the merchant will have to return from the frontier to the District head-quarters to take back the deposit amount, which will be very troublesome to him. It is also a matter for consideration whether the Manegars of the final kattes to whom the Rahadaris have to be delivered could be safely entrusted with the power to refund deposits paid elsewhere.

The Government will defer passing final orders on the present reference, till the opinions of the other Deputy Commissioners are received.

Papers ending with letter from the Deputy Commissioner of Chitaldroog No. 321—2379 dated 3rd October 1890.

No. 9275-82—R. 1176-92, DATED, BANGALORE, 21ST DECEMBER 1892.

ORDER THEREON.—Krishnappa was the original Hakdar Shanbhog of the nine villages named in the Deputy Commissioner's letter. He married two wives and left issue by them. By a settlement in 1858, the nine villages were divided into three groups, one of which was allotted to the son by the 1st wife, the second of which was allotted to the sons by the 2nd wife, and the third (the Honnur group), which is the one now in question, was to be held in common by the two sets of sons, each set taking possession by turns. At present this 3rd group is in the possession of the descendants by the 1st wife. A quarrel having arisen in the family, the male representative of the family by the 2nd wife has had to bring a Revenue suit for declaration of right and assignment of share in the Hak to the 3rd group. The suit has been settled out of Court by an amicable arrangement, the effect of which is to recognize and confirm the settlement of 1858; and the Deputy Commissioner enquires whether the settlement might be recognized and the title to officiate in rotation allowed. These are the broad outlines of the question for the order of Government.

2. Plaintiff Venkataraya, grandson by the 2nd wife of the original Hakdar Krishnappa, and the 1st Defendant Sattyamma, widow of another grandson by the same 2nd wife, are the existing representativss of the family by the 2nd wife. The 2nd Defendant Krishnappa and the 3rd Defendant Channamallappa are grandsons by the 1st wife and the sole existing representatives of the family by the 1st wife. The proposals are :—

1st. That Venkataraya and Sattyamma on the one hand, and Krishnappa and Channamallappa on the other should equally enjoy the Hak of the Honnur group.

2nd. That Sattyamma's share should be commuted into an annuity of Rs. 30 payable by Venkataraya.

3rd. That Venkataraya (for himself and Sattyamma), and Channamallappa (for himself and Krishnappa) should officiate by turns a year at a time.

and 4th. That Venkataraya should be registerd as Baravarddar jointly with Channamallappa.

3. The proposals seem equitable, and if the Deputy Commissioner approves of the same, the Razinama can be given effect to so long as the arrangement is found to work satisfactorily, particularly as they do not clash with Firkas as constituted by the Survey Department.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 25th December 1892.

READ :—

Government Order No. 3867—25, dated 2nd July 1891.

The attention of the Inam Superintendent is drawn to Subject No. 122 (Treatment of excesses in Malnad Inams) brought up at the meeting of the Dasara Representative Assembly held in October last, and to the summary of discussion and the Dewan's reply recorded in the Proceedings below re-printed, and the Inam Superintendent is requested to submit a report thereon, with draft circular explaining existing rules in the sense of the Dewan's reply.

Summary of discussion.—Malnad Minor Inams should be treated in the way the Maidan Minor Inams are treated in regard to excesses in them.

Subject No. 122.
Treatment of excesses in Malnad Inams.

Deputy Commissioner.—The subject was referred to Colonel Grant by the Dewan's Order in page 39 of the last year's Proceedings. There are both kinds of Inams in the Manjarabad Taluk. Where the Inam is in land, it might be dealt with under the Minor Inam Rules for Maidan Taluks. Where it is a mere "Uttar," the Inam will have to be dealt with under the special rules applicable to Malnad Inams.

Colonel Grant.—The member is probably alluding to those cases in which Sarkar and Inam land have been mixed up, and the Survey Department have been dividing the land and allocating the Inam.

Dewan's reply.—In the language used in matters relating to Inam Settlements, the words "Malnad Inam" mean not an Inam situated in the Malnad, but an Inam granted by deduction in the demand on a Revenue Patta (Uttar as it is called). It is practically an Inam granted in cash and not in the shape of land. An Inam clearly in land should be dealt with in accordance with rules for Maidan Inams. In individual cases, where the settlement has been contrary to the above principles, appeals should be preferred to Government for a revision of the settlement.

---

2. Letter No. 29, dated 10th September 1891, from the Superintendent of Inam Settlements in Mysore, to the Chief Secretary to the Government of Mysore.

I have the honor to acknowledge the receipt of Order (Camp) No. 3867—25, dated 3rd July 1891, calling upon me to submit a report with draft circular explaining in the sense of Dewan's reply under Subject No. 122 brought up at the last Dasara Assembly, existing rules as affecting the treatment of Malnad and Maidan Inams respectively.

2. Looking at the summary of discussion on above Subject No. 122, it appears to me that the Representatives do not question the justice of the Rules for treating excesses in Malnad Inams, but ask as a concession that they may be treated in the same manner as Maidan Inams. Their representation would appear to apply to the less liberal addition out of the excess to the confirmed Inam as compared with the same process in the case of Maidan Inams, not to the justice of the mode of conversion. I do not think that any clearer distinction can be drawn between the two classes of Inam than has already been done in the Dewan's reply, *viz.*, that Malnad Inams were considered a cash grant, while Maidan Inams were considered clearly an assignment of land, and that if in any individual case it could be shown that what was really a measure of area had been treated as a mere cash grant, a revision of the settlement would be allowed. This broad distinction appears to me sufficient to form the basis of entertaining and disposing of any appeals.

Has the honor to request that some Sannads of a few typical Malnad Inams may be kindly obtained and forwarded to this Office for perusal by Government.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 25th December 1892.

His docket No. 2166—14, dated 9th May 1892, requesting to be furnished with some original Sanads of a few typical Malnad Inams.

Has the honor to forward herewith, as noted in the margin, 3 Sanads (in original) received with the reports of the Amils of Yedahalli and Tirthahalli Taluk, Nos. 51 and 605, dated respectively 28th July and 8th September 1892.

1. Sanad, dated in Revadi, granted by Rajamannaru to Rangappa, Judicial of Hidagavanahalli.

1. Do do do.

1. Tikki, dated Parabhu (1803) from Sabeha Thoppaya, Pergutteger, authorizing him to continue 3 Hyderi Pagodas worth of Inam land to Jois Seshagirisastri of Yedahalli.

2 The undersigned, however, is not prepared to regard these Sanads as typical. They may be so, but as a rule very few Sanads of Malnad Inams are forthcoming. In those now submitted, the land alluded to is not in measures of area but of value.

No. 10168-71—R. 1330-92, DATED, BANGALORE, 25TH DECEMBER 1892.

ORDER THEREON.—The correspondence read above will be forwarded to the Deputy Commissioner of Hassan.

2. The Government do not understand exactly the concession sought by the Inamdars in the Malnad Taluks. If any land Inams have been confirmed by the Inam Department in the Malnad Taluks, there is no objection whatever to the excesses discovered in these Inams, being dealt with under the rules sanctioned for Maidan Taluks in Government Proceedings, dated 12th December 1887, No. 3016-54—128, and the Inam Superintendent is authorized to do so. But if what the Inamdars wish is that in assigning lands in lieu of Inams held on the basis of Shist valuation, 50 per cent should be added to the amount of the assessment formerly held as Inam, because excess to the extent of 50 per cent is allowed to be treated as Inam in the case of land Inams in the Maidan Taluks, the request is clearly inadmissible. Excess to the extent of 50 per cent is allowed in the case of Inams in Maidan Taluks in consequence of the indefiniteness of the ancient land measures, but no such indefiniteness exists in the case of Inams determined by assessment. The Government note that 10 per cent is allowed in the case of Shist Inams and this appears to be more than ample for any remissions which the assignees may find it necessary to grant in famine years. The Deputy Commissioner of Hassan is requested to report if the Government have correctly understood the prayer of the Inamdars, and if not, to submit a clear report explaining the relief sought, by an illustration. If the Government have correctly understood the prayer of the Inamdars, the decision above arrived at may be communicated to the petitioners.

Letter No. 662, dated 6th January 1892, from the Deputy Commissioner, Hassan District, submitting for approval a specimen form for declaring forfeiture of holdings on account of default in the payment of land revenue.

No. 11500-8—R 1335-92, DATED, BANGALORE, 29TH DECEMBER 1892.

ORDER THEREON.—Before an occupancy or an alienated holding is sold for arrears of land revenue due thereon, there ought to be a declaration of forfeiture under Section 159 of the Land Revenue Code. In rule XXXVI, this is distinctly enjoined. When the notice of demand issued under Section 54 (Form I, Appendix J) has not been complied with, the Deputy Commissioner, if he directs the sale of the holding, shall record an order to the following effect:—

" The notice of demand issued under Section 54 of the Mysore Land Re-

Letter from the First Assistant to the Resident in Mysore, No. 4141—461-88, dated 21st December 1892 with enclosure.

In continuation of my letter No. 3330—461-88, dated the 17th October 1892, I am directed to forward, for information and guidance, a copy of a Circular No. 56—111, dated 29th November 1892, with two spare copies received from the Government of India in the Revenue and Agricultural Department regarding the preparation of Statement No. II of the return of the production of minerals.

CIRCULAR.

I am desired to invite attention to Statement No. II of the return of the production of minerals prescribed in Sir E. Buck's Circular No. 34—22, dated 21st December 1891, and to state that, in order to maintain uniformity in the character of the information exhibited in that return, the Government of India desire that any additional information which may be supplied for incorporation in it should be restricted to the following heads and given as far as possible in the order noted:—

(1) Locality or distribution.
(2) Extent of occurrence or production.
(3) Method of working.
(4) Present state of the industry.

2. The provisional index of the local distribution of minerals in India by the Director of the Geological Survey of India should be employed in the verification of information given under the first head, and where any difficulties occur in the indentification of minerals, that Officer should be consulted.

3. The return for the current year should give the whole information required in a succinct form; those for future years will merely correct or modify the information now given.

No. 11489-96—R. F. 52-92, DATED, BANGALORE, 31ST DECEMBER 1892.

ORDER THEREON.—Communicated to the Deputy Commissioners of Districts for information and guidance in continuation of Government Proceedings No. 6296-6303—R. F. 52-92 of the 30th October 1892.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 29th December 1892.

READ THE FOLLOWING PAPERS :—

(1) Letter No. 442, dated 7th September 1892, from the Superintendent, Mysore Revenue Survey, to the Chief Secretary to the Dewan of Mysore.

I have the honor to forward papers, as per margin, connected with the proposed revision of the assessment of the Malvalli Taluk of the Mysore District.

1. Survey Superintendent's Report No. 207, dated 2nd June 1892 with 4 appendices.

2. Survey Superintendent's letter No. 208 of 2nd idem, to the Deputy Commissioner, Mysore.

3. Deputy Commissioner's letter No. 1144 of 29th August 1892 with Sub-Division Officer's Report.

2. The correspondence ends with letter No. 1144 of the 29th August 1892 from the Deputy Commissioner. I am glad to find that the opinions, on the proposed settlement, expressed by that Officer as also by the Sub-Division Officer, differ very slightly from those which I myself entertain and which I have fully expressed in my report. The figures of the comparative statements given by the Deputy Commissioner at paras 5 and 6 regarding the agricultural resources of the Mandya and Malvalli Taluks simply bear out the conclusions which I have already arrived at. The chief point, however, is that both the Deputy Commissioner and the Sub-Division Officer are fully sensible of the propriety of making some allowance for the somewhat outlying position of the Malvalli Taluk which may be regarded as the most distinct feature of my proposals. The Deputy Commissioner thinks that perhaps the Taluk under report might bear higher rates than I have proposed, but, in view of the fact that, proportionately, the increase to the revenue is higher, notwithstanding the lowness of the rates, than was the case in Mandya, seems quite ready to waive any idea of suggesting higher rates than I have proposed. I quite concur in the opinion that the Taluk would bear somewhat higher assessment, but I prefer keeping my estimate at the pitch shown in my report and erring, if any thing, in the direction of moderation. I believe Government will share this view and I now confidently recommend the proposed settlement for sanction. The concurrence in opinion between myself and the revenue officers may, with the exception of some very trivial and minor details, be considered almost complete.

3. The giving out of the rates in the Malvalli Taluk, as Government is aware, was postponed last year owing to some existing distress and fears of still further distress, should the rains hold off. No fears happily need now be entertained of the immunity of the tract from famine, and I purpose, after receipt of the necessary sanction, giving out the rates about the middle of January next. I shall feel greatly obliged if sanction be accorded so as to admit of my carrying out the above programme.

(2) Letter No. 207, dated 2nd June 1892, from the Superintendent, Mysore Revenue Survey, to the Chief Secretary to the Government of Mysore.

I have the honor to submit the following proposals for the revision of the assessment of the Malvalli Taluk of the Mysore District.

2. As Appendices to this report will be found a sketch map of the Taluk and the usual report by the Classing Officer, Mr. Appu Rao, who has set down very clearly, in addition to much useful information, the results of his own observation and that of Mr. Narain Rao, who was also employed in classing the Taluk under report.

3. The Taluk of Malvalli contains the following Maganis or sub-divisions.

No.	Magani.	Government Villages.	Forests.	Kavals.	Alienated Villages.	Total.	Remarks.
1	2	3	4	5	6	7	8
1	Malvalli...	26	...	1	3	30	
2	Halgur	52	1	...	...	53	
3	Kulgere...	30	...	1	6	37	
4	Gavadgere	30	..	...	2	32	
5	Kirigaval	19	...	...	4	23	
6	Arsinkere	22	...	...	3	25	
7	Purigal...	30	...	...	11	41	
	Total.....	209	1	2	29	241	

4. The present report, excepting when otherwise specifically stated, deals only with the 209 Government villages above shown.

5. I do not intend to needlessly follow Mr. Appu Rao through all the details of his report but will content myself with quoting him, when necessary, on points immediately bearing on our present object. I agree generally with the conclusions arrived at by Mr. Appu Rao regarding the general condition of the Taluk and the people.

6. *General Description.*—The Taluk under report is healthy, enjoys a moderate rain-fall, and is fairly well populated. Its soils are of the ordinary red and sandy descriptions excepting towards the south-west where they improve both in depth and color. The crops vary with the soils, jola, cotton, and Bengal-gram being grown to some extent in the better soils, while only ragi, sáve, avare, togare and other pulses are grown in the poorer soils. The wet lands are remarkable for the almost entire absence of sugar-cane and may be described generally as inferior. Mulberry is raised in dry lands but is poor. It is, however, the chief crop raised in the garden lands which are otherwise insignificant, containing but little supari, plantains or cocoanut cultivation.

7. *Means of Communication.*—The means of communication described by the Classing Officer at para 8 of his report, require special notice. The Taluk is well provided with ordinary made roads, and cart tracks are common every where. The Shimsha river being unbridged and also having quick-sands, the old Mysore-Bangalore road is comparatively little used, but the Maddur-Kollegal road, being bridged throughout, is much more made use of. Prospectively, the line from Halgur to Channapatna once opened to traffic, the advantages enjoyed by this Taluk in ordinary made roads will be very great. But, however great these advantages may be, when we come to draw comparisons between Malvalli and the neighbouring settled Taluks of Mandya and Seringapatam, nothing will be found to compensate for the Railway which the two latter Taluks possess. It is true that some of the villages now under report are at no very great distance from Railway stations, such as Maddur and Channapatna, but still this distance, such as it is, is of much importance, especially when it comes to a question of assessment.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 29th December 1892.

8. *Condition of the Taluk.*—Summing up generally my views on the Taluk under report, I consider the raiyats fairly well-to-do, the country healthy, and the rain-fall moderately good and equally distributed. The Taluk, however, is somewhat out of the general line of traffic and there is, what I may call, a neglected corner in the south-east composed of the bulk, as regards area, of the Halgur Magani. Were some progress to be made in developing or rather resuscitating the iron industry, the condition of this tract, with its stretches of scrub jungle and widely scattered and paltry villages, would be much ameliorated. Mr. Appu Rao notes, what he belives to be a fact, that the population ordinarily of the Taluk is so great that the food grains raised are almost all locally consumed, the chief and almost only article of export being silk. Density of population is not often complained of in this Province and in the present instance, taken in conjunction with the general healthiness of the Taluk, the state of things described by Mr. Appu Rao is not altogether discouraging. What he states, however, and he is generally very accurate in his observations, points the remarks which I have already made upon the outlying position of this Taluk with reference to trade. Did a demand from outside exist, it is incredible that almost the sole articles of export should be silk and hides, or that, as stated by Mr. Appu Rao, the grain should be locally consumed. I think we may take the circumstances of this Taluk, so far as our observation goes in the absence of reliable returns of export and import, as pointing to only moderate prosperity in the present, whatever the future may bring forth, and to the disadvantage at which this border Taluk at present competes with the adjoining Taluks of Mandya and Seringapatam, each of which has its Railway. The imports seem to be by no means inconsiderable, although we can only guess at their amount.

9. *Markets.*—The internal, or local trade also of this Taluk is decidedly unimportant, to judge from the Classing Officer's Report, para 16. There are two markets only, one at Malvalli and the other at Halgur, neither being of much importance. It is sometimes the case that at fairs and festivals a good deal of bartering is done, but at the fair held at Sivasamudram, and at the car festival, very little trading business is done.

10. *Irrigation.*—Before proceeding to deal with the figures and statistics which, as a result of survey, are at our disposal, I will briefly allude to the question of irrigation which must necessarily form so large a factor in the prosperity of a Taluk like Malvalli. There are but three really important tanks, Malvalli, Marenhalli, and Kirgaval, of which that of Marenhalli is the most important. The remaining tanks in this Taluk are small and shallow. The repairs done to the latter part of the Ramaswami Channel, although chiefly of direct importance only to the large Inam village of Purigal held by the Jahagirdars of Sivasamudra, are worthy of notice as bearing indirectly upon the prosperity of the Taluk. The large tank at Arsinkere now under construction must also be noted.

11. *Statistics.*—The statistics collected during classification show the following results in the 209 Government villages under report :—

Villages.	Houses.	Population.	Square miles.	Cattle.	Ploughs.	Carts.	Markets.	Remarks.
1	2	3	4	5	6	7	8	9
209	11,804	62,845	290	1,13,415	10,673	3,981	2	

Mandya 182.
Seringapatam 263.

The population per square mile is 217, which compares, as per margin, with neighbouring Taluks. There are no large towns to swell the population, but at the same time there is no very large proportion of unculturable land, excepting in the Halgur Magani. The areas of Inam villages, 38,780 acres, and of Forests, 24,661 acres, are not included in my calculations. As Taluks run in Mysore, Malvalli is certainly well populated. The number of carts, 3,961, is also comparatively large, the fact being that, from its position, the Taluk is necessarily dependent upon carts for whatever trading is done. Cattle, it will be observed, although of good breed, are not numerous. The Taluk is in fact from an agricultural point of view, fairly prosperous but is still capable of much development. Naturally healthy, what is still required for this Taluk is a more general communication with the outside world, when, not only will an incentive be given to better cultivation, but better prices will be obtainable. If silk and hides are, as stated, the chief articles of export, they naturally would go towards Bangalore and, as already stated, the road in that direction is unbridged, while the Shimsha river prevents alternately the difficulties of quicksands and floods. There is no doubt in my mind that from a comparative point of view, Malvalli is behind the neighbouring settled Taluks of Mandya and Seringapatam, not only from its having no Railway but from its position generally.

12. *How divided up by Survey.*—The next important point is to see how the Taluk has been divided up by Survey. This is shown in the subjoined statement.

Description of land.	Area of Government lands.		Area of Inam Lands.	Total.		Grand Total.
	Occupied.	Waste.		Occupied.	Waste.	
1	2	3	4	5	6	7
Dry Crop	106,674	4,388	3,858	110,532	4,388	114,920
Rice	3,067	80	178	3,245	80	3,325
Garden	2,665	11	21	2,686	11	2,697
Total.....	112,406	4,479	4,057	116,463	4,479	120,942
Area of unculturable waste including village site, &c....						64,947
Area of alienated villages						38,780
Area of State Forests and Kavals						24,661
Total area of the whole Taluk, *i. e.*, 399 square miles...						2,49,330

There is not much arable land still left unoccupied, a fact which speaks well for the moderation generally of the old rates. The unarable land, not counting forests, is fairly extensive, but is very unevenly distributed. Mr. Appu Rao, at para 12, points out that there is a dearth of grazing, in parts, I presume, he means, for, near both the Cauvery and Shimsha rivers there is much unoccupied land. The Forest of Basvanbetta, it will be observed, occupies no less than 24,661 acres and in ordinary times is not available for pasturage.

13. *Incidence of old assessment.*—The sub-joined statement is very important as affording some idea of the weight of the old assessment. The newly ascertained area by survey is placed in juxta-position with the old collections under each head and the average rate paid in each Magani is thus deduced.

Number.	Magani.	Dry Crop.			Rice and Garden combined.		
		Acres by Survey.	Old Collections.	Average Rate.	Acres by Survey.	Old Collections.	Average Rate.
1	2	3	4	5	6	7	8
				R. A. P.			R. A. P.
1	Malvalli	16,685	7,247	0 6 11	1,556	5,923	3 12 11
2	Halgur	16,551	7,072	0 6 10	691	1,740	2 8 3
3	Kulgere	16,802	6,845	0 6 6	767	2,010	2 9 11
4	Gavadgere	11,761	4,627	0 6 4	405	1,189	2 15 0
5	Kirgaval	15,037	6,115	0 6 10	950	3,148	3 5 0
6	Arsukere	11,272	5,291	0 5 11	609	2,365	3 11 2
7	Purigal	15,560	6,428	0 6 7	754	1,282	1 11 2
	Total.....	106,674	43,925	0 6 7	5,732	17,657	3 1 3

From the above figures no idea can of course be formed of the extraordinary inequality that pervades the incidence of the old assessment on *villages*, and still more on *individual holdings*, but it is very clear that, as a whole, the old assessment was not heavy. It is worthy of remark that the Magani of Halgur with which, in my proposals, I shall deal very leniently, was, under the old system, assessed as highly as any part of the Taluk. The old dry assessment has rightly been kept by the farmers, whoever they were, considerably lower than in any of the adjoining settled Taluks of the District. The average wet rate shown is for wet and garden combined, the classification under the old system being too vague and inaccurate to furnish any useful comparison. Taking wet and garden together, we have very instructive information. Thus in the Purigal Magani where nearly all the wet and garden land is under river channels, the average rate paid was only Rs. 1—11—2 per acre, while in the remaining Maganis, with their small and shallow tanks, and certainly not superior gardens, the average rates go as high as Rs. 3—12—11. Great inequality of incidence is thus proved, and under the revised assessment I have no doubt much relief will be given, for, as a whole, the assessment of the wet and garden lands is but slightly raised and its distribution has been most carefully attended to.

14. *Area occupied as per old and new accounts.*—The following statement shows the area of the Taluk as now ascertained by Survey as against the area recorded in the old accounts.

Description.	Acres per old accounts.	Acres by Survey.
1	2	3
Dry	62,131	106,674
Wet and Garden	3,606	5,732
Total.....	65,737	112,406

The excess discovered is very great, especially in the area of wet and garden lands. Everywhere in the Province we find the dry area greatly understated in the old accounts, but it is unusual to find so great excess in the case of wet and garden lands as has now been discovered in the Taluk under report.

There has been remarkable steadiness in the collections but not that elasticity which might have been expected under the wide variations in prices during the period dealt with. Even the Famine, when it will be seen there were some remissions, affected the collections in a comparatively slight degree. The truth appears to me to be that the assessment, as a whole, was really moderate and that, with its comparatively dense population, the resignation of land in this Taluk was rarely resorted to, although, at the same time, sudden expansions of cultivation under the spur of high prices were uncommon. All this bears out my own opinion and that of the Classing Officer that the people of this Taluk, however much may yet remain to be done towards developing its resources and although it occupies a somewhat out-lying position, are fairly well-to-do. Malvalli is distinctly the kind of Taluk for which moderation in assessment is imperative, and I trust that the Government will consider that in the rates I am about to propose I have not lost sight of this important point.

16. *Proposed grouping of villages.*—For the purpose of assessing the villages under report, I propose to divide them into 3 groups as shown below :—

Group.	Number of villages.	Maximum Dry Rate.	Maximum Rice Rate.		Maximum Garden Rate.
			Ordinary.	River Channels.	
1	2	3	4	5	6
I	157	1 6 0	7 8 0	5 5 0	8 0 0
II	40	1 2 0	7 0 0		
III	12	0 14 0	7 0 0		

The first group represents the bulk of the Taluk in which no difference in Maximum rates is called for. The second group represents the best part of the Halgur Magani and the third group the worst part of that Magani situated amongst, and near, the Reserved Forests and broken country towards the south-east, for which Mr. Appu Rao very rightly solicits special consideration.

17. My proposed rates give the following estimated results :—

Group.	Villages.	Dry Crop.			Rice.						Garden.			Total.		
					Channel.			Ordinary.								
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
				Rs. A. P.			Rs. A. P.			Rs. A. P.			Rs. A. P.			Rs. A. P.
I ...	157	90,120	51,733	0 9 2	406	2,134	5 4 1	2,378	8,701	3 10 7	22,57	5,939	2 10 6	95,161	68,57	0 11 6
II ...	40	14,964	7,156	0 7 8	...	...	...	287	931	3 4 8	406	1,002	2 7 6	15,653	9,089	0 9 8
III ...	12	1,590	532	0 5 7	...	..	..	...	..	...	2	31	8 0	1,592	55	0 5 7
	209	1,06,674	59,441	0 8 11	406	2,134	5 4 1	2,661	9,635	3 9 11	2,663	7,004	2 10 1	1,12,406	78,214	0 11 2

The average dry rate, Re. 0—8—11, is very moderate and the wet, or rice average rate, when it is considered that 406 acres of river Channel Rice are included, must be considered, relatively, even still more moderate. The rate for garden land, averaging only Rs. 2—10—1, speaks for itself. The garden lands, although by no means of a high order, are lightly assessed at so low an average rate.

18. The extent and assessment of the waste assessed land available for cultivation is shown below :—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14

The whole available area is very small and will be further reduced by assignments of free grazing under Section 39 of the Mysore Land Revenue Code.

19. The extent and assessment of the Inam lands are shown below :—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.

20. Finally the result of the proposed rates for the whole area. Government occupied waste and Inam is shown in contrast with the past collections in each group:—

		By old accounts.		By Survey.							
				Government occupied.		Government waste.		Inam.		Total.	
Group.	Villages.	Bijavani into Khandis.	Collections	Acres.	Assessment	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.

I ...	157	5,470	52,791	95,161	68,570	4,114	2,428	3,436	2,450	102,711	73,448
II ...	40	948	8,517	15,653	9,089	286	120	601	430	16,540	9,639
III ...	12	18	295	1,592	555	79	28	20	7	1,691	590
3	209	6,436	61,603	112,406	78,214	4,479	2,576	4,057	2,887	120,942	83,677

21. *Grazing.*—The grazing realizations have been very small amounting to only Rs. 817 last year for the whole Taluk. Seeing that the area of unoccupied land is likely to be curtailed by the allotment of free pasturage, I will keep my estimate at the same figure. The allotments of free grazing will have to be somewhat liberal, but nevertheless, under more careful management, the realizations on the residuum may perhaps equal at any rate those of 1890-91.

22. *One Anna Local cess.*—The one anna local cess brought in the sum of Rs. 5,316 in 1890-91. Under the proposed settlement the amount will be Rs. 5,225 on the occupied lands and about Rs. 180 on the Minor Inam lands, in all Rs. 5,405. Some items other than Land Revenue have evidently been included by the Revenue authorities, but as the cess is proportionate, the matter is of no importance.

23. *Irrigation Fund.*—The annual contribution to the Irrigation Fund will be about Rs. 1,100.

24. *General Results of proposed settlement.*—The general result of the proposed settlement is that the Land Revenue of 1890-91, which was Rs. 61,582, now becomes Rs. 78,214, excluding in either case any estimates of sale of grazing or Local cesses. This represents an increase of Rs. 16,611 or about 26 per cent which may perhaps appear somewhat inconsistent with my claim to moderation for the new rates, but it must be borne in mind that the remuneration of Shanbogs and Patels will cost Government some Rs. 4,500 out of the above increase, while the ryots will be relieved of the payment they now make to Shanbogs which (see para 22 of Classing Officer's Report) are considerable, although the Patels get little or nothing. In themselves the new rates are extremely low, and notwithstanding the somewhat large addition to the Revenue demand they cause, it would have verged on the absurd to have pitched them much lower and considering also how well populated the tract under report is and how very little waste land is left available for cultivation. There is in fact no object in adopting lower rates which regarded *as* rates are much lower than the nominal old rates, the increase in the total demand being entirely due to the larger area discovered by survey to be occupied as compared with that shown in the old accounts.

25. The usual Classwar statement will be found appended as well as a list o the Inam villages with the kind of survey applied to each.

(3.) Report on the Malvalli Taluk, Mysore District, classed by the M and E Establishments, Mysore Revenue Survey, under the charge of Messrs. Appu Rao and Narayan Rao, respectively.

Situation, Boundaries, Area.

1. The Taluk is situated to the north-east of the Mysore District and is bounded on the north by the Mandya and Clospet Taluks, on the east by the Kankanhalli Taluk, on the south partly by the Coimbatore District of Madras, and partly by the Tirumakudlu-Narsipur Taluk, and on the west by the last mentioned Taluk and part of Mandya. The extreme length east and west is about 28 miles and the extreme breadth north and south about 22 miles. The entire area according to the Revenue Survey is 216,308 acres or 338 square miles, of which 154,053 acres or nearly 241 square miles is arable. The Taluk is fairly regular in shape and the Head-quarters, Malvalli, occupies a very convenient position about the centre; and is about 17 miles from the Maddur Railway Station.

Population.

2. The population of the Taluk, according to the latest Census taken in February last, is 85,428 souls being on an average 253 per square mile of the arable area. The population is generally very evenly distributed.

Divisions.

3. The Taluk is divided into 7 hoblis and contains 241 villages including kavals and forests distributed among the several hoblis as shown below :—

No.	Hoblis.	Government Villages.	Kavals.	Forests.	Inam Villages.	Total.	Remarks.

7	Purigal	30	...	...	11	41	
	Total	209	2	1	29	241	

Physical Features.

4. The whole of the Taluk except the Halagur Hobli on the south-east and eastern frontier is one undulating plain with scarcely a hill to break the monotony of its appearance. The Halagur Hobli is, at its southern and south-eastern frontier traversed by several ranges of hills, short in length and irregular in their situation. The river Cauvery runs along the southern boundary. It is joined near the south-eastern corner of the Taluk by the Shimsha or the Maddur Holé, as it is locally named. This tributary enters the Taluk in the north, near the point where the boundaries of Mandya, Closepet and Malvalli converge, and runs several miles to the east before it takes its southern course to join the Cauvery. About six miles above the confluence of the Cauvery and Shimsha, and, on the border between Mysore and Coimbatore, the former divides itself into two branches both of which precipitate themselves into deep ravines. This fall of water is known to the public as the Sivasamudra or Cauvery falls. Numerous visitors go there to enjoy the beautiful scenery around and for sport, but the locality is very unhealthy and the country around very sparcely populated. In fact one has to send a messenger more than four or five miles to get anything one wants.

Forests and Topes.

5. There is one State Forest in the Taluk called the Basavanbetta, situated in the Halagur Hobli on the eastern frontier. It is 21,052 acres in extent. There are some good topes in the Kirgaval, Malvalli and part of Gaudagere Hoblis; most of them belonging to private individuals.

Rain-fall

6. The rain-fall of the Taluk, according to statistics furnished by the Amildar, ranges from 14 to 20 inches per annum. The average for the last 5 years is 27 inches; and is very evenly distributed, the Halagur Hobli villages even with their proximity to hills and forests not differing much, in this respect, from the rest of the Taluk.

Irrigation.

7. Except the Halagur Hobli which is almost devoid of irrigation works of any kind, the Taluk is studded with tanks. The chief of them are the Malvalli, Maranhalli and Kirgaval Tanks. Indeed the Maranhalli Tank is perhaps the only important one in the Taluk, as the two others very frequently run dry. The other tanks are generally very small and shallow and, in spite of the attention given to them by the Revenue authorities, are not capable of holding water sufficient to raise rice crops under them regularly every year. A large tank is now under construction in the Arsikere Hobli across a large stream called the "Hebballa" which is a tributary of the Shimsha. It is estimated to cost over a lakh of rupees, and work was in progress when the surrounding villages were classed. The latter part of the Ramaswami Channel led off from the Cauvery near Bannur extending from the 30th to the 38th mile, runs through a portion of this Taluk. This part of it was long out of repair and

in disuse; but it has been recently restored and made available for a large extent of land in the Purigal Hobli. This work however benefits only a small extent of land belonging to Government villages, the major portion being available for the large Inam village Purigal held by the Jahgirdars of Sivansamudra.

Roads.

8. A road from Seringapatam to Kollegal in the Coimbatore District runs parallel to the southern boundary of the Taluk, only a few miles from the frontier. Another is the old main road from Mysore to Bangalore and runs east to west about the middle of the Taluk; and a third from the Maddur Railway Station to Kollegal, crosses the Bangalore-Mysore line at Malvalli, almost at right angles. There are bridges across the Cauvery near Sivansamudra on the road to Kollegal and the streams all along the line from Maddur are bridged. This road is therefore available for traffic at all seasons. On the Mysore-Bangalore line there does not appear to be much traffic on the Bangalore side. The river Shimsha on the Bangalore side of this line presents serious impediments to traffic on account of quick sands in several places in fair weather and floods in the rains. It is unbridged at present, but it is a question whether, owing to the smallness of the traffic that makes use of this road, it is worth while building a bridge across the river. A trace of a road has been opened from Halagur to Channapatna, a Railway Station of some importance situated about the same distance that Malvalli is from Maddur, and when it is opend for traffic the Taluk will have nothing left to be desired in the matter of roads. There are cart tracks all over the Taluk available for use in fair weather.

Soils.

9. A glance at the map of the Taluk will show that it is divided into four parts by the two roads Bangalore-Mysore and Maddur-Kollegal that cross each other near Malvalli. The soil in the quarter bounded by the roads running east and south of Malvalli is generally rocky and shallow. So also is the soil in a few villages of the Arsinkere Hobli on the north-western border. In the remaining parts of the Taluk the soil is generally red, mixed more or less with sand. The soil increases in depth, richness of color and fertility as one proceeds south-west and it is on the border of the Tirumakudlu-Narsipur Taluk that perhaps the richest soils, including patches of black soil, are met with.

Crops.

10. The principal dry crops grown in the Taluk are ragi, jola, sáme, avare, togari, gram and other pulses and oil-seeds. Here and there dry lands containing mulberry grown without irrigation are also met with, but the crops raised were evidently very poor. Chillies are also grown in small patches of dry land. Cotton and Bengal-gram are raised in very small quantities in the richer lands in the south-west. Rice is grown under tanks, but, this crop, except under the Marenhalli, Malvalli and Kirgaval tanks, is not, owing to insufficiency of water, raised every year. Mulberry is grown in rice lands irrigated by tanks. Sugar-cane is almost unknown. There is not much garden cultivation; and wherever gardens do exsit, mulberry is the principal crop raised. Betel-leaves, cocoanuts and plantains are also grown, but in such small quantities as to be barely enough for local consumption.

Manure.

11. The manure used for all kinds of dry crop is generally the refuse of cattle sheds. For rice crops under the larger tanks, the leaves of Honge and Nim trees and of the Ugani creeper are used. Silt removed from tank beds is also made use of to enrich lands in which gardens are got up.

Agricultural Stock.

12. The Amildar furnishes the following figures in regard to the agricultural stock of the Taluk:—

1.	Cows and bullocks	..	21,648
2.	Buffaloes	..	8,281
3.	Horses and ponies	..	126
4.	Donkeys	..	965
5.	Sheep and goats	..	63,126
6	Carts		720

One is struck with the comparatively small number of cattle especially cows and bullocks in the Taluk; and another equally striking thing is that cows are freely yoked to ploughs and carts. There is generally a dearth of gazing land. In the Halgur Hobli almost all the waste land and jungle has been reserved as forest and in the other hoblis almost all the available land has been taken up for cultivation. This perhaps accounts for the smaller number of cattle in the Taluk, but they appear to be of a superior breed and good care is taken of them by their owners.

Manufactures.

13. There are no important manufactures in the Taluk. Ordinary rough cloth and cumblis used by the poorer classes are manufactured in villages, but these are being gradually superseded by machine made peice goods imported from Bombay and Madras. Some dotis and silk cloths are made in Malvalli, but the demand for them is not very keen and the supply hardly equal to the limited demand.

14. Halagur, the chief village of the Halagur Hobli, is said to have been in days of old the seat of an extensive trade in iron and iron goods. Iron ore is found in the vicinity, and as then the supply of fuel and charcoal was unlimited, a large quantity of iron was smelted and eventually manufactured into various articles. The surrounding forests have, since then, become thinned and consequently restrictions have been placed upon the cutting of fuel and burning of charcoal. The smelting of iron ore has therefore been almost abandoned, only one forge being found to be in working order and that too in an Inam village. Iron goods are however made up in two villages by blacksmiths from iron imported from Europe. A gentleman from Madras Dr. Dhanakoti Raju has obtained special concessions from Government to develop the iron resources of this Taluk and of those that adjoin it: but no work has been begun yet. The scarcity of fuel, the comparatively high wages demanded by workmen skilled in this work, and the keen competition of men importing iron from outside, have hitherto proved very great obstacles in the way of keeping up the indigenous manufactures, and it is only when these are met by capitalists, by the use of machine on the one hand and by special advantages possessed in regard to fuel, on the other, that there is any chance of the attempt to develop the iron industry succeeding.

Imports and Exports.

15. No accurate returns showing the trade of the Taluk are available. The principal imports however appear to be ragi, rice and other food grains, jaggery, tobacco, piece goods and iron. A large number of cattle is also imported from the Coimbatore District. Silk and hides are the chief articles of export. The Amildar estimates the value of silk exported annually at Rs. 60,000. The bulk of the exports is consigned to Bangalore, and the imports come partly from Bangalore and partly from the surrounding taluks.

Markets.

16. Two weekly markets are held, one at Malvalli and another at Halagur. They are however not very important. A fair is held once a year near the Sivansamudra falls in honor of a Muhammadan Saint, but it is more a festive gathering than a market where things are brought and sold. A car festival is held annually in honor of Marenhalli Narsinhaswami, and this too is equally unimportant as regards trade.

Weights and Measures.

17. The units of weights and measures in use in the Taluk are the same as elsewhere. The khandi in use is equal to 200 measures and not 160 as prevailing in Seringapatam and Mysore.

Prices.

18. The average prices of the principal food grains are stated by the Amildar to be as follows:—

Paddy	30	seers	per	rupee.
Ragi	33	"	"	"
Jola	40	"	"	"
Gram	30	"	"	"

Wages.

19. An agricutural man cooly gets two annas and a female one anna and four pies per day on an average. The hire of a plough is 4 annas and of a cart 12 annas a day. Skilled labor commands higher wages in proportion to the rates given above.

Rates of Assessment.

20. The rates of assessment prevailing in the Taluk as reported by the Amildar and as found for numbers tested are given below :—

As furnished by the Amildar.

Hobli.	Dry crop per khandi= 64,000 square yards.		Price per khandi= 1,000 square yards.		Garden per khandi= 10,000 square yards.	
	From.	To.	From.	To.	From.	To.
Malvalli	1 7 8	62 8 0	8 11 8	14 8 9	8 11 8	13 1 7
Halagur	1 7 4	81 7 4	5 13 2	14 8 9	5 13 1	23 4 6
Purigal	1 7 4	18 12 0	5 13 1	14 5 5	5 13 1	14 8 9
Kirgaval	2 11 7	36 7 4	8 11 8	13 1 6	5 13 2	23 4 6
Arsinkere	1 7 4	81 7 4	5 13 2	14 8 9	7 4 4	8 11 8
Gaudgere	2 11 6	31 0 8	5 13 2	14 8 9	7 4 4	8 11 8
Kulgere	1 7 4	81 7 4	5 13 2	14 8 9	15 2 6	50 0 0

As found at Test.

Hobli.	Dry crop per acre.	Rice per acre.	Garden per acre.
Malvalli	0 8 6	4 1 8	3 5
Halagur	0 8 11	4 6 0	1 15 9
Purigal	0 6 0	2 8 1	3 9 6
Kirgaval	0 9 3	4 8 7	2 9 9
Arsinkere	0 8 2	4 2 0	6 7 4
Gaudgere	0 6 8	4 14 0	1 11 11
Kulgere	0 6 7	4 3 11	2 1 10

The average found for test numbers is admittedly more accurate than the figures supplied by the Amildar, but I am sorry much information on this point could not be gathered at the time of test on account of the non-attendance of Shanbhogs in most villages. They were said to have been engaged in doing census, jamabandi and collection work.

Sub letting.

21. Lands wherever sub-let are on the usual vara or half share tenure. Rice lands under the Cauvery Coamel in the Purigal Hobli used to be let for a fixed quantity of grain, when the channel was in good order. The channel is now restored and this form of sub-letting will, it is expected, be revived. The rice lands under the channels are generally held by capitalists and this is the most convenient way for them to let their lands. Elsewhere the greater part of the holdings in the Taluk are small in size and sub-letting does not appear to prevail to any great extent. The lands themselves are generally poor and possibly do not leave much profit to a middle man.

Remuneration of Village Servants.

22. The Patels of the Arsinkere Hobli get a sum of Rs. 80—4—4 in cash annually from Government. This sum distributed over the several Patels gives an average of Rs. 3-10-4 per man per annum. In the other hoblis the Patels get no remuneration whatever either in the shape of inam lands or ready monny or aya from raiyats. The

Shanbhogs get paid in ready money from Government and further receive fees from raiyats, four annas from each agricultural raiyat and two to three annas from a non-agriculturist. The Totis, Talavars and Nirgantis are given Inam lands and get aya besides.

23. The Halagur Hobli contains fewer and less important tanks and at present does not possess the same facilities for exporting its surplus produce, as the other parts of the Taluk. The marginally noted villages of this hobli are situated right within the Basvanbetta Forest and consequently very difficult of access. They are mostly bechirakh and the one village that is inhabited contains very few houses. There is not much land under cultivation in them, the greater part of it being used for grazing purposes. These villages, I beg to submit, deserve special consideration. The other parts of the Taluk are generally uniform in all respects. The soils are generally poor, the climate very healthy and the villages populous, so much so that the local production of food grains is not enough for local requirements. A large number of the poorer classes migrate, during certain parts of the year, to labor in coffee estates and a considerable quantity of food grains is imported, the value of ragi alone being Rs. 67,000. On the whole the people inhabiting the Taluk appear to be fairly well-to-do.

Conclusion.

1. Basavanhalli.
2. Sambapura.
3. Sallagere.
4. Hamavi.
5. Majre Muttatti.
6. Majre Majgimallenhalli.
7. Talvadi.
8. Basavegaudanadoddi.
9. Dalankatte.
10. Salaba.

(4) Letter No. 208, dated 2nd June 1892, from the Superintendent, Mysore Revenue Survey, to the Deputy Commissioner, Mysore District.

I have the honor to forward for your perusal and kind return at an early date, my Report No. 207 of today's date (with its 4 accompaniments) containing proposals for the revision of assessment of the Malvalli Taluk of your District with any remarks you may desire to make on the same.

---

(5) Letter No. 1144, dated 29th August 1892, from the Deputy Commissioner, Mysore District, to the Superintendent Mysore, Revenue Survey.

I have the honor to return the papers relating to the settlement of the Malvalli Taluk, received with your letter No. 208, dated 2nd June 1892. I had sent the papers for the opinion of the Sub-Division Officer, French Rocks, and his letter in reply is also enclosed.

2. The Taluk is fairly well off as regards communications, being tranversed throughout its length and breadth by two roads which intersect almost in the middle of the Taluk. The Kasaba town is about 14 miles from the Maddur Railway Station. The portions to the north of the Mysore-Kankanhalli road are not more remote from the Railway line than are the remoter parts of the Mandya Taluk to the north of that line. There is rough cart track connecting Halgur Hobli with Channapatna and the Kirgaval Hobli is very near Bannur-Mandya road and the Shimsha river contains little water in the hot season, when most of the traffic in dry grains generally takes place. Thus though the Railway line is not running through the Taluk it may be stated that the Taluk is within easy distance of it.

3. The rain-fall of the Taluk, as prepared from the information available in this office, is given in the margin, for the last 12 years as compared with that of Mandya. It will be seen therefrom that the difference is not great except in 1891-92 which is an exceptionally bad year.

	1880—81		1881—82		1882—83		1883—84		1884—85		1885—86		1886—87		1887—88		1888—89		1889—90		1890—91		1891—92	
	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.	t.	c.
Kalvalli	...	41	23	17	11	28	31	..	...	...	...	..	21	9	32	66	27	77	28	36	23	67	30	3	11	37

4. The population of the Taluk according to the settlement papers is 218 per square mile, and compares very favorably with that of Mandya with a density of 182. It may, however, be observed that the latter figure was calculated on the population according to the Census of 1881 and that the results will be more favorable, if allowance be made for the increase since. As the population of the Koppa Magani cannot be separated, no comparasion can be easily made between the figures obtained in the last Census and those given in the settlement papers for Mandya. But the whole population of Mandya and Malvalli, as per last Census, are 99,566 and 85,428 respectively for a total area of 439 and 351 square miles (excluding State Forests). This gives a density of population of 227 and 243 respectively.

5. As regards other agricultural resources also, the Malvalli Taluk appears to be as well off, if not better than the Mandya Taluk. An examination of the annexed comparative statement will show this clearly:—

	Square miles.	Houses.	Cattle.										Ploughs.	Carts.
	Total area		Bulls and Bullocks.	Cows.	He buffaloes.	She buffaloes.	Calves.	Sheep.	Goats.	Horses and Ponies.	Mules and Donkeys.	Camels.	Total.	
Malvalli excluding State Forests	351	13,752	8,974	12,003	3,284	5,002	671	42,944	20,182	432	965	...	94,507	11,518	770
Mandya	439	18,896	9,250	16,422	429	829	4,892	45,125	15,408	175	915	..	93,447	10,423	750

6. The above figures are taken from the statement of agricultural stock of the District for the year 1890-91. The number of calves in Malvalli is too small compared with that of cows, due probably to errors in classification. Taking the total number of cattle, however Malvalli is deficient by only 1,888 for a deficiency of area of 88 square miles.

Calculating the number of houses, &c., per square mile, we get the following figures:—

	Houses.	Population.	Ploughs.	Cattle.	Carts.
Malvalli	39·1	243	32·8	269·2	2·05
Mandya	43·04	227	23·7	212·8	1·7

7. Considering that Mandya has a greater extent of wet land under tanks and channels, this disparity in agricultural resources is rather remarkable.

8. It may also be observed that while a large amount of money was spent in the Mandya Taluk, within the last 20 years in restoring the serial tanks and constructing the Railway line, no such large outlay was incurred on public works in the Malvalli Taluk. That in spite of such impetus to increase of general prosperity, Malvalli should compare so favorably as regards its agricultural condition, argues that its natural resources must be superior to those of Mandya, and probably the proximity of the State Forest of Basvanbetta is a great advantage to Malvalli, while Mandya has no such tract. This prosperity may perhaps be attributed to the lightness of assessment prevailing in the taluk, but even here the difference is not so great as entirely to account for this increase. The dry rates are said to have ranged from annas 10—9 to 39—6—9 in this taluk, as against annas 0—1—7 to 7—0—0 in the Mandya Taluk. The average rates of old collections, according to the area ascertained in the survey, are annas 6—7 and 7—8 for the two taluks respectively. I do not refer to the assessment on rice and garden lands, as the area of such lands in this Taluk is very small and may be omitted out of consideration.

9. The past collections have been uniformly steady and the famine of 1875-76 does not appear to have affected this taluk to any appreciable extent, the remis-

sions having been but insignificant. This steadiness is no doubt due, as explained in your report, to most of the dry arable land having been occupied and to the limited extent of wet lands. It is only in the holding of lands of the latter description that large fluctuations occur, as the raiyats resign them when the tanks do not fill and take them up again in the seasons of copious rain-fall.

10. As regards the nature of the soil of Mandya, it was remarked in your report that a large proportion of the fields in the dry lands was of the shallow, sandy and gravelly kind though passing through a great number of gradations of your scale. According to Mr. Appu Rao, the soil of Malvalli is rocky and shallow only in portions to the south of the Mysore-Kankanhalli road and east of the Malvalli-Sivasamudram road and in parts of Dodda Arsinkere Hobli the remainder being red mixed with sand. There is thus apparently not much to choose between the soils of dry lands of the Mandya and Malvalli Taluks.

11. The maximum rates of assessment proposed to be adopted for Malvalli are Rs. 1—6—0, 1—2—0 and 0—14—0 for the dry, Rs. 8—8—0 for wet lands under river channels, Rs. 7—8—0 and Rs. 7—0—0 for other wet lands and Rs 8—0—0 for garden. The corresponding rates for Mandya are.—dry Rs. 1—11—0 and 1—8—0, Rs. 9—0—0 for wet lands under river fed channels and Rs. 8—0—0 for other wet lands and Rs 10 for garden lands. My remarks in the preceding paras about the condition and resources of the Malvalli Taluk as compared with those of Mandya will show that the proposed rates are rather low and perhaps err on the side of moderation.

12. The results obtained with these rates, however, yield the following income—

				Extent.	Revenue.
Dry	...	..	...	106,671	59,141
Wet	...	...	...	3,067	11,769
Garden	..	...	...	2,668	7,601
				112,406	78,211

The total demand under all heads at present being Rs. 61,603, the gross increase in revenue amounts to Rs. 16,611 or nearly 27 per cent. The average dry rates under the proposed settlement stand at Rs. 0—9—2, 0—7—8 and 0—5—7 for the three grades or 0—8—11 on the whole, while the incidence of the existing dry rates on the area of land under cultivation according to the survey measurement is 0—6—11. The increase calculated on these average rates is as high as about 29 per cent. It is thus clear that while according to nature of the soil and the agricultural prosperity, the Taluk appears well able to bear higher rates than have been proposed, the proportionate increase in revenue resulting from the said rates is as high as if not slightly higher than what was secured in the settlement of the Mandya Taluk. It is certainly not desireable to raise too largely the taxation on land, and thereby make a violent change in its incidence. On the other hand, it is a question whether on that ground alone the Government should forego a legitimate increase of revenue and whether the rates may not be pitched somewhat higher without unduly adding to the burdens of the raiyats.

13. As regards grouping of villages, those of the Halgur Magani appear to have been included in the 2nd and 3rd classes chiefly in consideration of the river Shimsha being an obstruction to free communication and to the proximity of Basvanabetta Forests. I have no objection to offer to the arrangement, though it may be observed that in point of productiveness the villages of this Magani are not behind the other villages of this Taluk. This is generally admitted, and the incidence of old rates also bears out the fact. And as already remarked the river Shimsha is in flood only for a few days at a time and that only in the cultivation season. The villages to the south of the Mysore-Kankanhalli road, and to the east of the Malvalli-Siva-

samudram road deserved some consideration, as the soil in this quarter has been reported by the Classing Officer to be rocky and shallow. These could perhaps have been included in the second group.

14. The villages near the Basavanbetta Forest have been properly classed in the 3rd group, as they are thinly populated out of the way and subject to sickness.

15. The gross anticipated increase in revenue is put down at Rs. 16,611 which leaves, after deducting Rs. 4,500 for remuneration of village servants and Rs. 1,100 on account of contribution to Irrigation Funds, Rs. 11,011 as the net increase. This is all the increase that we are likely to have as owing to the extent of culturable waste being very small, we cannot anticipate any addition to the revenue from the expansion of cultivation in future years.

(6) Letter No. 266, dated 11th July 1892, from the Sub-Division Officer, French Rocks, to the Deputy Commissioner, Mysore District.

With reference to the Survey Superintendent's report on the revision of assessment of the Malvalli Taluk handed over to me for opinion, I beg to state as follows :—

2. Having inspected all the Maganis of the Malvalli Taluk during the months of December and January last, when there were fears of famine, and particularly every village in Halgur & Purigal Hoblis, with only a very few exceptions, I agree with Survey Superintendent in his remarks regarding the general description of the Taluk, its means of communication, and its present condition.

3. Although Malvalli Taluk may be better populated and more healthy, yet from its outlaying position and being in a measure cut out from the general line of traffic, it is inferior to the neighbouring Taluks of Seringapatam and Mandya, which have the advantage of the Railway.

4. In the absence of any large markets in the Taluk, its internal and local trade is also unimportant. Its exports are small; except hides and silk which are taken in pretty large quantities to Bangalore, ragi, its chief grain produce, as I have observed, is only taken to the Taluks immediately adjoining it and mostly to procure paddy.

5. The Taluk suffers no difficulties for want of imports in obtaining its requirements of articles of consumption, but the bulk of the soil not being of a superior kind, the population compartively large and without any stimulus for better cultivation by high prices or large demands from outside, the intrinsic out-turn of the taluk of food grain, however enough to meet the local demand, does not admit of any appreciable surplus.

6. Malvalli Taluk is also not remarkable for its superior gardens or fertile wet lands. The tanks which it contains are all insignificant, small and shallow, yeilding uncertain and precarious crops, and those of any decent size or capacity in the Taluk are only about half a dozen, even these do not ensure bumper crops every year.

7. The few gardens which are in the taluk contain only a limited number of cocoanut and supari trees here and there, mulbery being the chief crop which is raised in them.

8. The rain-fall, which is moderate being evenly distributed over the taluk, the soil being everywhere the same, except a little richer in a small portion towards the south-west in the Kirgaval Hobli, and other facilities for trade and cultivation being also equally proportionate, there is hardly anything to choose between the Maganis of the Taluks except Halgur. The Ramaswami channel in the Purigal Hobli being only about 8 miles long and useful at present to only 7 villages, cannot

form a strong factor to give it any material pre-eminence over the other Hoblis. On the other hand, Halgur Magani compared with others in the taluk bears the greatest disadvantages. It is situated in a neglected corner of the taluk, possesses the most inferior soil of all, and is directly affected by the inconveniences of the unbridged state of the Shimsha stream, which is known for its quick sands and floods. A certain number of its villages, which are within the precincts of Basvanbetta and along its margin, are still worse off. This being the state of the Maganis in the Taluk, the classification of the villages into only 3 groups, as explained in para 16 of the Survey Superintendent's report, is, in my opinion, very appropriate.

9. Of course, the prosperity of the taluk can be increased by providing better sources of irrigation and communications, by reviving its local industry, &c., and there are projects in view for the development of its resources. but the taluk as it now exists, is only moderately prosperous and requires to be dealt with moderately, and even in some parts leniently in assessing it.

10. The rates of old assessment being disproportionate and whimsical, it is no wonder if the average of the proposed rates is a little higher than the average of the old assessment. The rates, as they are proposed by the Survey Superintendent taking all the circumstances of the Taluk in its present condition, appear to me to be fair; and that they have received due consideration with regard to moderation is shown from the fact that these rates are far below the rates prevailing in the more prosperous talukes of the Sub-Division. The net increase to be realized by the proposed assessment is calculated to be Rs. 16,611 and this may appear to be large, but under the circumstances explained in the last para of the Survey Superintendent's report, this sum does not appear to me to fall heavily on the raiyats of the Malvalli Taluk.

11. The Survey Superintendent's letter No. 208, dated 2nd June 1892, together with its incloseres is herewith returned

———

No. 10172-1216—R. F. 231-92, DATED, 29TH DECEMBER 1891.

ORDER THEREON.—The papers above read contain proposals for the revision of assessment in the Malvalli Taluk, Mysore District.

2. There are, on the whole, 241 villages in the Taluk, of which 29 are Inam, 1 Forest, 2 Kavals and 209 Government villages. The present report deals only with the 209 Government villages.

3. The Taluk possesses a healthy climate and enjoys a moderate rain-fall. Its soils are ordinarly red and sandy, excepting those towards the south-west, where they improve both in depth and color. The wet lands in the Taluk are remarkable for the almost entire absence of sugar-cane and may be considered generally as inferior. Mulberry is but poorly grown on dry lands. It is, however, the chief crop raised in the garden lands, which are reported to be otherwise insignificant, containing but little supari, plantain and cocoanut cultivation.

4. The taluk is well provided with ordinary roads and cart tracks, but it does not possess the advantages of Railway communication.

5. Malvalli is more thickly populated than Mandya, the population being 243 per square mile in the former against 227 in the latter taluk. The raiyats are fairly well-to-do. Silk appears to be the chief article of export, the food grains raised being almost all locally consumed. If, as remarked by the Superintendent, some progress were to be made in developing the iron industry, the condition of the taluk with its stretches of scrub jungle and widely scattered and paltry villages, could be much ameliorated. The taluk is, from an agricultural point of view, fairly prosperous as it now exists, but is still capable of much development.

6. There are only 3 tanks in the taluk, *viz.*, Malvalli, Marenhalli and Kirigaval, the 2nd *viz.*, Marenhalli, being considered the most important and the others being small and shallow.

7. From the marginal statement, it will be seen that there is not much arable land still left unoccupied and that the area of unculturable waste including pasture lands is 64,947 acres (being ⅓th of the whole area of the Taluk) which is fairly extensive but reported to be unevenly distributed.

Area of the Taluk in acres.	Area of Government lands in acres.		Area of unculturable waste including village sites, &c.
	Occupied.	Waste.	
219,330	112,406	4,179	64,917

8. The following statement shows the occupied area of dry, wet and garden lands of the Taluk before and after survey :—

Description of Land.	Area as per old accounts.	Area by Survey.	Increase.
	Acres.	Acres.	
Dry	62,131	106,674	71 per cent.
Wet and Garden...	3,606	5,732	59 per cent.
Total.....	65,737	112,406	70 per cent.

9. There has been a steady increase in the collection of this Taluk, so much so, that even the late famine, in which remissions were granted, did not affect the collections to any appreciable extent, the reason being that the assessment was moderate and that with the comparatively dense population resignation of lands in the Taluk was rarely resorted to.

10. The Survey Superintendent is of opinion that Malvalli is distinctly the kind of Taluk for which moderation in assessment is imperative and proposes to divide the 209 villages into 3 groups as shown below: —

Description of Crop.	Maximum Rate of Assessment per acre.		
Dry Crop.	Rs. A. P		
I Group (157)	1 6 0		
II Do (40)	1 2 0		
III Do (12)	0 14 0		
Wet Crop.	*Ordinary*	*River Channels*	
I Group (157)	7 8 0	8 8 0

III Do (12)	7 0 0		
Garden.			
I Group (157)	8 0 0		
II Do (40)			
III Do (12)			

Compared with the Mandya and Seringapatam Taluks which have been divided into 2 and 3 groups respectively, as shown below, the rates proposed for Malvalli are very fare.

Mandya Taluk—

11. The following statement gives the result of the proposed rates on occupied lands :—

12. The average rates of assessment under the old system in this Taluk compare with the proposed rates as shown below :—

Present rate of assessment per acre.				Proposed rate of assessment per acre.				
	Rs	A.	P.			Rs.	A.	P.
Dry	0	6	7	Dry ...		0	8	11
Wet and Garden combined...	3	1	3	Wet	Channel ...	5	4	1
					Ordinary ...	3	3	11
				Garden ...		2	10	1

Under the old system the dry average rate was very low and there was great inequality in the wet rate, for, in some parts of the taluk, the rate was Rs. 1—11—2, while in the others it was Rs. 3—12—11 ; but under the proposed settlement, the average dry rate is very moderate, while the average of wet and garden rates is slightly raised and its distribution is stated to have been most carefully attended to. Although, as remarked by the Deputy Commissioner, taking into consideration the nature of the soil and the agricultural prosperity of the taluk, it is well able to bear higher rates, yet those proposed by the Superintendent seem fair and will be accepted, for reasons given by Colonel Grant, the chief of which is that the taluk is somewhat out of the general line of traffic and that some parts are in a neglected condition.

13. The grazing realizations are reported to have been very small last year. They amounted to only Rs. 847, owing apparently to want of competition.

14. The one anna local cess in 1890-91 amounted to Rs. 5,316 ; while under the proposed settlement the cess comes up to *Rs. 5,405.

* 5,225 on the occupied lands.
180 on Minor Inam lands.

15. The land revenue demand in 1890-91 amounted to *Rs. 61,757 as shown in column 3 of the statement given in para 15 of the Survey Superintendent's letter No. 207, and not Rs. 61,582 or 61,603 exhibited as collections in the statements given in the said para and para 20 respectively of the aforesaid letter. The estimated land revenue under the proposed settlement is Rs. 78,294 (exclusive of the realizations from the sale of grazing lands and local cesses) and the gross increase due to the settlement is Rs. 16,457 and not Rs. 16,611 as stated in para 24 of Colonel Grant's letter. Deducting from the gross increase Rs. 4,500 on account of remuneration to village servants and Rs. 1,100 on account of contribution to Irrigation Funds, the net increase amounts to Rs. 10,857. Taking into consideration the fact that the area in occupation is now understated in the accounts to the extent of nearly 70 per cent, the increase in demand by settlement is practically less than what the increase would have been, if the true areas were assessed at the existing old rates.

Exclusive of Hulbanui and Cess.

16. With these observations, the introduction of the proposed settlement is hereby sanctioned with the usual guarantee for 30 years.

The Deputy Commissioners of Districts.

REVENUE-FOREST.

NOTIFICATION.

The 9th December 1892.

No. 9837—R. F. 226-92.—The following revised Rules framed under Sections 23, 24, 25 and 26 of the Forest Rules of 1878, defining more fully the privileges of raiyats to take wood and other articles of forest produce from District or Government unreserved forests, have been, pending the revision of Forest Rules, sanctioned by the Government of His Highness the Maharaja, for the Districts of Shimoga, Kadur and Hassan, and are published for general information. These rules do not apply to coffee planters:—

1. The privileges granted in the rules to raiyats will be exercised by them within the limits of Village Forests wherever specifically assigned and when Village Forests have not been so assigned, within the limits of District Forests or portions thereof which may be set apart for the purpose.

2. No trees bearing forest produce, such as cinnamon, or yelaga, tamarind, alalekayi, kachu, gern, gamboji, antavala, manda or maddidhupa and halmaddi, &c., shall be felled under these rules, either in the Village or District Forests.

In the Village and District Forests, sandalwood, teak, bité or blackwood, ebony, poon, karachi, and jalari, will be entirely at the disposal of the Forest Department. Raiyats as well as traders will have to pay for this description of wood on the terms and at the rates prescribed by the Forest Department.

3. "Classified trees of the 1st Class" shall mean halasu, hebbalasu, matti, honne, nandi, and ippe.

"Classified trees of the 2nd Class" shall mean hunal, jambi, masi, hettiga or arsintyaga, bilavara, todasalu, kendal, bagi, hadaga, nanja or bakula, sampige, vaté, balgi, hauladi or haralbandige and sagadi.

"Jungle wood" shall mean wood other than that of the reserved and classified kinds.

"Agricultural implements" shall mean and include ploughs, harrows, clod-crushers, hoes, seed-drills, mamti-handles, gudli-handles, and all other agricultural implements. The term shall not include sugar-cane mills, paddy-husking mills, and troughs for cattle, except in the Malnad.

"Malnad" shall mean the Taluks and parts of Taluks mentioned in the Appendix A, all other parts will be deemed to be Maidan.

"Raiyat" shall mean a pattadar, khatedar, or registered occupant of Government land.

4. These rules shall not affect any existing privilege of grazing in District Forests subject to such arrangements as may be introduced hereafter, nor will they affect existing rights of owners of gardens in their Soppinabettas or rights in the Kans in the Malnad. But nothing herein contained will prevent any District Forest being closed for forest conservancy by the Forest Department.

5. Raiyats in the Malnad and Maidan will, subject to Rules 1 and 2, be entitled to take free in District Forests without permit—

1stly. wood other than of the classified kinds for agricultural implements. In the Malnad, however, classified kinds of the 2nd Class may be taken for this purpose with the written permission of the Patel. The trees to be cut should be mature, knotted and unfit for timber. In the Malnad, when wood is wanted for sugar-cane mills, paddy-husking mills and troughs for cattle, free permits shall be obtained from the Amildar and these shall be returned to the Taluk within the time specified with the endorsement of the Patel of the village in which the wood has been cut, as to the quantity removed under the permit;

2ndly. stakes, brushwood and bamboo thorns for fences and hedges and dams;

3rdly. wood other than of the classified kinds and bamboos required for cattle pens, for sheds, pandals, small huts, and "Machans" to be put up in fields and for stack floors;

4thly. branches of jungle wood trees, for manure and litter; and

5thly. grasses for thatching.

In addition to the above, the raiyats may also cut and remove grass gratis, from the Reserved and District Forests with the permission of the Deputy Commissioner of the District in which such forests are situated.

6. Raiyats requiring wood for purposes specified in Rule 5, 1st and 3rd clauses, if they wish to cut wood within the limits of any village other than their own or beyond the limits assigned to them, must obtain the permission of the Patel of that village. The size of the wood cut for agricultural implements shall not exceed what may be absolutely necessary for making the implements. Wood taken free under 3rd clause of Rule 5 should not either in the Malnad or Maidan exceed 2 feet in circumference except for sugar-cane mills, paddy-husking mills and troughs for cattle in the Malnad.

6. (*a*). The raiyats of the marginally noted Maganis of the Sagar and Nagar Taluks shall, for the present, take jungle wood free without permit, but shall report the quantity removed by them to the Patel of the village, who shall report the same to the Amildar of the Taluk.

9. Within 50 yards of the banks of a hill stream or any of its feeders or within a radius of 50 yards from any spring or within 50 yards of any road, no tree, shrub, or bamboos or jungle in any District Forest shall be cut, nor shall any wood or grass therein be burnt.

10. The concession of wood on favorable seigniorage made under Rule 8, shall not exceed, to any raiyat, 50 cart-loads in any one period of ten years in the Maidan and five years in the Malnad. It is not intended that fifty cart-loads should be issued in each case. It is the maximum allowed. The Amildar should ascertain the necessity of the raiyat in each case and grant the quantity he may consider absolutely necessary. He should also see that the privilege is not abused. He may refuse to grant license where an application for wood or bamboos is made with a view to make profit out of it.

11. The concessions accorded to raiyats in Rules 7, 8 and 10 are intended solely for their own *bonâ fide* use. They shall not sell or barter for purposes of trade any materials obtained under the aforesaid rules.

12. Any raiyat wishing to obtain wood or bamboos under Rule 8 should apply to the Amildar of the Taluk in whose limits he wishes to cut the same. If he is a resident in a different Taluk, his application should be forwarded through, and supported by, the Amildar of the Taluk in which the raiyat resides.

13. Upon payment of seigniorage prescribed in Rule 8, the Amildar will issue a license in form set forth in Appendix B. It will be the duty of license-holder to abide by the terms of the license. All time-expired licenses shall be null and void. No refund shall be made for unutilized licenses.

14. The licensee shall be bound to produce for examination to the Patel of the village, within the limits of which District Forest specified in the license is situated, the wood or bamboos or other materials he is removing under the authority of that license, and to obtain the Patel's endorsement thereon as to the correctness of the

quantity specified therein. The wood, bamboos, or other materials may then be removed, accompanied by the license which shall be finally handed over to the Patel of the village into which the wood, bamboos, or other materials are taken, who shall examine the quantity with the license and return the same with his certificate thereon, to the Amildar of the Taluk, who will, if he has not himself issued the license, transmit it to the issuing Amildar. Only the trees that are likely to produce the quantity granted in the license shall be cut. Irregular or wasteful cutting will lead to the concessions being withdrawn totally or for a time from the raiyat concerned.

15 Free permits prescribed for Malnad raiyats in Rule 5 and paid licenses referred to in Rule 13 will be liable to inspection by Forest, Revenue and Police officers, who will be bound to see that the terms of the license are not exceeded or broken.

16. No license will be issued for felling wood or bamboos in Malnad "kans" or in any Government jungle which the Forest Department has closed. The fact of any jungle being closed should, without delay, be intimated to the Amildar concerned.

17. Any raiyat who fells or removes wood, bamboos, or other materials specified in para 8, or from a District Forest, without having obtained the necessary license, exceeds the quantity specified in the same, fails to return the license, within the prescribed time, or breaks the terms of the license or contravenes the provisions of these Rules, shall be punishable under Section 40 of the Forest Rules of 1878.

18. In consideration of the concessions above granted, such raiyats as are living within the vicinity of State Forests and Plantations are expected to aid the Forest Department in the prevention, spread or extinction of any fire that occurs in State Forests and Plantations. Any neglect in this respect will lead to the withdrawal of the whole or any part of the concessions for such length of time as the Inspector General of Forests may direct.

19. The raiyats are strictly forbidden from setting fire to grass, leaves, thorns or bamboo clumps in a District Forest, thereby endangering the safety of a State Forest or Plantation.

20. The undermentioned notifications are hereby cancelled:—

Notification No. 5, dated 23rd April 1873.	So far as they apply to the Districts of Shimoga, Kadur and Hassan.
Notification No. 244, dated 11th February 1887, as also No. 153, dated 31st August 1874, which it cancels.	
Proceedings No. 5323-83, dated 19th December 1873.	

The term cart-load referred to in Rule 8 shall mean a country cart drawn by two bullocks. The rate for a cart-load drawn by four bullocks, to be double that for a cart drawn by two bullocks and so on for every additional pair of bullocks employed in dragging the cart.

By Order,
T. ANANDA ROW,
Chief Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue-Forest),—dated 28th December 1892.

READ :—

Letter No. 2685—238, dated the 5th January 1892, from the Inspector General of Forests and Plantations in Mysore, forwarding a copy of the following Circular instructions issued by him to Deputy Commissioners of Districts on the subject of the revival of Kumri Cultivation.

CIRCULAR.

I. Government having sanctioned the revival of Kumri Cultivation within certain limits and restrictions, Deputy Commissioners of Malnad and Semi-Malnad Districts above noted are requested, especially in this season of scarcity and high prices, to concert early measures for permitting Kumri Cultivation in portions of thick and comparatively useless forests under the following conditions :—

1. Reserved trees and trees yielding forest produce not to be felled, but to be left untouched. This should be notified to the Kumbis and others who will carry on the Kumri. Blocks of Forests in which such trees abound not to be given out for Kumri.

2. When the ground is prepared for sowing, along with the cereal seeds must be sown, the seeds of sandal, teak, honne, matti, blackwood and other valuable timber yielding trees, also the seeds of the gall-nut.

3. When the timber and gall-nut seeds germinate, they are to be carefully attended to by the Kumbis and others, when they attain a sufficient size, say a year's growth, the seedlings are to be counted by the Forest Officer and paid for at a rate to be determined by Forest Officers in communication with their Deputy Commissioners.

4. If the Kumri Cultivation is allowed for only one year, the timber and gall-nut seeds must be sown at the same time as the cereals. If the cultivation is for a longer period than one year, the timber and gall-nut seeds are to be sown at the last year of such Kumri Cultivation.

5. Forest Officers to inspect each site before giving it out for Kumri. The timber and gall-nut seeds must be supplied by the Forest Department.

II. It is understood that in Burmah a large stock of timber trees, especially teak, are raised in the manner above indicated and at a comparatively trifling cost to Government. Thus there is a benefit to Government, as also to the Forest tribes who had migrated to other parts when Kumri was abolished and who, in being allowed to revert to their primitive mode of raising crops, will be induced to return to their forests where their paid services will be invaluable to the Forest Department as also to the villagers in the vicinity of such forests.

III. In assigning suitable areas and localities for Kumri Cultivation, much must necessarily be left to the discretion and discrimination of local Forest and Revenue Officers. It is understood that one and two acre plots are generally given to each individual cultivator; for the present such localities may be confined, if possible, to old kumried blocks which are easily ascertainable; but this is not to be insisted upon as a regular rule.

IV. A brief report at the end of a year should be submitted by Forest Officers, through Deputy Commissioners, as to the extent to which this present concession has been availed of by Kumbis and others interested in Kumri Cultivation, the number of timber bearing and gall-nut seedlings that have been raised by the means above indicated and the amount paid for the same.

V. Hereafter, it may be necessary to draw up in communication with Deputy Commissioners a few simple rules embracing such points as area, locality, assessment and penalty for not sowing timber bearing seeds as stipulated for.

VI. The concession above referred to should be widely notified to all concerned, particularly to the inhabitants of villages adjoining the Forests on the Western ghats.

No. 11221-29—R. F. 222-92, DATED, BANGALORE, 28TH DECEMBER 1892.

ORDER THEREON.—The Inspector General will be good enough to submit for orders of Government the reports of Forest Officers referred to in para 4 of his Circular, together with the remarks of the Deputy Commissioners concerned and a review by the Inspector General himself.

Chief Secretary.

LOCAL BOARDS BRANCH—MUNICIPAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal),—dated 1st December 1892.

READ:—

(1). Proceedings dated 15th September 1891, No. 6773-84—L. 514.

No. 7491-502—L. F. 230-92, DATED BANGALORE, 1ST DECEMBER 1892.

ORDER THEREON.—Government regret to observe that the Budget Estimates of the Bangalore and Mysore City Municipalities are not received in the Government Office for some months after the commencement of the official year to which they relate and that expenditure is consequently incurred without Budget sanction. As it is of the utmost importance that the Budget should go out before the commencement of the official year to which they refer and that no expenditure should be incurred without Budget sanction, the attention of the Presidents is invited to Section 28 of the Municipal Regulation and they are requested to lay, as therein required, the Budget Estimates of each official year (as now altered) before the ordinary meeting held in the month of February and to submit the same to Government not later than 1st April preceding the *year to which they relate, so that there may be ample time for the Budgets being finally passed and issued by Government before the commencement of the official year.

* Commencing from 1st July to 30th June.

2. Owing to the change in the official year, the Budget Estimates of all the other Municipalities in the State should be placed before their monthly meetings held in January and submitted to Government not later than 1st March of every year instead of 1st December as has hitherto been the practice under the authority of the Proceedings read above.

3. The instructions embodied in the 2nd of the papers read above should be strictly adhered to in the preparation of the Budget Statements Nos. I, II and III. The Municipalities of Bangalore and Mysore should continue to forward in addition to the foregoing 3 statements, Appendices A and B, showing details of receipts and expenditure respectively.

No. L. F. 459.

OFFICE OF THE COMPTROLLER OF MYSORE,
BANGALORE, *7th November* 1892.

From

The Comptroller to the Government of Mysore.

To

The Chief Secretary to the Dewan of Mysore.

SIR,

With reference to your No. 5750—L. F. 60-92, dated 25th October 1892, I have the honor to state that the District Fund statements for June and July 1892, as well as the Municipal Fund for June 1892, have already been submitted on the dates noted in the margin. As regards the submission of the Municipal statement for July 1892, I beg to state that the Chitaldroog Municipality is the only one which has submitted its accounts for the month as well as that for August and September 1892. The Bangalore City and Mysore District have sent their accounts without the subsidiary returns necessary for the check thereof and which have been called for, while the others have not furnished the accounts although repeatedly called for. Shimoga has furnished his accounts for August 1892.

District Fund statements for June on the 15th September 1892.

Do for July on the 5th November.

Municipal statement for June on the 25th October.

As the Deputy Commissioners have been repeatedly addressed by this office regarding the submission of their accounts without any apparent result, I beg to request that you will kindly direct them to hasten the accounts from July to September 1892 ; as also to be more punctual in the submission of their subsequent accounts.

I have the honor to be,

Sir,

Your most obedient Servant,

H. EAGLES,
for *Comptroller.*

No. 7583-93—L. F. 60-92, DATED BANGALORE, 2ND DECEMBER 1892.

ORDER THEREON.—The above letter will be forwarded to the Deputy Commissioners of Districts and Presidents of Municipalities with reference to Government Proceedings, dated 28th October 1892, No. 5805-15—L. F. 16-92, and they are requested to transmit the accounts for July, August, September and October within 7 days from the receipt of this order and to see that in future their monthly accounts with complete sub-vouchers are punctually forwarded to the Comptroller not later than the 15th of the month following that to which they relate. The Comptroller is requested to report for the information of Government all cases of delay in the matter of transmitting accounts for audit in his office.

T. ANANDA ROW,
Chief Secretary.

To—The Comptroller to the Government of Mysore.
The Presidents of Municipalities.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal),—dated 3rd December 1892.

READ :—

Docket from the Deputy Commissioner of the Chitaldroog District, dated 28th October 1892, No. 226—209, stating that a sum of Rs. 821 will be required for the completion of the Honda work in the Davangere Municipality during 1892-93 and requesting the enhancement of the Budget provision by Rs. 1,000.

No. 7759-61—L. F. 96-92, DATED BANGALORE, 3RD DECEMBER 1892.

ORDER THEREON.—If the amount required for the Honda work be only Rs. 821, it is not clear why the Budget allotment is proposed to be raised by Rs. 1,000. The former figure will be inserted in the Budget and the estimated expenditure raised from Rs. 3,651 to Rs. 4,472.

2. The estimated receipts and expenditure of the Municipality for 1892-93 as now sanctioned will stand as shown below :—

					Rs.
(1)	Actual balance on 1st July 1892	...	..		3,333
(2)	Estimated receipts for 1892-93	...	...		3,890
				(3) Total Rs.	7,223
(4)	Estimated expenditure	do ...	...		4,472
(5)	Estimated balance	... ...	...		2,751

3. The estimated closing balance exceeds the maximum balance of 30 per cent of the receipts by Rs. 1,584. The President is therefore requested to propose a further expenditure of Rs. 1,500 for useful sanitary works during the current year.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal), dated 5th December 1892.

READ:—

Docket from the President of the Mysore City Municipal Commission, dated 17th September 1892, No. 416, submitting the Supplemental Budget Estimates of the Municipality for the 3 months April, May and June 1892 of the official year 1891-92.

No. 7708-12—L. F. 242-92, DATED BANGALORE, 5TH DECEMBER 1892.

ORDER THEREON.—The total income realized during the 15 months of the year 1891-92 is stated to have aggregated to Rs. 1,23,341 as shown in the margin. Adding to this Rs. 9,745 the actual balance on 1st April 1891 the sum available for expenditure during 1891-92 is Rs. 1,33,086, of which Rs. 99,038 as detailed below are proposed to be expended, leaving a balance of Rs. 34,048 at the end of the year:—

	Rs.
1. Receipts from 1st April 1891 to 31st March 1892	1,02,996

2. Government observe that no details have been furnished for any of the above items. On a comparison however of the lump sum grants provided for the last 3 months with the charges sanctioned for the first 12 months of the year, the supplemental grants proposed in the case of the marginally noted items are found to be *far* in excess of the scale of charges sanctioned for the 12 months of the year. The necessity and authority for excess provision in each case should be explained.

3. X. *Education.*—The estimate under this head is stated to include Rs. 36 being the grant-in-aid payable to Vanivilas School for the three months ending 30th June 1892. The authority under which this grant is made should be quoted.

4. The other items call for no remark except that the supplemental grants required under "X. Education" and "XI. Miscellaneous—(*h*) Other items" amount to Rs. 1,895 and Rs. 400 respectively and not Rs. 646 and 233 as erroneously entered in the Budget statement.

5. Subject to the explanation called for, the Budget Estimates of receipts and expenditure of the Mysore City Municipality for the 15 months of the year 1891-92 are as shown hereunder in abstract :—

2. Government observe that the correct total of the figures entered in the 6th column of the Budget Estimate of receipts of the Saklespur Municipality is Rs. 1,208 and not Rs. 1,192 as erroneously entered therein.

3. In most of the towns sums ranging between Rs. 39 to 201 are shown to have been expended under X Miscellaneous (*h*) Other items. In the Municipality of Saklespur a sum of Rs. 68—8—0 out of a total amount of

Rs. 138 is stated to represent the refund of the unexpended balance in the hand of the Amildar. Probably the amounts shown against the other Municipalities are similar refunds made at the end of the year. If so, such credits ought to be adjusted by minus entries as directed in para 27 of Government Proceedings and not debited as an item of expenditure, as this system will give a false notion of the receipts and expenditure of each Municipality.

4. The other items call for no remarks and are passed.

5. The Budget Estimates of receipts and expenditure of the several Municipalities of the Hassan District for the 15 months of the year 1891-92, ending 30th June 1892 will stand as shown in the following abstract statement :—

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal),—dated 10th December 1892.

READ :—

Letter No. 166—14, dated 22nd July 1892, from Mr. V. P. Madhava Rao (lately Deputy Commissioner of Bangalore) submitting for orders a printed Memorandum regarding Bangalore City Improvements.

READ ALSO :—

Letter No. 93, dated 27th September 1892, from the President of the Municipal Board of Bangalore, representing that there is only a small balance of Rs. 6,500 under "Special Improvements Fund," and asking for an advance of Rs. 10,000 to meet urgent requirements, which amount, the President expects to be recouped by sale proceeds of building sites.

No. 8165-72—L. F. 82-92, DATED BANGALORE, 10TH DECEMBER 1892.

ORDER THEREON.—Mr. Madhava Rao's Memorandum above read is full and interesting. As a record of work done in the past and of work contemplated for the future, it is also useful.

2. In the present order, Government propose to deal with the Western and Northern extensions only.

3. For facility of information and account, it was ordered in October 1891 that the amounts advanced from time to time from Provincial Funds should be treated as advances to the Municipality, and all receipts from sale of house sites, &c. credited, and expenditure incurred on account of improvements debited, to the Municipality to one special head "Special Improvements of the Bangalore City," and a complete account of these transactions was *called for on 14th April last. This account has not yet been received. The President of the Municipal Board is requested to expedite the submission of this account.

*Order No. 832-1—105.

4. From a statement however, which the Deputy Commissioner read to the Dewan, it appears that the credits and debits on account of the Northern and Western extensions have in the aggregate been as follows (omitting fractions of a rupee) :—

	Rs.
Credits—	
Grants from Provincial Funds	9,000
Sale proceeds of house sites and materials sold	58,176
Total.....	67,176
Debits—	
Expenditure	61,472
Balance ...	6,064

It is not clear why in the foregoing figures the sums of Rs. 7,160 sanctioned in Proceedings No. 3856, dated 30th June 1889 and Rs. 3,027 sanctioned in Proceedings No. 3948—113, dated 6th July 1891, have not been taken into account.

5. In allowing money spent out of Provincial Funds in the acquisition of lands for building sites to be treated as advances to the Municipality, Government expected that the Municipality would, out of sums realised by the sale of building sites, be able to repay these advances after incurring the necessary expenditure for drains and streets, and that the transactions would also benefit the Municipality financially. But the foregoing figures, considered with the necessity which exists for further expenditure, tell a different tale, and show also that both the accounts of expenditure already incurred as well as estimates for proposed expenditure require to be closely scrutinised and revised. In the statement of expenditure already incurred, there are several items which, either because they appertain to ordinary City Improvements or are properly debitable to the ordinary Municipal Bud-

get, are not legitimate debits against funds allotted for the Northern and Western extensions. In some cases the amounts entered as expended on certain works (such as the dismantling of Venkoba Rao's wall, &c.,) are apparently excessive. The President of the Committee will revise the statement, examine the vouchers carefully and submit a correct account of expenditure properly chargeable to the City Extension Funds. The help of Mr. Standish Lee will be available in examining and passing the completion bills and should be freely taken.

6. As to the estimates of proposed works, Government observe that they are pitched too high and require considerable reduction. It is not necessary now to provide for metalled roads with stone slab side drains, and box drains for sewage, ornamental railings, reservoirs and terraces, &c. All that is required is that the streets should be marked off, sites divided and roads roughly formed with obstructions removed and culverts constructed where necessary, to make the roads passable for carts. A few drinking water wells for the use of the general public will also have to be provided. All this will cost much less than what has been proposed.

7. The work to be carried out, particularly that in the Western extension, is urgent. People who have invested large sums in building shops in new Tharagpet or isolated houses in that locality are put to considerable inconvenience because they are solitary, and houses in the neighbourhood have not sprung up and it is necessary to provide roads and wells before the new Town can be built. The work remaining to be done has thus to be quickly and efficiently carried out and for this a small strong Executive Committee of resident officers is necessary who can devote the requisite time and are in touch with local wants and circumstances. The Committee appointed by the orders of March 1889 has been much weakened by death, transfers and other changes among the individuals appointed to it. At the same time the more important parts of the work entrusted to it have already been performed so as to leave only matters of comparatively minor detail to be settled. Therefore and in supersession of that Committee, whose excellent work the Government take this opportunity thankfully to acknowledge, the Government decide to entrust the work which remains to be done to a Committee composed as follows:—

Mr. V. P. Madhava Rao.	President.
Mr. Mir Shujaet Ali Khan.	Members.
Mr. Rai Bahadur A. Srinivasacharlu.	

Mr. K. Srinivasa Rao, Vice-President, Municipal Board. *Ex-Officio* Secretary.

Mr. Standish Lee will be requested to advise the Committee in all professional matters (Engineering, Sanitary, &c.), and the services of the Executive Engineer and other officers of the Municipal Executive will of course be available to the Committee.

8. The aforesaid Committee will be requested to proceed as quickly as possible to carry out the items of work noted below:—

ITEMS OF WORK.

In Western Extension.

1. Road formation (metalling and gravelling and stone slab side drains to be deferred).

2. Acquiring and paying compensation for houses which have to be removed on sanitary grounds.

3. Six public drinking water wells.

In Northern Extension.

1. Formation of crescent road (metalling, gravelling, &c., to be deferred).

2. Acquiring and paying compensation for land remaining to be acquired (in no case to exceed Rs. 500 per acre.)

[If necessary, position of houses may be changed so as to avoid acquisition of more expensive land].

3. Well for new Malenhalli.

9. In order to enable the Committee to carry out this work in anticipation of realisation of funds by sale of building sites, the Government will place at their disposal a present further grant of Rupees twenty thousand (20,000). It is hoped that realisations from building sites will proceed simultaneously with the expenditure of this sum, and that the funds required for further expenditure will thereby be provided.

10. The allotment of sites for the various classes should be carefully made so as to meet their views and requirements.

11. Regulations should be carefully laid down for the construction of houses in the several localities prescribing:—

the class of house to be built,
the length of its frontage,
the style of construction,
the height of house,
description of material to be used, and
the time within which work should be commenced and finished.

Sites should be granted only subject to these Regulations, (which for better understanding should be printed behind the certificates evidencing the grants) and subject to the further condition that the site will be resumed if in any case in which the conditions, particularly that relating to time, are not fulfilled. In the framing of these Regulations and allotment of sites, Mr. Standish Lee's experience and judgment will be of great value to the Committee.

12. The Committee is empowered to allot sites for reasonable prices subject to the conditions of the Regulations aforesaid.

13. The Committee's action under these orders should be prompt. Government expect a full report of such action at the end of two months from this date.

14. The Bungalow sites in the Northern extension are intended to meet the great want now felt of house accommodation for the higher Darbar officers, evidenced by the fact that some of them are now obliged to live beyond Mysore jurisdiction. It is believed that there is ground available for 7 large and 2 small houses. There are 3 applications already received and these may at once be complied with, as far as possible in accordance with the wishes of the applicants.

READ:—

Docket from the Deputy Commissioner of the Chitaldroog District, dated 28th November 1892, No. 295—271, submitting a copy of the Proceedings of the Chitaldroog Municipal Board of the 26th idem.

No. 8280—L. F. 50-92, DATED BANGALORE, 13TH DECEMBER 1892.

ORDER THEREON.—It appears from the papers read above that the Proceedings of the Municipal Board are in the first instance, forwarded to the President for approval and confirmation and, after they are ratified by him, submitted to Government. This procedure is irregular. As pointed out in Government Proceedings, dated 24th September 1892, No. 4834—L. F. 120-92, the President has no power to set aside the resolutions of the Board without the sanction of Government; but whenever he considers that the resolutions ought not to be acted upon, he should lay the matter before the Board again for discussion and reconsideration and submit to Government the final resolution passed by the Board with his remarks, if any.

READ THE FOLLOWING PAPERS:—

From the Deputy Commissioner, Kolar District, to the Chief Secretary to the Dewan of Mysore, No. 1705—394, dated 30th November 1892.

I have the honor to submit herewith for information copy of the Chikballapur Sub-Division Officer's letter No. 162, dated the 20th August 1892, on the insanitary condition of the town of Goribidnur together with that of a report from the Hospital Assistant in charge of the Local Fund Dispensary at that station on the same subject which was forwarded to me by the Senior Surgeon for needful action.

2. The state of things as disclosed from the accompanying reports is, I need hardly submit, very unsatisfactory and calls for prompt action with a view especially to the fact that the town is rising and is likely to become far more populous and mercantile than at present, consequent on the opening of the Bangalore-Hindupur Railway.

3. The introduction of a proper system of drainage and of incidental measures calculated to conduce to the healthiness of the town is a step of vital importance and these improvements cannot be effected without the requisite funds which the Municipality is too poor to afford as was already brought to the notice of Government when applying on the same ground for sanction to the entire cost of the Dispensary at the place being met from the District Funds.

4. The existing resources of the Municipality which are shown in the margin do not at all admit of any attempt at a fulfilment of the object indicated above without material help from Government, and I request therefore, that orders may kindly be passed for the moiety of Mohatarfa collections creditable to Government which amount to about Rs. 420 per annum being transferred to the Municipality for at least 4 or 5 years.

As per Budget Estimates for 1892-93.

From the Sub-Division Officer, Chikballapur, to the Deputy Commissioner, Kolar District, No. 162, dated Camp Goribidnur, 20th August 1892.

In returning the enclosed correspondence on the insanitary state of the Town of Goribidnur, I have the honor to state that the report of the Hospital Assistant is not unfounded. The condition of the Town came to my notice on my first inspection and with a view to afford some remedy I proposed in my letter No. 400, dated 8th June 1892, that a grant should be obtained for improving it. The drainage of the Town is simply wretched and much of the evil brought

to notice is due to it. The old drains which were badly laid at the time they were constructed have become much worse now in consequence of the stones having sunk and having been displaced sewage water stagnates in these drains contributing largely to the filthiness of the place. I have therefore once again to urge that a grant of money may be sanctioned either from the District Funds or Local Funds General. *No sanitary improvement is possible without money and money*, I have already brought to notice, this Municipality is unable to spare. When the Railway is opened and the Town gets additional traffic, the state of things already bad must become far more unsatisfactory. What is wanted is to take the levels of the whole Town and construct new drains and adopt existing ones to the same. The local situation and tie of the Town on flat ground render drainage difficult.

2. There are other evils brought to notice which can be remedied if more energy is thrown into Municipal administration. The urgent need of it, I have strongly impressed upon the Amildar *and hope to see some improvement in the near future. I have instructed him to prosecute* and punish as far as possible cases of fowling of streets and lanes and public places; to impound stray cattle; to enforce vacant sites being kept clean; to clear drains of earth and rubbish which choke them; and to do everything else that is possible to improve the sanitation of the place. If our hands were strengthened by some simple Code of Municipal Regulations and if the Municipality had plenty of money at its credit, we should be able to show a much cleaner bill of sanitation, with no law to punish petty cases of nuisances and offences against the laws of cleanliness and with an impoverished Municipality which is just able to pay an undermanned conservancy establishment and the ordinary charges; our power for improving the sanitation of Goribidnur is indeed very limited.

From the Hospital Assistant, Goribidnur Dispensary, to the Assistant Surgeon, Kolar District, No. 36, dated 19th July 1892.

Reference: His No.1009 of 23rd ultimo, calling for a detailed report on the sanitary condition of Goribidnur.

Begs to report, that the Taluk Head-quarter Goribidnur is in a state filthy beyond description. Every street and lane and backyard of houses worse than a latrine, full of putrid filthy matters. The houses are huddled together, the streets are narrow and tortuous cesspools replete with sewage are met with at every turn and exhalations emanating with those from human ordure which everywhere pollutes the surface, render the atmosphere heavy and unbearable. The leaves in which the people take their meals are thrown about in the lanes which fill the side drains. Cattle are seen wandering about and tied on the public lanes and their excreta collected and heaped up in corners of streets and houses and dried on the open streets. Houses, not having latrines of their own people resort to open vacant sites in centre of the town, surrounding ground and adjacent topes as latrines. Dirty water issuing from walls of houses, from cesspools on open lanes which gradually gets sunk under the ground and as the public drains are filled with mud and all sorts of filthy matters, block up the drains and the smell emanating from them is abominable. Hard working raiyats who return to rest in the night are disturbed by fearful barking of ownerless and manged street dogs and howling of stray donkeys which are too numerous in the streets of this village.

The authorities will be doing an immense good to the general public if some steps be taken by them in *improving* the sanitation of the town as far as possible.

No. 8309-11—L. F. 304-92, dated Bangalore, 14th December 1892.

Order thereon.—The papers read above disclose a very unsatisfactory state of things. Goribidnur is a town of growing importance, its present insanitary condition is due in a great measure to the insufficiency of funds at the disposal of the Municipality, and, under the circumstances represented by the Deputy Commissioner, the Government are pleased to sanction the transfer to the Board of the Government moiety of the Mohatarfa collections (including House Tax) for a period of 5 years from 1892-93. It is hoped that this temporary addition to the income of the Municipality will enable it to introduce a proper system of drainage, which, as pointed out by the Sub-Division Officer, is absolutely necessary to improve the condition of the town.

Letter from the President of the Mysore City Municipality, dated 8th November 1892, No. 508, submitting for sanction an estimate of furniture, medicines, &c., costing Rs. 503—8—0 required for the Indigenous Hospital at Mysore.

No. 7404-5—L. F. 79-92, DATED BANGALORE, 1ST DECEMBER 1892.

ORDER THEREON.—The estimate for Rs. 503—8—0 received with the above is sanctioned. The excess cost (Rs. 143—8—0) over the provision of Rs. 360 made for medicines in the current year's Budget of the Hospital will be treated as a supplemental grant from the Municipal Funds of the Mysore City and Local Funds General in the proportions of $\frac{1}{3}$ and $\frac{2}{3}$ respectively.

* Included under Total A. P. W.

Government presume that the sum of Rs. 3,816 shown under "Grants-in-aid" on the side of receipts is the amount sanctioned for well works from Local Funds General and that the sums spent therefrom by the Revenue Department on wells and other useful works have also been included on the side of expenditure under the head "(B) Public Works to be executed by the Revenue Department." If so, the sum of Rs. 3,816 and the amount expended therefrom should be struck out of the Budget and the same shown in a separate statement showing the grant sanctioned and the works executed from Local Funds General. This should be stated.

The estimated expenditure also provides for travelling allowance to the Hospital Assistants in charge of the Local Fund Dispensaries. This will be struck out as the charge is debitable to Provincial Funds under codal rules.

Subject to the foregoing remarks, the Budget Estimates of receipts and expenditure of the French Rocks Local Fund Circle for the 15 months of the year will stand as shown in the margin.

Letter from the Deputy Commissioner of the Hassan District, dated 3rd November 1892, No. 516, submitting an estimate in Kannarese for the improvement, at a cost of Rs. 1,050, of the Katte at Srinivaspur between Hole-Narsipur and Channarayapatna built by Mr. Tirumaranaiengar, the Deputy Amildar of Huliyar, for the use of the villagers and the travelling public and recommending the payment of a moiety of the cost from the general savings of Rs. 15,000 allotted from District Funds.

No. 8976-7—L. F. 305-92, DATED BANGALORE, 21ST DECEMBER 1892.

ORDER THEREON.—It would appear from the above that Mr. Tirumaranaiengar, Deputy Amildar of Huliyar, has established a Katte to supply the drinking water needs of the villagers of Srinivaspur, who find it difficult to go to the river Hemavati 5 furlongs off the village to draw their supply of drinking water. Mr. Tirumaranaiengar proposes to improve the Katte at a cost of Rs. 1,050, offers to pay Rs. 525 himself and requests Government aid to meet the balance required. The Katte does not command any irrigable lands and Mr. Tirumaranaiengar has executed a muchalika making over the work for the use of the public without any reservation whatever in his own favor. Under these circumstances, Government are pleased to sanction the sum of Rs. 525 from Local Funds General towards the cost of the work and to request the Deputy Commissioner to convey to Mr. Tirumaranaiengar their appreciation of his well directed charity.

Government note that the Deputy Commissioner is in error in supposing that the sum of Rs. 15,000 was sanctioned from *District Funds* and he is requested to submit, as required in para 2 of Government Proceedings, dated 7th March 1892, No. 13972-3—L. 1444, a detailed estimate of the work *in English*.

PART I

GENERAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 11th December 1892.

No. 8150-9—G. 1981-92, DATED BANGALORE, 11TH DECEMBER 1892.

ORDER.—The rain-fall of the north-east monsoon of the current year not having proved as favorable as could be wished, enquiry was made by means of a demi-official circular, dated 22nd November 1892, addressed to the Deputy Commissioners and to the Officers in charge of the Sub-Divisions as to the state of crops, the supply of water and fodder, the prices of food grains and generally as to the prospects of the season.

2. The reports which have been received from all the Districts are on the whole re-assuring.

3. In the Bangalore District proper, the south-west monsoon was on the whole more than ample. Ragi is in a very fair condition and its out-turn is expected to be 12 annas and more. Paddy is said to have somewhat suffered from insufficiency of water, especially under the minor tanks, which are fast drying up. The larger tanks, however, have generally a good supply of water for the crops. There is no scarcity of water for men and cattle now, but later on the supply may fail in several places. It may be necessary to deepen the existing drinking water wells and sink new ones. From the harvests already reaped and to be reaped, there will be no lack of dry fodder. Markets are well supplied. The stock of food grains is considered to be more than is needed for local consumption. There is forthcoming sufficient employment both for agricultural and non-agricultural laborers. It is not likely that weavers would require advances from Government.

4. In the Closepet Sub-Division it is expected that there will be a bumper ragi crop except in a small tract in the Kankanhalli Taluk, but here too the yield is estimated not to be below ten annas. The paddy is expected to be full under the Mallur and three other tanks and from 8 to 12 annas in other places. The supply of water and fodder is sufficient. The pasture in the plains and jungles is in good condition and as above noted, the approaching harvest will place in the possession of the raiyats an amply supply of dry fodder. The markets are well supplied. There will be no scarcity of food grains nor any need for starting relief works for the agricultural or non-agricultural classes. The demand for cloths has recovered its normal condition.

5. As regards the Kolar District, it is reported that the agricultural prospects have not been affected by the failure of the north-east monsoon. The copious rains of the south-west monsoon having filled the tanks in the District more than once, a good Kartika paddy crop is expected and also a good Vaisakha crop below all the large tanks. The dry crops are estimated to reach a fair average and bumper crops are anticipated in several places. The water-supply is said to be abundant and there is no reason to apprehend any difficulty in this direction till the next monsoon either for drinking purposes or for agricultural operations. The supply of fodder is said to be more than sufficient. Markets are well supplied and the prices of food grains show a tendency to fall in view of the coming harvest. The state of the weavers is said to be improving and they will, it is expected, soon be able to depend on themselves. The Deputy Commissioner thinks that his District is in a condition more prosperous than in average years.

6. The Officer in charge of the Chikballapur Sub-Division speaks in equally favorable terms of the condition of the Sub-Division. The rains of June filled most of the tanks in the Sub-Division, except in the eastern portions of the Bagepalli Taluk and springs, and wells were greatly benefitted by the heavy rains of the south-west monsoon. The extent of paddy cultivation has been larger than for many years past and there is scope for Vaisakha paddy cultivation under most of the large tanks and under talpargis and wells. The deficient rain-fall in October has reduced the out-turn of dry crops, but the yield will be ten

annas and more in two-thirds of the Sub-Division and six annas in the remaining one-third. Markets are plentifully supplied and prices show a tendency to fall. On the whole the year has been a very good one for the Sub-Division. The raiyats are cheerful and cattle have quite recovered.

7. The Deputy Commissioner of Tumkur also reports very favorably on the condition of his District. He says that the rain-fall this year has been pretty general and timely and that there has been considerable extension of cultivation, especially of paddy lands under the numerous tanks which were repaired as Relief Works last year. The dry crops too are in good condition and the outturn is estimated at from 8 to 12 or even 14 annas in the rupee. There is abundant fodder for cattle and water is plentiful. The markets are well supplied but the prices have not gone down much owing to large exports. The condition of weavers has improved and they are not in need of any help from Government.

8. As regards the Mysore District proper, it is reported that the staple dry crops have come to hand or are assured, the minor dry crops alone having partially suffered where they had been sown very late. The standing paddy crop is in fair condition throughout the District, but in the Taluks of Hunsur, Heggaddevankote, Tirumakudlu-Narsipur and Nanjangud, the supply of water in some of the tanks may, it is feared, prove insufficient. The supply in some minor channels also is reported to be inadequate. No difficulty is apprehended as regards drinking water and fodder is abundant. Markets are well supplied and prices stationary. The condition of the weavers is improving.

9. The Sub-Division Officer of French Rocks gives a very hopeful account of the condition of the Taluks comprised within his Sub-Division. The south-west monsoon was unusually copious, and though the north-east was very scanty, there is no cause for apprehension of any kind till the advent of the next south-west monsoon. The supply of water and fodder is ample. The markets are well supplied and prices stationary. Very good harvests of ragi and jola have been reaped and the standing horse-gram crop is doing well. The paddy under tanks is in good condition everywhere and there is enough of water in the tanks for kar-paddy also, except perhaps in the Mandya Taluk where the tanks are shallow and the supply in them may fail later on. The wells sunk in the localities where dearth of water was most felt during the past season of drought are all now full. The condition of the weavers is fast improving and they are not likely hereafter to need aid from Government.

10. The Deputy Commissioner of Hassan reports that some of the tanks are drying up and that he has commenced to give out tank beds for cultivation. The crops are reported not to be doing well in Arsikere and Channarayapatna Taluks, and want of drinking water is felt in the towns above named. These taluks and small portions of the Hassan, Holé-Narsipur and Belur Taluks require to be carefully watched. The markets are well supplied, and there has been no rise in prices. Fodder and drinking water are generally sufficient.

11. In the Shimoga District the rains which fell about the middle of last month saved the crops. The early crops have been already harvested, ragi has been cut in most places and paddy is being cut in parts of the District. The outturn of the staple grains is very good. Raiyats have thus bumper crops this year in addition to the large profits they derived last year by sale of grain and fodder. The poorer arecanut gardeners are, however, an exception as the supari crop suffered from *Kolé roga*. But the favorable prices of supari make up for the deficiency in the yield to some extent. The supply of drinking water and fodder is ample, the markets are well supplied and the prices have a tendency to fall.

12. All the three taluks forming the Sagar Sub-Division are reported to be in a flourishing condition, notwithstanding that dry crops in the maidan parts suffered a little from excess of rain, and supari from the *Kolé roga*. The rice

crop is very good and the price of rice ranges from 14 to 12 seers per rupee. The supply of fodder and water is abundant.

13. The Deputy Commissioner of Kadur states that the failure of the north-east monsoon did not perceptibly affect his District as the south-west monsoon continued to a very late period, that the water-supply for crops and cattle is fair, that there is sufficient supply of fodder, that the markets are well supplied, but that the prices, though better than in last year, have a tendency to rise and will depend upon the state of the large markets like Bangalore. Raiyats in the maidan parts are said to be eager to cultivate tank beds on the terms allowed last year and the Deputy Commissioner recommends such cultivation being allowed to be carried on by degrees as the water in the tanks recedes, care being taken that raiyats do not wilfully waste the water by trying to empty the tanks.

14. In the Chitaldroog District the south-west monsoon was copious in some places but insufficient in others, while in some parts of the District both the monsoons may be stated to have nearly failed. The Molakalmuru Taluk and the eastern portion of the Challakere Taluk are said to be in the best possible condition with their tanks full and wells overflowing. The northern part of the Challakere Taluk, the Jagalur Taluk, the Davangere Taluk, the northern portion of the Chitaldroog Taluk, the south-east portion of the Holalkere Taluk and the southern and eastern portions of the Hiriyur Taluk are stated to be in good condition, the crops yielding a fair average harvest and pasture and water being available. Portions of the Chitaldroog, Challakere, Hiriyur and Holalkere Taluks stretching from west of the Challakere-Hiriyur road up to the western limits of the District in the Holalkere Taluk are not in a satisfactory condition, especially the tract immediately to the west of the said road, where the crop in a few villages was only 2 annas and in others hardly any. The supply of fodder and water is also deficient in the portions last referred to. The mungar jolam crop in Saguvali kattes is said to have been damaged by untimely rains except in parts of the Davangere and Jagalur Taluks; but navane and cotton have thrived well. The markets are well supplied but there has been a slight rise in the price of jola and rice. On the whole the Officiating Deputy Commissioner states that as there have been good crops in portions of the District and in the bordering British Districts there is no apprehension of any scarcity, that the cooly classes of whom there are not many in the less favored parts of the District always find ample work in the well-irrigated tracts and on the Public Works and that the condition of the weavers has improved. In the case of tanks which had not received a sufficient supply of water, steps have been taken to secure the present limited supply for the use of men and cattle and in the case of tanks which are likely to become dry soon, Amildars have been ordered to allow raiyats to carry on dry bed cultivation before the season for it expires.

15. It is satisfactory to observe from the reports reviewed above that notwithstanding the failure of the north-east monsoon, the state of the crops, both dry and wet, is generally good, that the tanks, except in a few instances, contain a fair supply of water, that fodder for cattle is available, that the markets are well supplied and prices fair and that there is no need for Relief Works anywhere. The Deputy Commissioner of Hassan apprehends that there might be occasion for starting Relief Works in the Arsikere and Channarayapatna Taluks, from February to July next. The Dewan fears that the Deputy Commissioner has possibly formed a more unfavorable opinion of these isolated tracts than their condition, as viewed in their surrounding circumstances and in comparison with what it was last year, would justify. Early steps will be taken for an accurate estimate being formed by the deputation of an independent Officer to tour through taluks concerned.

16. It is probable that with the advance of the dry season, scarcity of drinking water might be felt in some parts of the Province. It is necessary therefore to adopt early measures for improving the available supply of drinking water by deepening old wells and sinking new ones wherever needed.

17. Last year a sum of Rs. 1,13,572 was placed at the disposal of the Deputy Commissioners from the Local Funds for the repair and construction of drinking water wells, but out of it Rs. 53,885 only were spent up to the close of June 1892 and the balance Rs. 59,687 lapsed. Out of 742 wells sanctioned from the Local Funds last year, 313 were completed up to the end of June 1892, and the rest, *viz.*, 429 were under construction. To complete these and construct new wells during the present year, a sum of Rs. 1,62,686 has been already sanctioned from the Local Funds General and District Funds. If to this amount be added the sum of Rs. 19,670 being unexpended balance of the grant made from the Provincial Funds last year for drinking water wells at certain Police Stations, &c., which sum is available for use in this year under the authority of Proceedings No. D. 310, dated 5th April 1892, the total amount of grant available in the current year is Rs. 1,82,356 as shown in the following table:—

District.	Unspent balance of last year.	Grants made in the current year.	Total.
Bangalore	5,002	15,000	20,002
Kolar	1,790	26,614	28,404
Tumkur	3,134	17,239	20,373
Mysore	7,104	22,000	30,104
Hassan	...	18,860	18,860
Shimoga	...	23,603	23,603
Kadur	...	17,250	17,250
Chitaldroog	2,640	21,120	23,760
Total.....	19,670	1,62,686	1,82,356

18. These grants should be utilized as much as possible during the current year, following the principles laid down in para 4 of Proceedings No. D. 6-11 dated 7th December 1891.

19. The Officer on Special duty for the grant of loans for Irrigation Wells should see that the wells sanctioned by him are completed as early as possible. He should report whether, considering the state of the present season, it is advisable to grant loans on a larger scale than now, and if so, in what localities, and whether any increase to the sum of one lakh of rupees provided in the Budget of the current year is required.

20. The Government cannot impress too strongly upon Deputy Commissioners the importance of granting dry tank beds for cultivation before the beds become too dry for use for such a purpose. Under para 10 of Section 20 of the rules framed under the Land Revenue Code, discretion is vested in the Deputy Commissioners in regard to granting dry tank beds for cultivation. They are expected to use this discretion with reasonable liberality, following, so far as circumstances require, the precedents of leases granted during the past season of drought.

21. The Government have noticed that large quantities of food grains are now being exported from the several trading centres of this Province and that in consequence prices show a tendency to rise. If from this cause prices be-

come abnormally high hereafter, the poorer landless classes will no doubt feel the pressure to some extent. The agricultural and harvesting operations now in progress, our extensive ordinary Public Works, the well works above referred to, and the unfinished Relief Works of last year for the completion of which orders have already been issued, will afford ample employment for all that may need it for the present and for several months to come. With the advance of the season however, there may possibly be felt in a few isolated localities of the Chitaldroog and Hassan Districts, the need for more provision for the employment of labor. In view to such a possible contingency the Deputy Commissioners of the Districts above named should submit lists of works which they would recommend for execution on the lines adapted during the past season. These lists should reach this Office by the end of January next.

Proceedings of the Government of Mysore, Nos. 14399-428—Cir 214, dated 15th March 1892, permitting Officers serving in Mysore remitting a reasonable portion of their salaries to England on requisitions of the Comptroller on Messrs. Coutts & Co., London, at the current rate of exchange, for the support of their families residing in England, and dependent on them for education or support, as the case may be.

No. 8307—G. 2023-92, DATED BANGALORE, 10TH DECEMBER 1892.

ORDER THEREON.—Having regard to the prevailing high rates of exchange charged for remittances to England, Government are pleased, in modification of the Orders read above, to sanction as a temporary measure, family remittances not exceeding a moiety of their salaries, being made to England by Officers belonging to the Mysore Local Service only at the rate of 1*s.* 4$\frac{3}{4}$*d.* per rupee on requisitions of the Comptroller on Messrs. Coutts & Co., London. The rate of exchange now fixed is subject to alteration or modification as necessity arises therefor by the issue of orders.

2. Application for such remittances should be accompanied by certificate in the form given in the margin and the equivalent of the sterling payment in Indian currency.

"Certified that the remittance desired is *bonâ fide* for the support (or education) of members of my family dependent on me in England."

Letter Camp No. 54, dated 7th ultimo, from the Deputy Commissioner, Chitaldroog District, reporting the theft of certain jewels belonging to the temple of Venkatramanaswami at Chitaldroog, which were secured in a box kept in the Treasury Chamber of the Taluk Cutcherry, Chitaldroog.

Letter No. 505, dated 27th ultimo, from the Comptroller on the same subject.

No. 9856-60—G. 2298-92, DATED BANGALORE, 11TH DECEMBER 1892.

ORDER THEREON.—The letters read above give particulars of the theft of the ornaments marginally noted, belonging to the temple of Venkatramanaswami at Chitaldroog and valued at Rs. 59-14-0.

	Value.		
	Rs.	A.	P.
1 Gold Godla Gundinasara ...	32	0	0
1 Silver Chakra ...	16	0	0
1 Do Chatrikalasa ...	11	11	0
	59	14	0

2. The facts of the case are briefly these :—

At about 3½ P. M., on the 23rd February last, when the Treasury at Chitaldroog was opened, it was discovered that the box wherein the jewels of the temple referred to as well as those of certain other temples were secured, was found in a different place from where it had been kept and without its lock and seal, and that on examining it, the above mentioned jewels were missing and a report of the occurrence was sent to the Treasury Officer at 8 P. M. the same day. A departmental enquiry was thereupon held, during which the Taluk Sheristadar, Shroff and Gollar deposed that on the previous day, *viz.*, 22nd February, they had examined the box in question and found it in its proper place in the Treasury Chamber with its lock and seal intact, and, by their statements, left it to be understood that the jewels in question were removed at some time during the interval between the closing of the Treasury on the 22nd and the opening of it on the 23rd, and that then the loss of the jewels was for the first time discovered. The theft of the jewels was subsequently traced to Sepoy Rajaji, and, after trial by the Munsiff and Magistrate of Chitaldroog for house-breaking and theft, he was found to have removed the jewels in question from the Treasury Chamber while on guard duty on the 20th and was convicted and sentenced to one year's rigorous imprisonment and a fine of Rs. 50. The preliminary departmental investigation conducted into the case has elicited the facts that on the 20th February last it was the turn of the accused Sepoy as well as of the persons marginally noted, to have guarded the Treasury after it was closed, that however from 6 to 8 or 9 P. M. that day, the Treasury was left solely to be guarded by the accused Sepoy, the others having gone to a dinner given in the house of the Naique, that during their absence, the accused Sepoy finding that the box in question, which was of small size, lying somewhere in the Treasury Chamber and within his reach, dragged it near him by means, it is suspected, of a hooked pole, and by thrusting his hands through the interstices of the Treasury door which was barred, had the lock of the box (if it had any) broken and the jewels in question removed therefrom. It was further elicited that, when the Naique and the Sepoys returned to duty at about 9. P. M., after finishing their dinner, they found the outer front door of the Taluk Cutcherry closed and bolted from inside and that the accused Sepoy opened it on being called out.

1. Naique Muhammad Mira.
2. Sepoy Khaja Mohadinkhan.
3. Do Syed Ibrahim.

3. Complete file of papers including those relating to the departmental investigation, explanations furnished by the officials concerned and the record of the criminal trial, have not been sent by the Deputy Commissioner. However, on the papers before the Government, they feel able to dispose of the matter without waiting the complete references.

4. The proceedings connected with the case show gross neglect of duty, chiefly on the part of the Taluk Sheristadar and Shroff as well as on the part of the Amildar.

5. The theft having occurred on the 20th, 21st being Sunday, if the Taluk Sheristadar and Shroff had done their duties properly, the loss of the jewels should have been at once discovered on the 22nd, which was the first working day after the occurrence of the theft instead of on the following day. The delay of a day in the discovery of the theft, and late hour at which it was discovered, *viz.*, 3-30 P. M., show that the daily verification of the Treasury boxes and examination of the seals thereon by the Amildar or the Taluk Sheristadar have not been regularly attended to and that the Treasury was not opened punctually at the prescribed hour of 11 A. M, but irregularly as it pleased the Treasury officials. Further it is not clear why, after the discovery of the theft and loss of the jewels at 3-30 P. M., on the 23rd, the report of the occurrence to the Treasury Officer, who was stationed in the same place, should have been delayed till 8 P. M.

6. The statements of the Treasury officials who persisted in having examined the box and found its lock intact and seals unbroken the previous day (22nd), have been proved beyond doubt to be false and but for the fortunate detection of the case and the correct ascertainment of the date of the theft as the 20th would have led the Barr guard on duty on the 22nd being unjustly suspected of being concerned in the crime. Their conduct in making such deliberate false and misleading statements is deserving of serious notice.

7. Again, the omission on the part of the Amildar and the Sheristadar to examine the cash book of the Treasury for more than three weeks from the 20th January to 22nd February, is highly culpable and calls for severe notice, and the non-submission of explanations by them though repeatedly called for, for such serious dereliction of duty, still more aggravates their offence.

8. It is also remarkable that on the night of the 20th the accused Sepoy should have been allowed to secure the outer door of the Taluk Cutcherry from inside, and that apparently no one else was then on duty at the Cutcherry or in the Police Station. It may probably be worth the while of the Deputy Commissioner to enquire whether the Police were then on duty at either the Police Station or the Lock-up and how the outer door came to be bolted and take what notice he thinks fit of the conduct of the officials in fault.

9. The Deputy Commissioner appears to have contented himself with merely reporting the matter to Government and has apparently taken no further notice of the grave dereliction of duty on the part of the several officers concerned, *viz.*, Amildar, Sheristadar and Shroff. He is now requested to report what notice he has taken or proposes to take of their conduct.

10. The result of the departmental enquiry which the Military Secretary is believed to have instituted into the conduct of the Barr guard, including the Naique, should be reported for the information of the Government.

11. The proposal of the Deputy Commissioner in para 14 of his letter, regarding the recoupment of the value of the unrecovered jewels, *viz.*, Rs. 27—14—0 from the Taluk Sheristadar and the Shroff in proportion of their pay, is approved.

12. The door of the Treasury in its present condition is apparently not sufficiently secure, and the proposal of the Deputy Commissioner to have the lower half of it pannelled and leaving the upper half barred, as it is at present, is approved and the necessary orders will issue from the Public Works Department for carrying out the work.

13. As a rule, valuables should never be kept in small boxes and left outside, but should be secured in large heavy boxes, which, to prevent easy removal or displacement, should be attached to each other by means of chains passing through their handles.

Letter from the Superintendent of Post Offices, Mysore Division, No. 4188 of the 17th August 1892, bringing to notice the partice of some Officers using flimsy covers and wrappers for transmitting important documents and entire files of cases, and submitting an instance in point.

Circular letter from the Registrar, Chief Court, to all Civil Judges, No 51 of the 14th March 1883.

The Chief Judge having noticed that in several cases when records are sent to this Court, the packets in which they are enclosed, as well as the records themselves, are much torn in transmission, I am directed to state that to ensure the safe transmission of records of suits and other papers, they should, in future, when sent by Anche, be first wrapped in packing paper and then in cloth of a coarse and cheap kind—the edges being properly stitched, and sealed, and tied round and across with a string which should be knotted in the centre and sealed

2. The address should be written on the cloth as well as on a label which should be pasted on the cover and sealed at the corners.

3. During the monsoons wax-cloth should be used as an outer covering.

4. The Despatching Clerk should be strictly ordered not to waste the cloth, but to utilize, whenever practicable, the cloths on received packets for covering returned records.

No. 8885-8935—G. 2173, DATED BANGALORE, 16TH DECEMBER 1892.

ORDER THEREON.—The attention of the Deputy Commissioners and Heads of Departments will be invited to the directions contained in the Chief Court's Circular of 14th March 1883 in regard to the manner in which Judicial Records should be packed and transmitted from one station to another through the Post Office. All Judicial and equally valuable Revenue Records intended to be sent through the Post Office should be carefully packed in the way prescribed in the Circular. The necessary orders should be issued to all Officials concerned.

2. In all cases, thick packing paper should be used for covers.

3. The cover received from the Superintendent of Post Offices, Mysore Division, will be forwarded to the Deputy Commissioner, Hassan District, for needful notice.

No. 11487-8—G. 2555-92, DATED BANGALORE, 19TH DECEMBER 1892.

ORDER THEREON.—The debit balance of the equipment account on the 31st March 1891 was Rs. 84,654—3—11, and the Military Secretary in his letter No. 1738 of the 10th February 1892 reported that every endeavour would be made to reduce this balance. The credits during the past year aggregated Rs. 39,256—6—0 and the debits Rs. 38,364—3—10, leaving the debit balance on 30th June 1892 at Rs. 83,762—1—9 or only about Rs. 900 less than what it stood at 15 months before. The Government trust that efforts will be made to reduce this balance to a considerable extent during the current year.

2. The accounts of the other Funds call for no special remark, except that the Stallion Fund shows a small debit balance of Rs. 57—7—7, for which no explanation has been given.

3. The Military Secretary will be requested to expedite the submission of the report called for in Proceedings No. 13749-50—176, dated 2nd March 1892.

Letter No. 332—306, dated the 13th December 1892, from the Deputy Commissioner, Chitaldroog District, submitting a detailed report on the condition of the District.

No. 9652—G. 2285-92, DATED BANGALORE, 19TH DECEMBER 1892.

ORDER THEREON.—The observations made by the Officiating Deputy Commissioner in this report agree in general with what he stated in his D. O. note of the 27th ultimo, which was reviewed in Proceedings No. 8150-9—G. 1981-92, dated the 11th instant. He is referred to the orders passed therein, urging increased activity in sinking drinking water and irrigation wells, the timely grant of dry tank beds for cultivation on liberal terms, and the preparation of a list of supplementary works to meet any possible increase in the demand for employment.

2. The steps taken to improve the existing water-supply in the town of Chitaldroog are approved.

3. The Officiating Deputy Commissioner suggests the remission of wet assessment and Hulbanni revenue in tracts where the rain-fall was deficient and crops failed.

4. As regards the remission of assessment on wet lands, the Government will await the result of the Jamabandi of the tracts referred to, which should be commenced as early as possible and conducted with care and discrimination, so as to ascertain, with reference to each case or class of cases, the existence or otherwise of the conditions under which the concession recommended may be granted. The Deputy Commissioner may submit definite proposals for the consideration and orders of the Government as soon as the Jamabandi is over

5. The Deputy Commissioner is requested to submit a Memorandum showing the tracts where, in his opinion, the concession as regards the Hulbanni should be granted and an estimate of the Hulbanni revenue which may have to be remitted. He should also ascertain and report whether the share of each raiyat is entered in his patta and payable directly to Government or whether the raiyats have paid their quota to a contractor or purchaser of the grazing rights from the Government.

No. 66, dated Camp Mysore, the 24th December 1892.

Order.—It is noticed that the Deputy Commissioners of Bangalore, Mysore, Hassan, Shimoga and Chitaldroog have ceased to submit the fortnightly Condition Reports prescribed in Government Order No. D. 148, dated 13th February 1892, although it was not one of the reports the discontinuance of which was ordered in G. O. No. D. 572, dated the 11th July 1892. The attention of the Deputy Commissioners and Sub-Division Officers is drawn to the instructions conveyed in the orders noted in the margin, and they are requested to punctually submit the fortnightly report so as to reach this Office within the first week following each fortnight. Special allusion should be made to harvest prospects in addition to the matters referred to in Proceedings No. D. 47, dated 24th December 1891.

No D 47, dated 24th December 1891.
No. D. 148, dated 13th February 1892.
No D. 497, dated 26th April 1892.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners and Sub-Division Officers.

Read:—

D. O. letter dated the 20th December 1892, from the Deputy Commissioner, Hassan District, stating that the Channarayapatna Taluk through which he has recently toured, has had an average ragi crop in every part of it, *i e*, between half and three-fourths all over; that as the Taluk had rain recently, 30 cents in the kasaba and adjoining hoblis, and a good fall in the eastern hoblis, there is not the same anxiety in it for water as there is in Arsikere; that though the year cannot be said to be a good one, it is not inferior to average years; and that on the whole no exceptional treatment appears necessary in the Taluk.

Camp No. 69, dated Mysore, 26th December 1892.

Order thereon.—The Government are glad that after personal inspection the Deputy Commissioner has been able to take so hopeful a view of the prospects of the season in the Channarayapatna Taluk.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioner, Hassan District.

Read:—

Report on the condition of the Chitaldroog District for the fortnight ending 13th December 1892 received with docket No. 318—322, dated 20th idem, from the Deputy Commissioner of Chitaldroog.

Camp No. 74, dated Mysore, 26th December 1892.

Order thereon.—The out-turn of ragi, navane, sajje, harka and paddy harvested during the fortnight, is said to have been from 4 to 12 annas in the rupee. It should be stated in what taluks it was less than 8 annas in the rupee.

2. The remark that dry tank beds lately given out for cultivation were sown with wheat and jola, is vague and general. It should be stated in what parts of the District this was done and whether it was chiefly in the Taluks of Chitaldroog,

Challakere, Hiriyur and Holalkere where crops are said to be withering for want of sufficient moisture. The number and probable extent of dry tank beds thus utilized should also be noted in the Reports.

3. The Deputy Commissioner's observation that fodder and water are scarce in parts of Chitaldroog, Hiriyur and Challakere Taluks is likewise vague and general. The particular portions of the Taluks referred to should have been specified.

4. The Deputy Commissioner, while aiming at making his reports brief and concise, is requested to give specific and useful information on all the points referred to therein.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioner, Chitaldroog District.
The other Deputy Commissioners and Sub-Division Officers.

No. 11358—G. 2387-92, DATED, BANGALORE, 28TH DECEMBER 1892.

Chief Secretary.

To—The Deputy Commissioner, Tumkur District.

READ :—

Letter No. 568, dated 29th December 1892, from the Deputy Commissioner, Bangalore District.

In acknowledging the receipt of your No. D. II. O. 72, dated 20th instant, on the subject of the carrying out of the temporary water-supply scheme for Bangalore, I have the honor with reference to para 2 of the Officiating Dewan's Memo. to say that the water-elevation under the Hebbal Tank has already been stopped.

2. The temporary scheme to which Mr. Sheshadri Iyer refers is the Hebbal Scheme, and it is in the hands of the Public Works Department. My enquiries relate to arrangements to be made in the event of the above Scheme failing through, as were for the supply such portions of the City, as are not reached by the Karanjis. They are :—

1st. The digging of a large well in the Karanji tank and having water *the storm into the* sluices. Estimate is ready, but the tank has still 4½ feet of water above the sluice level. We have therefore to wait for some months.

2nd. The Jakkarayana Valley Scheme, which is entrusted to the Public Works Department.

3rd. Sinking a large well in the bed of the Dharmambudhi Tank. Owing to the high level of the water in the tank, water gets by percolation in the proposed well, as soon as it is begun to dig it. The work is not ripe for execution and after trying several pits, I found it impossible to get on with the work now.

4th. Watching the wells in the Cubbon Pettah and its neighbourhood and deepening them whenever necessary. This I am doing.

5th. Sinking a large well in the pond near the Central College, which will not be needed if the Hebbal Scheme succeeds—and

6th. Watching the public wells. This I am doing regularly.

CAMP NO. 94, DATED 30TH DECEMBER 1892.

ORDER THEREON.—The Deputy Commissioner is requested to submit a detailed statement showing the area and assessment of the lands under the Hebbal Tank, the cultivation of which has been stopped.

2. The digging of wells in the Karanji and Dharmambudhi Tanks and in the pond near the [illegible] College, may for the present be deferred for reasons stated by the Deputy Commissioner.

3. The Deputy Commissioner is requested to note in his fortnightly condition reports the state of water-supply in the Dharmambudhi Tank and the drinking water wells in the town, as well as any measures taken to improve the latter.

PART I.

DECISIONS OF GOVERNMENT IN REVENUE CASES.

DECEMBER 1892.

Appeal No. 381 of 1891-92.

Appellant .. Chelve Ars *alias* Gopalraj Ars of Mysore.

Petitioner claims exemption from assessment of certain lands in the Inam village of Arasinakere, but he having failed to appear on the date fixed for hearing, his Petition is dismissed.

No. 7613—P. F. 215, DATED 1st DECEMBER 1892.

Communicated to the Deputy Commissioner, Mysore District.

Petition No. 328 / 391 } of 1891-92.

Appellants.
1. Shankaraiya.
2. Krishnappa of Bendekere, Arsikere Taluk.

Vs.

Respondent
Naranappa.

1st Appellant's uncle and 2nd Appellant's father Siddappa was convicted of Criminal Breach of Trust and dismissed from office in 1880, and Respondent, who is a stranger to the family, was appointed in his place in 1880, and confirmed in 1886.

2. 1st Appellant who is the brother's son of the dismissed man was then a minor, he being now 18 years old. His family divided from the dismissed man so long ago as 1875. He now claims the office, and so does the 2nd Appellant who is still living with the father. The Deputy Commissioner refused to comply with the request, on the ground that the Respondent had been confirmed long ago.

3. The Government consider that the 2nd Appellant is the proper heir, but, as he cannot be appointed while his father is alive, they direct that the office be registered in the name of the 1st Appellant temporarily. When the dismissed man dies, the office may be given to the 2nd Appellant.

Respondent should not have been confirmed in the office.

No. 7612—P. F. 214, DATED 1st DECEMBER 1892.

Communicated to the Deputy Commissioner, Hassan District.

Petition No. 356 of 1891-92.

Appellant .. Putta Narasimhabhatta of Nelamangala, Bangalore District.

Petitioner complains that his land was sold for arrears not due by him.

2. Petitioner failed to appear on the date fixed for hearing and prove his statement. The Petition is therefore dismissed.

No. 7615—P. F. 17, DATED 1st DECEMBER 1892.

Communicated to the Deputy Commissioner, Bangalore District.

Petition No. 581 of 16th May 1892.

Appellant.	*Vs.*	*Respondent.*
Timmannaiya of Joiyisara Mavinahalli, Chamarayapatna Taluk.		Nanji.

Part of No. 14 (1 acre, 3 guntas assessed at Rs. 1—4—0) was in the Khata of one Bori, widow of Nanja. In November 1889, the Khatedar transferred the Patta to the Appellant, and the transfer was sanctioned by the Deputy Commissioner and Patta made out in his name in February 1890.

2. In January 1892, another woman named Nanji, the widow of the brother of the husband of the Khatedar, complained that she had half share in the land and that even the other half was given to Bori for her maintenance, and that the transfer was irregular. There was some oral evidence that the complainant was enjoying half of No. 14, the other half being in the enjoyment of Bori who sold it to the Appellant, and that the half given to the seller Bori was for her maintenance. This statement, that it was given for her maintenance, being corroborated by the fact that the son of Bori died while the husband of Nanji was alive and that, out of a land assessed at Rs. 8 belonging to the family, only land assessed at Rs. 1—4—0 is in the Khata of the seller Bori, the whole of the remaining land was in the enjoyment of the complainant Nanji, the Deputy Commissioner cancelled the transfer in March 1892 and ordered the Patta to be issued in the name of the Respondent's son.

3. The appeal is against this order.

4. From the records of the case, and the enquiry made at the hearing, there is no doubt that the land transferred to the Appellant was given to Bori for her maintenance, but the Government do not see how the transfer made by a Khatedar can be refused to be accepted on the complaint of a third party so long as the transferer does not object. The Deputy Commissioner's cancellation of the transfer was wrong and his order is hereby cancelled. A Revenue transfer of Patta does not give any absolute right, and there is nothing to prevent the Respondent from establishing her right in Civil Courts. Whether Respondent is in the enjoyment of half the land or not appears to be doubtful, but if she has enjoyment, the transfer of Patta will not affect it.

Letter No. 367, dated 15th October 1892, from the Deputy Commissioner, Tumkur District, submitting a statement of Gomal lands in Hindumarnahalli, Tiptur Taluk, and stating that there is no objection to the grant of 6 acres of gomal land applied for, for cultivation by Nanjeganda of the said village.

No. 8065—P. F. 81-92, DATED BANGALORE, 6TH DECEMBER 1892.

ORDER THEREON.—Under all the circumstances of the case, it seems best to put up the land to auction after due notice to both Darkhastdars and the villagers.

To—The Deputy Commissioner, Tumkur District.

READ :—

Letter No. 1168, dated 10th May 1892, from the Deputy Commissioner, Tumkur District, submitting a report on the petition of Madambi Ramaiengar and others of Amritur in the Kunigal Taluk, and recommending that the sum of Rs. 500,

being the amount of contribution promised by the Petitioners towards the cost of the road constructed from Amritur to Nademavinmara, be, in the spirit of the orders conveyed in Proceedings No. 1769-89—320-40, dated the 1st April 1892, in the case of old contributions towards tank works, written off the accounts.

No. 8441-2—P. F. 744-92, DATED BANGALORE, 11TH DECEMBER 1892.

ORDER THEREON.—The Government are pleased to remit the amount as recommended.

Communicated to the Deputy Commissioner, Tumkur District, and to the Comptroller to the Mysore Government.

READ :—

(1) Petition No. 2530, dated 16th January 1891, presented by Muddappa and 5 others of Sunkareddihalli in the Madaksira Taluk, complaining against an order passed by the Deputy Commissioner of Tumkur, dated the 5th October 1890.

(2) Proceedings received with docket No. 200, dated 14th July 1891, from the Deputy Commissioner of Tumkur.

No. 8333—P. F. 223, DATED BANGALORE, 11TH DECEMBER 1892.

ORDER THEREON.—The circumstances which led to this appeal are as follow :—

Tadi in the Maddagiri Taluk and Sunkareddihalli in the Madaksira Taluk are adjacent villages. The appellants hold lands in the Tadi village assessed at Rs. 88-8-6, but they reside at Sunkareddihalli and have their cattle there. The Hulbanni revenue of the Tadi village for Virodhi 1889-90, fixed at Rs. 23-1-9, was apportioned by private agreement by the inhabitants of that village in pursuance of the rules contained in Proceedings No. 2360-9—55, dated 16th July 1884, with reference to the number of cattle held by each villager. The total number of cattle possessed by 65 resident raiyats of Tadi paying Hulbanni, is 323 oxen and 903 sheep. To this number was added, in the list prepared under Rule II, 28 oxen belonging to the appellants, and a proportionate share of the Hulbanni revenue was allotted to the appellants. At the enquiry held by the Amildar under Rule III, the villagers of Tadi expressed their assent to the apportionments made, but the appellants urged that they should have the liberty of grazing all the cattle possessed by them, namely 111 oxen and 522 sheep on the Hulbanni lands of Tadi. The inhabitants of Tadi objected to this, on the ground that the appellants were wantonly bringing large numbers of cattle to the Tadi lands and thereby causing loss to them, and they urged that Amildar Velayadham Pille had, on a former occasion, enquired into this complaint and decided that only 28 cattle of the appellants should be entered in the Hulbanni lists. Following that precedent, the Amildar (Shamaiengar) recorded his approval of the apportionment made in the list referred to, and directed that the sums noted therein be entered in the Pattas of the respective raiyats. The appellants having nevertheless persisted in grazing all their cattle on the lands of Tadi, the inhabitants of Tadi impounded some of the cattle. The appellants then petitioned to Mr. Panchamotha Rao, the General Assistant Commissioner, Tumkur District, and that Officer held that the order of the Amildar was wrong, on the ground that restraint of the kind to non-resident raiyats would affect the cultivation of Government lands and appellants had, as represented by them, already relinquished a small portion of their lands at Tadi, and he directed that the Hulbanni lands of Tadi be thrown open to all the cattle owned by the appellants. He, however, added that the appellants should not bring any cattle not their own, and that if they did, such cattle might be impounded. The inhabitants of Tadi appealed to the Deputy Commissioner, who held that under the orders issued by Government in

the Proceedings referred to above and in Proceedings No. 6023-31—128, dated 29th January 1885, the right of grazing on unoccupied Government lands of a village was to be let only to the inhabitants of the village, and limited as a general rule to the cattle of the village, and that as the appellants and their cattle were not staying in Tadi, their inclusion in the Hulbanni apportionment list could not be enforced against the wish of the inhabitants of Tadi. Against this order the appellants have now appealed.

2. The dispute relates to the right of sharing the pasturage of unoccupied Government lands, assessed and unassessed, from which the Hulbanni revenue is derived, and not to the right of using the Gomal or free pasture lands, which is regulated by Section 40 of the Land Revenue Code and Rules framed thereunder.

3. It is to be borne in mind that except what is derived from the annual leases granted by the Government, no one has any right to the pasturage of Hulbanni lands. The orders issued for the guidance of Amildars in granting the leases are those contained in the Proceedings referred to above. They were issued tentatively and contemplated the leasing of the pasturage to the inhabitants of the respective villages, except when the pasturage was abundant, in which case, it was pointed out, there was no objection to the temporary letting of the surplus grazing to the cattle outside, under the prescribed rules.

4. As regards the appellants' claim to graze their cattle in the Tadi village, it can only be based upon the arrangement mutually agreed to by themselves and the inhabitants of the Tadi village. That arrangement originally contemplated only the grazing of 28 heads of cattle. If they desire to graze a greater number of the cattle of their village, it can be done only under an altered arrangement agreed to by both parties. If no such arrangement is arrived at by them, and there is more land than is required for the *bonâ fide* pasturage requirements of the inhabitants of Tadi, the surplus may be sold, so as to enable the appellants to buy the same. The dispute in question should be disposed of by the Deputy Commissioner in accordance with the foregoing observations.

READ:

Docket from the Deputy Commissioner, Kadur, dated 19th July 1888, No. 171, in the matter of the dismissal of Sitaramaiya, Shanbhog, Tripura Firka, Mudgere Taluk.

No. 9251—P. F. 231, DATED, 14TH DECEMBER 1892.

ORDER THEREON.—In August 1887, the Deputy Commissioner dismissed a Shanbhog for certain offences committed by him, and directed the Amildar to select a member of the family of the dismissed servant for the office, if one was forthcoming who was competent to perform the duties of the office without the intervention of the dismissed man, or of his brother, who was also connected with the offences. He further remarked that if such a man was not available, "the nomination would rest with Government under Rule XXX of the rules for the remuneration of Patels and Shanbhogs." The dismissed man appealed to Government against the decision, but the appeal was rejected.

2. The Deputy Commissioner now states that his reference to Rule XXX was an error, as it does not apply to cases of dismissals for misconduct, and requests permission to correct the error and restrict the dismissal to a term of 15 years with reference to the order of Government, dated 9th May 1881, No. 927-34—17.

3. The Government agree with the Deputy Commissioner that Rule XXX referred to, which directs that the appointments of strangers should be limited to 3 years, does not apply to nominations made in consequence of the dismissals of the office holders for misconduct, but it must be remembered that the object of the Government order, dated 9th May 1881, was to point out the undesirability of resorting to a permanent deprivation of the family Hak except in extreme cases and to lay down the rule of suspension for a term of years for ordinary cases. In fixing the term of suspension, regard should be had alike to the gravity of the offence and the need of some guarantee to the stranger appointed that he would not be required to quit the office within a definite period, so that there might be sufficient inducement for good men to accept the office. It is not meant that in every case the dismissal should be for a period of 10 or 20 years or that the stranger appointed should have a guarantee for a like term. The term should depend upon the circumstances of each case and ordinarily a much shorter one will suffice.

4. When dismissal for a term is ordered, the dismissed servant should, under no circumstances, be restored to the office, or his undivided heirs appointed to it, during his lifetime, without the special sanction of Government. All that is necessary when a stranger is appointed to the office is, that his appointment should be declared temporary and terminable on the death of the dismissed servant, unless the death takes place within a certain period, in which case the stranger will be allowed to hold office till the expiry of that period.

5. In the case under notice, it is not clear whether a stranger has been appointed to the office, or a member of the family. In the former case, the Deputy Commissioner is authorized to guarantee the office subject of course to good conduct, till the death of the dismissed servant or for 10 years, if death should take place before that time. When the death occurs, or the term expires, the question of restoring the office to the heirs of the dismissed servant will receive due consideration.

3. Correspondence ending with letter, dated 14th March 1892, No. 3580—856, from the Deputy Commissioner, Kolar, on the subject.

No. 9950—P. F. 235, DATED, CAMP MADRAS, 14TH DECEMBER 1892.

ORDER THEREON.—The Petitioner complains that his Survey Nos. 24 and 40 of the Kuppanhalli village were unjustly assessed at garden rates and prays for revision of assessment.

2. The area and assessment of the two numbers are as shown below :—

Survey No.		Extent A.	Extent G.	Assessment. Rs.	A.	P.
24	Dry	1	0	2	0	0
	Garden	3	20	12	0	0
	Total.....	4	20	14	0	0
40	Dry	3	20	7	4	0
	Garden	1	37	11	12	0
	Total	5	17	19	0	0

3. The facts of the case are briefly these :—

Survey No. 24 was originally dry. In about 1868, the then holder of the land excavated a gunta, planted a few cocoanut trees and raised garden crops ; but as he had not sufficient water in the gunta, he gave up the garden cultivation and transferred the land to the petitioner in about 1877. Ever since, dry crops alone are said to have been raised in a portion of the land, the other portion being used for grazing purposes. The cocoanut trees planted in 1868 do not now exist. The Survey Department assessed 3—20 acres at the garden rate of Rs. 3—8—0 per acre on the ground (1) that garden and rice crops were once raised on the land and (2) that the gunta or well was in good condition at the time of the Survey. The Assistant Commissioner who inspected the land states that the gunta is now in a ruined condition and that if petitioner will spend some money, garden crops could be raised on the land.

In Survey No. 40, turmeric and vegetables were raised at the time of Survey. The Survey Department assessed 1—37 acres as garden at Rs 6 an acre on the ground that one acre of the land enjoyed water-supply by channel from the tank and that 37 guntas could be irrigated by a well close by. The Assistant Commissioner who inspected the land reports that the level of the channel is lower than that of the land, that water could not be brought to the land without lift and that the water in the tank was insufficient for the ackkat under it. The well referred to does not appear to be on the land itself but near it, intended chiefly to irrigate another piece of garden land. No garden crops are now raised.

4. From the above it is clear that the one acre of land in Survey No. 40 under channel is irrigated by lift, and that 37 guntas in No. 40 and 3½ acres in No. 24 are under wells. The Survey definition of garden includes land irrigable by lift whether garden crops are raised on it or not. Special assessment on well irrigated land is not defensible in principle. But the Government are not prepared to abandon it. "Once a garden always a garden" will be found the most expedient rule to adopt.

5. The Government, therefore, decline to alter the assessment in these cases.

No. 9930—R. F. 235.

Communicated to the Deputy Commissioner, Kolar District, returning proceedings.

Petition No. 957 of 15th July 1887.

Appellants .. Narahariachar and Raghavendrachar of Kottur Dinne in the Mulbagal Taluk, Kolar District.

The Appellants pray that the tract of land in their possession, known as Kottur Dinne in the Mulbagal Taluk, may be treated as kayamgutta.

2. The facts of the case are briefly as follows.

3. In 1848 Captain Haines, Superintendent of the Bangalore Division, granted to one Annaiyachar, apparently without any orders from Government, a tract of land known as Kottur Dinne subject to the following conditions:—

(*a*). The area of dry lands according to Paimash was 2 kandis, 9 kolagas and 12 pads. This was to pay—

at 1½ fanam per kudu of 3,200 square yards for the year Kilaka,
at 1¼ do do for Saumya,
at 1¾ do do for Sadharana.

(*b*). The area of wet lands fit for wet cultivation ordinarily was 2 kandis and 15 pads. This was to pay at 1½ fanam per kudu of 500 square yards.

(*c*). If there is water in the tank and the land is not cultivated, the above rate should be paid, but if the quantity of water be insufficient, the grantee should raise dry crop and pay at the rate of 1 fanam per kudu of 500 square yards. If there be no water in the tank, he should raise dry crop and pay at ¾ fanam per kudu of 500 square yards.

(*d*). The area of lands eventually fit for wet cultivation was 3 kandis, 8 kolagas and 15 pads. This was to pay at 1½ fanam per kudu of 3,200 square yards, but if any portion of it be converted into wet, he should pay at 1 fanam per kudu of 500 square yards. After conversion into wet if, for want of sufficient water, Tada crops are raised, 1 fanam should be paid per kudu of 500 square yards. If for want of water dry crops are raised, he should pay at ½ fanam per kudu (500 square yards).

(*e*). The tank should be repaired by the grantee.

(*f*). Extra kandayam is to be paid when 2nd crop is raised.

(*g*). No remission to be granted.

(*h*). If Rajbole (sugar-cane, &c.) crops be raised, assessment should be paid according to the nature of the crop.

(*i*). If excess be discovered in the measurement it is to be charged with additional kandayam.

4. The Patta says that from the 3rd year the rates will be charged "Yeksa" or in one uniform manner. The Patta is also called "Yeksa" Patta. The Inam Department did not treat this as kayamgutta evidently because the whole land was not subject to a fixed amount, but at different rates per kudu for dry and wet lands respectively, and because the Inam Commissioner had no power to decide whether the assessment was liable to revision or not. The Deputy Commissioner reports that there are no similar tenures in his District and that there is no other precedent.

5. The question at issue is whether under the circumstances the village should be treated as "kayamgutta."

6. There is nothing in the terms of the grant referred to above to show that the lands were conveyed as *Inam* or *Kayamgutta* for ever. The use of the term "Yeksa" was apparently unauthorized. All that was intended by the grant appears to be that the rates of assessment should remain undisturbed until there was a general revision of assessment. The area and assessment according to the survey is—

		A.	G.
Dry	...	38	29
Wet	...	12	4
Garden	...	0	19
Total	...	51	22, assessed at Rs. 122-8-0.

Government, therefore, see no reason to interfere with the settlement, as no kayamgutta or Inam tenure was contemplated, nor can it now be recognized. Appeal dismissed.

No. 9248—P. 761, DATED, BANGALORE, 15TH DECEMBER 1892.

ORDER THEREON.—Petitioner claims compensation either in land or otherwise for land measuring 20,230 square yards utilised by the Municipality of Honnali for the extension of the town and the construction of a Dispensary in accordance with Proceedings of Government No. 5626-7—310, dated 1st February 1884.

2. The land was originally granted for building purposes to the petitioner's husband in 1852. It was then assessed land and the assessment was written off the accounts. He seems to have attempted to construct a building and in pursuance of such attempt raised some walls and sunk a well till rock was met with.

But the attempt was for some reason or other given up, so that though traces of the wall and the well still exist, the land has been so much neglected and abandoned that in the Pahni accounts during successive years so far back as even 1862 it has been entered as "Banjar" (unoccupied) and at the Survey Settlement in 1874 it was registered as free grazing pasture land of the village.

3. Under such circumstances, the land having been granted for a special purpose and that purpose not being fulfilled, Government have every right to resume the land and indeed it has been practically resumed and reserved.

4. Nevertheless, if Petitioner is desirous of building a house, some other land may be granted to her, free of charge, provided she consents to build a house within a reasonable time, say one year.

ORDER THEREON.—The Deputy Commissioner is requested to take possession of the land under Sections 136 and 37 of the Land Revenue Code, and place it in possession of the auction purchaser Putta Chinnaiya. The Government having

already, after examining the evidence produced by Lingegauda, decided in their order, dated 20th July 1888, No. 2781-82—51, that the site in question belonged to Government and that Lingegauda had no right to it, it is not necessary to take any further evidence in the matter. Petition No. 2997 of 1890-91.

Appellant .. Bhimachar and others of Channajatna, Closepet Taluk, Bangalore District.

Petitioners had certain wet, garden and dry lands on which they paid at the rates noted in the margin. If the dry or garden land was ever cultivated with the wet crops, the wet assessment was levied.

Per Kadu	From.	To.
	Rs. a. p	Rs. a. p
Dry ..	0 8 0	2 12 0
Wet ...	0 1 8	0 4 8
Garden ...	1 10 0	1 10 0

Note.—The Dry Kadu is more than 5 times larger than Wet Kadu.

2. In 1887, the Sub-Division Officer Mr. Abdul Rahman revised the assessments of such of these lands as have been brought under irrigation under the tank, on the ground that the efficiency of irrigation was improved by the repair of the tank, and imposed a higher assessment, at rates varying from Rs. 1—1—3 to Rs. 0—8—0 per kadu of wet land. The holders of the lands complained, and the Deputy Commissioner Mr. Krishna Murti Rao observed that there was nothing "to show distinctly whether all of the dry lands and if not, which of them had been cultivated with wet crops," and that as Petitioners allege that several lands charged with higher assessment were not actually cultivated with wet crops, the Sub-Division Officer should once more ascertain the correctness of their statement and collect the assessment put on by Mr. Abdul Rahman, if he be satisfied that the lands have been actually cultivated with wet crops.

3. There is nothing to show that any enquiry has been since held, but the enhanced assessment was collected from all the raiyats concerned excepting two who have not still paid their dues amounting to Rs. 112 a year. The Petitioners, however, having repeated their complaint, the Deputy Commissioner made a reference to Government soliciting orders whether he should continue to collect the enhanced rates which, he said, the Sub-Division Officer thought to be excessive, and he was informed in reply in May 1891 that he should give effect to his predecessor's orders, leaving the parties to appeal. The raiyats have accordingly appealed.

4. The statement forwarded with the Deputy Commissioner's letter, dated 3rd December 1891, No. 698, shows that the total area upon which enhanced rates were charged was nearly 37 acres, and that the assessment charged thereon at the enhanced rates was Rs. 358, but it is not stated how much of this land was formerly dry and how much was wet and garden and how much of it was actually cultivated with wet crops. The Deputy Commissioner, however, states that if the assessment had been collected at the old rates, the realizations should have been as shown below in each of the years from 1887-88:—

Year.	Assessment as revised in 1887-88.	Assessment at the old rates.
	Rs.	Rs.
1887-88	358	239
1888-89	358	124
1889-90	358	212
1890-91	349	235
Total.....	1,423	810

5. The Government are not satisfied with the process of revising the assessment carried out by Mr. Abdul Rahman. If new water has been supplied, a proper water rates should have been imposed and levied in addition to the existing assessment; such water rate should be fixed with due regard alike to the class of water-supply provided and the wet rates of the neighbourhood. The old assessment together with the new water rates should not exceed neighbouring wet rates. The levy of water-rate fixed as above should be in force till the introduction of the Revenue Settlement which is likely to take place next year. If the garden lands now brought under the Tank Irrigation were formerly irrigated not under the tank but under wells, and they are now cultivated with garden crops with tank water, they must be subjected to the water-rate, care being taken that it is not more than the difference between well garden and tank garden rates of the neighbourhood. If they were dry or garden land and are now cultivated with wet crops, they will of course be charged with the water rates levied. If no conversion of dry or garden into wet has taken place, the fact should be accepted as proving that sufficient water has been provided and no increase should be imposed.

6. The Deputy Commissioner will be requested to carry out the above orders and remit and refund such sums as have been levied in excess.

Appellant.	*Vs.*	*Respondent.*
B. M. Annaya of Seringapatam, represented by Mr. Advocate Paramasiva Iyer.		Abdulla Sha, son of Fachaniya, represented by Mr. Advocate Krishnaiengar.

Decision, dated 15th December 1892.

This is an appeal referred by the Acting Deputy Commissioner of Mysore for disposal by Government as the appellant is against his own order passed as Sub-Division Officer.

2. Respondent's father borrowed Rs. 1,500 from Appellant and mortgaged his Inam to him in 1875. In 1879, when the Inam came under the settlement of the Inam Commissioner, Appellant was called upon to give up the land, but he pleaded that the Inam was personal. The original grants show the Inam to be personal, but the Inam Commissioner treated it as *Devadayam*, on the ground that the accounts of 1803 and 1831 showed that it belonged to the Makan, and ordered in 1880 that the lands be put in possession of the Respondent's father. The Appellant refused to give over possession unless the money borrowed was repaid with interest, and at last the Sub-Division Officer ordered, on 30th August 1890, that the lands be put in possession of the Respondent. The appeal is against this order.

	Extent	K.	S.	P.
Wet	...	3	15	11
Dry	...	0	2	10
		3	18	9

3. Viewing the decision of the Inam Commissioner in 1879 in regard to the tenure of the Inam as final, since no appeal has been preferred, the order passed by the Sub-Division Officer is correct, but considering the fact that the sanads treat the Inam as personal and that the Appellant has lent a large sum prior to the Inam Settlement, apparently in good faith that the Inam was personal, the Government consider that it would be hard to deprive him of the possession of the land. They therefore direct that the Inam be resumed and fully assessed and a money grant

equal to the assessment made to the Respondent for services at the Makan. If the Respondent, however, is able to redeem the mortgage, he may do so within 6 months.

Petition No. 2203, dated 21st December 1888.

Petitioner ... Basavalingappa, late Patel of Kuppenahalli, Shikarpur Taluk, Shimoga District.

The Petitioner was dismissed in 1866 on the ground that he was convicted under Sections 189 and 187 of the Indian Penal Code with threatening a Public Servant with injury and wilfully neglecting to aid a Public Servant in the discharge of his Public duty. The dismissal was confirmed by the Deputy Commissioner in 1868, and the appointment was conferred on a stranger named Bailappa in 1869 and the Inam lands attached to the office were made over to him. At the pakka Potigi Settlement in 1886, Petitioner claimed the office, but the Deputy Commissioner declined to restore him to it in the face of the Chief Commissioner's explicit orders to the contrary. Bailappa still continues to hold the appointment.

2. Petitioner presented a petition to the Dewan in December 1888, requesting that if he cannot be restored to his appointment, the Inam lands attached to the office might be left in his possession, the assessment being made payable to the office holder.

3. The Deputy Commissioner reports that Bailappa has no right either to the Pateli or to the lands and that there will be no hardship in restoring the family "Umbli" lands to Petitioner Basavalingappa.

4. In future cases it may be desirable to cancel the *Inam tenure* and leave the dismissed man in possession of the Umbli lands on full assessment, but in the present case, the Government consider it inexpedient to oust the Officiator out of the lands in his possession for over twenty years. To do so would be more unjust than the injustice now twenty years old complained of by the Petitioner.

5. The Petition is rejected.

ORDER THEREON.—In the Proceedings of 1885 read above, it was ordered that it would be sufficient fully to assess the Umbli lands which had passed out of Officiator Patel's possession in accordance with the decision of the Civil Court, and upon his application to grant him the 'Jari' amount resumed by thus fully assessing them.

2. The Deputy Commissioner (Mr. Madhava Rao) points out that if the ..... are to be fully assessed, the Jari should go to Government and not to the Patel as he has been fully remunerated by the Potigi.

3. The Government agree with the opinion of the Deputy Commissioner and direct that the orders of 24th November 1885 be modified accordingly. The amount in deposit should be credited to Government,

Petition No. 373 of 1889.

Petitioner ... Muniyakka, wife of Archik Viraiya of Hulkur, Bowringpet Taluk.

On the 24th June 1875, the petitioner's husband Archek Viraiya mortgaged half of the Service Inam lands Nos. 39 and 111, attached to Gopalaswami temple in the village of Hulkur, for Rs. 70 to Mailegauda, Patel of the said village. Since then, the mortgagee has been in possession and enjoyment of the mortgaged property.

2. In 1886, the Appellant on behalf of her old husband Archik Viraiya complained to the Amildar of Bowringpet that Mailegauda was unlawfully in enjoyment of the lands and prayed that they might be restored to her.

3. On the 25th June 1888, the Deputy Commissioner of Kolar ordered that if the mortgage was not redeemed by the Archik within six months, the Inam should be fully assessed and left in possession of the mortgagee. The appeal is against this order.

4. The question at issue in this case being the same as that involved in the case of Bhatada Maligc Annaya of Seringapatam, No. 10126—P. F. 129-92, dated 30th December 1892, the orders passed in that case are also applicable to this case. The Government accordingly direct that the Inam in dispute be resumed and the land fully assessed and a money grant equal to the assessment imposed made to the temple entitled to the land. If the alienee prefers it or if the Archik can settle with him, the land of course may be restored to him (*vide* orders of January and August 1882, Revenue Manual, pages 89-90).

Appeal No. 122 of 1891-92.

Appellant.	Vs.	*Respondents.*
Gurunathappa of Sorab Taluk, Shimoga District.		(1) Gundappa. (2) Rudrappa. (3) Martandappa, Gumasta of No. 1.

The Appellant seeks to recover the Shanbhogi hak of the Kalgere village, Jade Magani, Sorab Taluk.

2. The Shanbhog of the Jade Magani consisting of 16 villages was formerly registered in the names of (1) Giriappa and (2) Balappa. The former sold his right in all the villages to Venkappa (Appellant's grand-father's brother) in 1837, and the purchase was recognized by the Superintendent of the Nagar Division who ordered that the Shanbhogi might be registered in the name of the purchaser's brother Krishnappa (Appellant's grand-father) as agreed to by the parties. The sale deed does not enumerate the villages in which the owner had the Shanbhogi

right, but recites that the whole of Giriyappa's hak was sold. It is, however, mentioned in it that the Inam lands in the village of Kalgere were retained by the seller for his livelihood. In the register of 1844, the names of Balappa and Krishnappa above named are entered against all the 16 villages including Kalgere, but in the register of 1865 Giriyappa is entered as the Shanbhog of Kalgere. Appellant's family did duties of the village in question till 1871. They were afterwards performed by one Sinappa on behalf of the 2nd Respondent. Giriyappa enjoyed only the Inam lands of Kalgere without doing service. In 1873, the Appellant was appointed Shanbhog in the place of Krishnappa, but in the list of villages submitted by the Amildar with his recommendation for the appointment of the Appellant, Kalgere does not appear. Giriappa died in 1877, and in 1879 when the Potigi Settlement took place, the 1st Respondent Gundappa was appointed Shanbhog of Kalgere, not as an heir to Giriyappa but as a Government nominee. The Appellant brought a suit for the office in 1890, basing his claim partly on the sale deed of 1837 and partly on a will alleged to have been left by Giriyappa in 1874. The Deputy Commissioner dismissed the suit and the appeal is against the Deputy Commissioner's decree.

3. The point for consideration is, whether the appellant is entitled to recover the office.

4. The sale of the office in 1837 was illegal as also the recognition of it by the then Revenue authorities. Even if that sale included the village of Kalgere, that would not affect the present decision which has to follow the existing arrangement. Assuming that the village was in the Appellant's family till 1871, (though probably in 1865 there was a change) that is no reason for disturbing the arrangement which has existed since 1871 for nearly 20 years. The Appellant cannot now recover the office. The suit was clearly barred by limitation as held by the Deputy Commissioner. This appeal is therefore dismissed.

Appellants.	*Vs.*	*Respondents.*
1. Ranganna.		1. Gudda.
2. Narasimhaiya of Dhulanahalli, Gubbi Taluk, Tumkur District.		2. Narsegauda and others of Prabhuvanahalli, Gubbi Taluk.

Appellants are the inhabitants of Dhulanahalli and the Respondents of Prabhuvanahalli. The Appellants hold putta lands in both the villages and claim the right of grazing on the Hulbanni lands of Prabhuvanahalli as they used to do formerly.

2. The Deputy Commissioner declined to grant the Appellants' prayer on the ground that they do not reside in Prabhuvanahalli.

3. The orders passed in appeal petition No. 2130 of 1891, (Proceedings No. 8333—P. F. 223-92, dated 11th December 1892) are also applicable to this case. Those orders were to the effect that if the parties do not come to an agreement between themselves and there is more land than is required for the *bonafide* pasturage requirements of the village, the surplus may be sold. The Deputy Commissioner is requested to dispose of this case also in accordance with the decision aforesaid.

Petition No. 3018, dated 14th March 1891.

Appellants.	*Vs.*	*Respondents.*
1. Birappa. 2. Putta Lingaiya of Arlaguppe, Tiptur Taluk.		1. Venkatasubbaiya, minor represented by his mother Venkatalakshmamma. 2. Venkatapataiya.

The father of the 1st Appellant was Shanbhog of the villages Arlaguppe, &c. He was dismissed in *Hevalambi* 1837—38. His brother Tammaiya was appointed in his place, but he was also dismissed in 1847. His brother Suryanarnappa, the father of the 2nd Appellant, was then appointed but he too was dismissed in 1857. The father of the 1st Appellant was then reappointed, but the father of the 2nd Appellant, having complained against him (the father of the 1st Appellant), the Superintendent of Chitaldroog Division, while admitting that the complaint brought against him was not true, dismissed him (the father of the 1st Appellant) on the ground that he was the source of much annoyance and complaint, and directed that a stranger unconnected with the family be appointed. This order is dated 15th June 1858. After this, a stranger named Lakshminarayanappa was appointed, but he having resigned the office, the late father of the 1st Respondent, who was also a stranger, was appointed to the post in 1858-59. He died in 1881 when the 1st Respondent was appointed and the 2nd Respondent nominated as his Gumasta. The 1st and 2nd Appellants claimed the office when the 1st Respondent's father died, but their claim was rejected. They then continued petitioning, but having obtained no redress brought a suit in 1890. The Assistant Commissioner who tried the case, passed a decree in favor of the Appellants, but the Deputy Commissioner reversed the decree and dismissed the suit on the ground that it was barred by the Law of Limitation.

2. The orders of June 1858 must be regarded as depriving the Appellants' family of the hak, for, at that time, there was no rule about the dismissal of offending Shanbhogs for a term only, as ordered in 1881 for the first time. An unqualified dismissal of a Shanbhog and the appointment of a stranger to succeed him without any expressed limit of term must be held to operate to deprive the dismissed man's family of the hak. The family had so bad a record for the past 20 years that the Superintendent must be presumed to have remembered this when he passed his orders in 1858.

3. Under such circumstances the present man has a hak to the office of 34 year' standing. Appellants' suit is barred.

4. The appeal must therefore be dismissed.

MUZARAYI.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Muzarayi),—dated 14th December 1892.

No. 233-42—Muz. F. 102-92, DATED BANGALORE, 14TH DECEMBER 1892.

ORDER.—It has been brought to notice that the established custom of obtaining His Highness the Maharaja's previous consent to nomination of successors to religious Matts within the State, has not been followed in recent years in a few individual instances.

2. This custom which is an ancient one was followed even during the British administration of the State by reporting every succession to a Matt for the orders of the Chief Commissioner.

3. The omission to report in a few cases has led to the succession to the Gurushíp of persons, who from their antecedents or lack of learning and qualification do not always command the esteem and regard of their disciples.

4. The Government of His Highness the Maharaja are of opinion that it will advance the public good to enforce due observance of the custom as regards those Matts which enjoy Government grants.

5. It is therefore ordered that the following Rules on the subject will be communicated to all the Matts in the State:—

RULES.

I. Every succession to a Matt enjoying Government grants in land or money or honors granted by the sovereign, should receive the approval of His Highness the Maharaja. Such approval should ordinarily be obtained by previous application to His Highness in the Muzarayi Department.

II. To provide as far as possible against the contingency of a Guru dying suddenly he may as an act of ordinary prudence fix upon one or more eligible persons for an eventual selection by himself as his successor and obtain His Highness' opinion as to the eligibility of such persons. The Guru may, then in due time, select one of them to succeed him.

III. Should the Guru fail to obtain His Highness' approval to an eligible candidate or candidates and should he on the sudden approach of death or fear of death select a successor and give the *A'sramam* to him, the recognition of his succession will, for the purpose of enabling him to enjoy all State grants in land or money, rest with His Highness, who, in exercising his discretion in the matter, will be guided by the opinion of the community and the personal qualification of the successor.

IV. Should a Guru die without giving *A'sramam* to a successor him surviving, then a proper successor shall be selected by the community interested, with the consent of His Highness.

V. Non-recognition of a successor by His Highness will involve the resumption of all State grants in land or money and the customary *Mariathés* and *Birúthus* granted or enjoyed under authority from the sovereign.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Muzarayi),—dated 15th December 1892.

READ:—

The following Memorandum, dated 15th October 1892, by the Muzarayi Superintendent:—

MEMO.

"The state of disrepair of the Temples in this Province, attracted the attention of Government so long ago as 1869; and as the Muzarayi funds could not afford to bear the charge, Mr. Bowring, the then Chief Commissioner, thought, provision therefor might be made in the Public Works Department Budget. Mr. Hudson, the Comptroller, who was consulted in the matter, suggested that a provision of Rs. 10,000 a year could be made in the State Budget for the repairs of the important Muzarayi buildings, under supervision of Civil Officers."

2. "Mr. Bowring accordingly submitted an application to the Government of India on the 19th August 1869 for sanction to provide in the ensuing year's Budget Rs. 10,000 for the repairs of certain Chattrams and also suggested the advisability of assigning a moderate sum annually for the up-keep of the Muzarayi buildings. Colonel Meade likewise represented to the Government of India on the 29th July 1871 that there were 620 Temples and 27 Chattrams which were then in need of repair or restoration, the estimated cost of which aggregated Rs. 47,856 and strongly recommended to the Government of India an annual allotment of Rs. 10,000 being made from the Provincial Budget for the purpose of carrying out the repairs of Temples and Chattrams progressively for 5 years, after which its continuance would depend on the successful working of the measure. He added that neglect in repairing these buildings would have the effect of exciting the Maharaja's sympathies hereafter and induce him to spend large sums of money in their restoration. The Government of India, however, sanctioned a provision of Rs. 8,000 per annum for 3 years or Rs. 24,000 in all, being a moiety of the estimated cost of repairing these buildings then out of order, and directed that the other moiety be recovered from the managers or devotees of the Institutions concerned. Accordingly repairs were then executed to certain buildings which were in urgent need of them."

3. "The sum of Rs. 5,000 per annum was subsequently provided under sanction of the Government of India in the State Budgets of 1877-78 and 1878-79 for the same purpose. But the pressing need of funds caused by the famine of 1876-77 prevented the utilization of these amounts; and since the Rendition, no provision on this account has been made by the Darbar. The condition of these buildings therefore after an interval of more than 20 years, during which long period little or no expenditure has been incurred in their up-keep, is such as requires immediate attention from the Government."

4. "Some of the important Temples are in a much neglected condition with vegetation growing in all the crevices. From the Returns received from the Deputy Commissioners, it appears there are 261 Temples endowed by the State which are badly in need of repairs and it is estimated that these repairs would involve an outlay of Rs 3,91,365—8—6. These Temples have no resources of their own to meet this heavy cost and the devotees or the village communities interested are unable to contribute towards their restoration."

5. "It is undesirable that these Temples mostly built by the former Rulers at a cost of several lakhs of rupees should be allowed to go to rack and ruin. In some cases, repairs are so urgently wanted that unless early assistance is granted by the Government, the buildings must fall into irretrievable decay. I would therefore propose for the consideration of the Government that an annual grant of Rs. 15,000 be made from State funds for a period of 10 years to enable the Muzarayi Department to carry out these repairs gradually."

6. "In the next 2 or 3 years only such Temples as stand in urgent need of repairs will be taken up, reserving the others for future years as funds become available."

No. 259-68—MUZ. F. 105-92, DATED BANGALORE, 15TH DECEMBER 1892.

ORDER THEREON.—The Government after careful consideration are satisfied that the more important Temples in the State are in urgent need of repair, and accordingly sanction for the purpose a present grant of Rs. 5,000 for 1892-93. The Superintendent may make a provision of Rs. 15,000 for the same purpose in the Muzarayi Budget for 1893-94. From grants thus sanctioned, the Muzarayi Superintendent will proceed with the repair of Temples where most required.

2. As regards Temples which have no resources of their own and are still deemed worthy of preservation, the entire cost of repairs will be borne by the Government. But where the Institutions concerned have sufficient funds at their credit, the whole cost should be met from such funds; and in cases where only a portion of the estimated cost of repairs could be met from the Temple funds and the efforts made by the Managers to collect the usual contributions from the Devotees and the communities interested, prove ineffectual, the balance may be charged to the Government.

Appeal Petition No. 43, dated 2nd May 1892, presented by Seshachari, son of Srinivasachari, late archak of the Vardarajaswami Temple at Hoskote, Bangalore District, praying for the cancelment of the order issued by the Deputy Commissioner, regarding the archakship of the temple.

No. 257—Muz. F. 104-92, DATED, 14TH NOVEMBER 1892.

ORDER.—It was with the consent of the Appellant that the name of his adoptive brother's son, Venkatramanachar, was registered as archak of the temple, that he (Appellant) was appointed to do duty during the minority of the former, that he was a major at the time when the above arrangement was made, and which has been in force since 1888, and that therefore the Government see no sufficient reason to interfere with the existing arrangement, more especially as the Petitioner, and his minor nephew, and the mother of the latter are all living together, as members of an undivided Hindu family.

PUBLIC WORKS.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Public Works),—dated 9th December 1892.

READ :—

The following Note dated 22nd October 1892, by the Chief Engineer, (together with Dewan's marginal remarks on the individual works therein referred to) submitting the Final Budget for 1892-93.

Note on the Final Issue of the Budget Estimates of the Public Works Department for the year 1892-93.

Dewan's Remarks.

The Final Issue of the Budget Estimates of Public Works Department for the year 1892–93, prepared in accordance with para 2 of Government Proceedings No. 3453–73—588–608 of 23rd July 1892, is submitted for approval. The Estimates provide for an expenditure of Rs. 32,04,623 to be met from the following sources :—

	Rs.
Provincial Fund	24,00,000
District Funds	5,57,623
Provincial Irrigation Fund	2,13,000
Palace Fund	34,000
Total Rs. ...	32,04,623

PROVINCIAL BUDGET.

2. The grant for this budget has been fixed at 24 lakhs in the Proceedings quoted above. This figure has been adhered to. Of this amount, 11½ lakhs have been set apart as a grant-in-aid to the Provincial Irrigation Fund, and the balance reserved for Provincial works proper, the distribution of which by service heads is given in abstract pages 2 and 3.

3. *Original.*—Under Military, a sum of Rs. 50,000 has been provided for "Original Works," of which Rs. 47,500 is for major and Rs. 2,500 for minor works. The major works are detailed in Part I of the Budget. Provision has been made for the extension of the new Barr Lines and the reconstruction of the old Barr huts at Bangalore, also for the completion of the Barr and Sillahdar Lines at Mysore, and the reconstruction of the Barr Lines at Shimoga and Hassan, which were commenced in previous years.

This project has had to be rejected on account of its great cost.

A project amounting to nearly 4 lakhs is now before Government for providing new lines and stables for the Sillahdars stationed at Bangalore, it having been decided to abandon the present lines, which are situated immediately above the Dharmambudhi tank, the chief source of water-supply to Pettah of Bangalore. Should this project be sanctioned, a special grant will be required.

This revised programme should include any improvements really required to the present Sillahdar Lines at Bangalore.

A revised programme of Military works most urgently required and proposed for execution during the next five years, called for in para 3 of Government Proceedings quoted in para 1 of this note, is under preparation by the Military Secretary, and it will be submitted to Government in due course.

4. *Civil Buildings.*—A grant of Rs. 3,00,000 has been provided under this head, of which no less than Rs. 2,05,000 are required for sanctioned works in progress, several of which will be got out of hand within the year. Rs. 50,000 have been allotted for 15 new works approved of by Government, the principal ones being (1) the construction of Meteorological Observatory at Bangalore; (2) the extension of the Government High School at Kolar; (3) constructing quarters for the Revenue Sub-Division Officer at Chikballapur; (4) constructing a Taluk Cutcherry at Challakere, which the Deputy Commissioner represents to be more urgently required than the Deputy Amildar's Cutcherry at Hosdurga provided for in the Preliminary Budget; and (5) constructing quarters for the Education Secretary at Mysore. For minor works costing Rs. 2,500 and below, a sum of Rs. 45,000 has been reserved. Of this amount, Rs. 18,000 will as usual be set apart for Police works (in addition to Rs. 3,500 provided for major works in Budget), and the balance Rs. 27,000 for other works of general utility, such as additional accommodation for in-patients in some of the Dispensaries, for other fresh works already sanctioned during the current official year, and for finishing off the incomplete minor works of past official year.

5. "*Communications.*"—Rupees 1,16,000 have been provided under this head, and the amount is chiefly required for the completion of the sanctioned works in progress. The original allotment of Rs. 15,000 for the new roads over west and north-west glacis of the fort at Mysore has been augmented by Rs. 5,000, and an allotment of Rs. 20,000 made for the proposed bridge across the Cauvery at Yedatore, the project for which is under modification by the Executive Engineer and will shortly be submitted to Government for formal sanction. Provision has been made for constructing two Travellers' Bungalows, one at Gersoppa Falls and the other on Kodachi Hill in Shimoga Division. The allotments entered for the Tunga and Bhadra Bridge works are for closing the accounts of those works, which have been completed; the former has already been thrown open to traffic.

6. "*Miscellaneous Public Improvements.*"—The proposed assignment under this head is Rs. 2,10,000, of which the large number of incomplete works in the Mysore City absorb no less than Rs. 1,38,500, as will be seen from pages 26 to 30 of Budget. The projects for the marginally noted works are now before Government, and those for extension of water-supply to the western extension of Mysore, restoration of Bannchardenhalli tank and diverting Dodkere feeder, and improving the frontages along the road leading from west gate of the Fort to Jagan Mohan Palace road, are under preparation by the Sanitary Engineer. For the erection of the statue of the late Sir James Gordon at Mysore now under preparation by an English Firm, an allotment of Rs. 20,000 has been provided; but a much larger sum than this is necessary, and the difference will be given later on by re-

These have been disposed of.

1. Improving Subrayankere in Mysore
2. Laying out Weavers' Village and building a reservoir for water-supply.

These have either been rejected or may well stand over for the present.

Approved.

These additions cannot be sanctioned at present. They were estimated to cost over 1 lakh which cannot be provided for several years to come.

Certain temporary works I ordered recently will absorb a part of this provision.

These are urgently required. Mr. Standish Lee is now available to report upon them finally.

appropriation, if possible. A sum of Rs. 30,000 has been applied for, for certain additions proposed to the Exhibition building in the Lal-Bagh Gardens at Bangalore, but the work has not been brought forward as funds are not available. Endeavours will be made to provide for it in the next year's Budget. The amount assigned in the Preliminary Budget for improving the water-supply of the Petta of Bangalore, *viz.*, Rs. 20,000 remains intact; and the scheme which is now under investigation will be submitted to Government in due course. The projects for the drainage improvements and the water-supply of Shimoga, for which provision is made in the Budget, are still under preparation: the Executive Engineer has been directed to expedite their submission.

7. *Repairs.*—The grant under this head is Rs. 3,55,000 and is distributed as follows:—

Rupees 45,000 for Civil Buildings, Rs. 2,98,000 for Communications, and Rs. 7,000 for Miscellaneous Public Improvements. The necessity for the increased provision under "Communications" has already been explained in paras 10 and 11 of the Note on Preliminary Issue of Budget.

DISTRICT FUND BUDGETS.

8. The grants sanctioned by Government for the Districts of Bangalore, Kolar, Chitaldroog, Kadur and Hassan have been adhered to; but those sanctioned for the other Districts have been found insufficient to meet requirements, and applications for additional allotments to the extent noted in the margin have been made to Government by the respective District Fund Boards. Pending formal sanction of these additional grants, they have been included in the Final Budget. The total grant for the several Districts under this Budget, to meet actual requirements of works to be carried out by the Public Works Department, including the contributions to be paid to the District Municipalities for the maintenance of through roads, stands at Rs. 5,37,623 against Rs. 5,15,303 sanctioned already in the General Department and included in the Preliminary Issue. The distribution of this amount by service heads is given in pages 8 and 9 of Budget.

PROVINCIAL IRRIGATION FUND.

9. The total grant under this budget (including the grant-in-aid of 11½ lakhs from Provincial Funds alluded to in para 2) amounts to Rs. 13,63,000. Of this amount, Rs. 9,65,000 have been allotted for "Original Works," Rs. 1,79,306 for "Repairs," and the balance Rs. 2,18,694 for "Establishment". Provision has now been made for the 74 major works entered in the supplemental list of 23rd May

1892 (referred to in para 7 of Proceedings quoted above), and for 42 incomplete works omitted by the Executive Engineer in their draft budgets. Altogether 310 works have been provided for, as will be seen from pages 40 to 70. Several of these will be got out of hand during 1892-93. Of the important projects under this Budget, the 3 new reservoirs now in progress in the Kolar Division, *viz.*, Venkatesasagar Ramasamudram, and Srinivasasagara have been given an allotment of Rs. 15,000 each. The allotment originally assigned for the Borankanave has been raised from Rs. 35,000 to Rs. 50,000, the excess being required to meet outlay on the excavation of left irrigation channel which is being pushed on rapidly. The Rekalgere project in Chitaldroog Division, for which an allotment of Rs. 10,000 has been given, will be completed during the year. For improving and extending the Mirle Hosa channel, the project for which has been returned to the Executive Engineer for further investigation the original allotment of Rs. 20,000 has been reduced to Rs. 10,000. The original allotments for constructing Head works for the Saligram rai channel, for constructing an aqueduct across the Lakshmantirtha river and improving the Tippur and Anandur channels have also been reduced. Should projects for these works be sanctioned during the year, endeavours will be made to enhance their allotments by re-appropriation if possible, or a supplemental grant will be applied for. The amounts provided in the Preliminary Issue for the Rampur and Hulhalli channels and the Sulikere tank in Mysore Division have been allowed to remain unaltered, while that provided for the north Sriramadevar channel extension has been reduced by Rs. 2,000 or to Rs. 28,000, that being the unexpended balance of the sanctioned estimate for that work. For original minor Irrigation Works a lump-sum grant of Rs. 37,500 has been provided or an average of Rs. 4,167 for each Division.

These three works are not likely to be sanctioned, but the aggregate amount of Rs. 20,000 provided for them should be utilized for investigation of the extension of Cauvery Irrigation referred to in my Memo of 15th August 1892, and for improvements of Tippur and Anandur Channels regarding which separate orders will soon issue.

10. The provision under "Repairs Irrigation" has been slightly increased and stands at Rs. 1,79,306, including Rs. 39,340 required for the maintenance of river channels in the Mysore and Hassan Districts detailed in page 85 of Budget.

PALACE BUDGET.

11. The grant under this budget has been increased from Rs. 5,500 to Rs. 34,000. The increase is chiefly due to provision having been made for the marginally noted works said to have been ordered by His Highness the Maharaja, and for the construction of jackeys' quarters in the Palace grounds at Bangalore, for which an estimate of Rs. 3,929 has since been sanctioned at the instance of the Darbar Bakshi. *Vide* detailed Budget page 71.

Constructing enclosure wall to Palace grounds at Bangalore.

Marble flooring for Hall and passage of Reception wing of the Palace at Bangalore.

This grant of Rs. 28,500 from the Palace Budget is sanctioned.

Sanction of Government is solicited to the extra grant of Rs. 28,500 under this budget.

12. *Establishment.*—The total sum entered under this head is Rs. 5,10,000 or Rs. 8,000 less than that provided in the Preliminary Budget. The reduction is due chiefly to the

provision made for salary of Mr. McLaughlin, Executive Engineer (Imperial), who has left the Province, having been omitted in the Final Budget.

The establishment charges are 10 per cent on the total grant of Rs. 26,94,623 for works. The rateable distribution of the amount to the several Budgets (Palace Budget excepted) is as given below :—

			Rs.
Provincial Fund	16 per cent	...	1,99,000
„ Irrigation Fund	do	...	2,18,694
District Funds	do	...	92,306

GENERAL REMARKS.

13. The "Ashtagram Channels Division" and "Belur Range" which were shown separately in the Preliminary Issue have now been eliminated, they having since been amalgamated with the Mysore and Hassan Divisions respectively. The "French Rocks Division," conterminous with the Revenue Sub-Division, has been constituted an independent Public Works Division under Mr. Sitaram Rao, Executive Engineer.

14. It is to be regretted that it was not possible to submit the Final Budget before the Dasara, as desired by Government (*vide* para 8 of Proceedings referred to above), owing to the delay in obtaining orders of Government on the modified District Fund Budgets of the several Districts, some of which have not yet been passed in the General Department

Note by the Chief Engineer, (Colonel C. Bowen, R. E.,) in reply to the above.

No. 5375-86—878-89, DATED BANGALORE, 12TH DECEMBER 1892.

ORDER THEREON.—The Government of His Highness the Maharaja are of opinion that Mr. Standish Lee's work should in future be confined to the legitimate duties of the Sanitary Engineer, *viz.*, that of developing effective measures for the sanitation of all the more populous towns, and of designing and carrying out works of water-supply and drainage. The Government are therefore pleased to direct that on Mr. Standish Lee's handing over charge of the ordinary Public Works in the Special Improvements Division to such Officer as may be appointed for the purpose, he will, while exercising general supervision over the work of that Officer, confine himself to sanitary work proper. His head-quarters will be Mysore and he will devote about one-half of his time to the Mysore City, one-fourth to the Bangalore City and the remaining one-fourth (for the present) to the head-quarter towns of the Taluks in the Mysore District. He will also examine all estimates submitted by Municipalities and exercise general control over all works carried out by them.

Mr. Standish Lee's designation will be "Sanitary Engineer with the Government," and his salary Rs. 850 per mensem, which he will draw from the 12th June 1892, the date on which it was sanctioned by His Highness.

As regards scrutiny and sanction of estimates, the Engineering details of execution, accounts, and generally for all departmental purposes, he will be under the Chief Engineer.

The Sanitary Engineer will have a small out-door establishment (regulated by the actual work undertaken) to assist in preparing projects and carrying out those that are sanctioned. He will submit for the sanction of Government in the Public Works Department, a schedule of establishment immediately required.

The salary of the Sanitary Engineer and that of his establishment will be paid out of Provincial Funds, but recouped in part by a reasonable percentage charged to the Municipal and District Funds concerned for work done.

A separate Sanitary Works Budget will be prepared at once, to which all items of drainage and other sanitary works now borne on the regular Public Works Department Budget will be transferred, and all similar works proposed throughout the State for the remaining portion of the official year provided for.

Grants-in-aid or loans or both from Provincial or District Funds, will, when absolutely needed, be sanctioned with the view of ensuring the prompt execution of sanitary works of importance.

By Order,

D. McNEIL CAMPBELL, LT.-COL., R. E.,
Secretary to the Government of Mysore,
Public Works Department.

No. 5591-610—932-51, DATED BANGALORE, 20TH DECEMBER 1892.

ORDER THEREON—After a good deal of consideration of all that can be said for and against a re-transfer from the Public Works to the Revenue Department of the duty of lopping avenue trees, the Government is of opinion that the balance of advantage points to the advisibility of such a re-transfer, and accordingly order to re-invest in Deputy Commissioners and under them in Amildars the duty in question. In exercising it, they will be expected to use the utmost discretion and to restrict all lopping operations to the absolute requirements of the safety and convenience of traffic.

2. The loppings, minus the cost, should belong to the persons who are entitled to the usurpment of the trees, and where no such persons exist, they should be sold and the proceeds credited to Government.

READ :—

The following Note by the Secretary to the Government of Mysore, Public Works Department, dated 5th August 1892.

I submit for your perusal and orders, the accompanying papers connected with a dispute regarding the supply of water to the lands under the anikats below the Kunigal Doddakere and certain other Tanks in Tumkur District. The enclosed tracing shows the Tanks and Anikats on the series under consideration.

II. The point at issue is this:—The raiyats holding lands directly under the Tanks very frequently do not irrigate as much land as the Tanks are capable of supplying; and when this is the case, the tail water is insufficient for the cultivation of the 1,300 acres (approximately) under the anikats lower down. Naturally, the raiyats holding lands under the anikats, complain when they see that water is actually available in the Tanks, but that they cannot get it passed down.

III. Before Government restored and repaired the weirs and sluices of the Tanks, and their channels, there was always a large quantity of leakage running down to the anikats, but this leakage has been stopped by the works having been made watertight, and the lands under the anikats consequently suffer.

IV. The capacities of the 3 Tanks concerned are 2,713 units. As they fill well in years of average rain-fall, they should be easily capable of irrigating 3,000 acres direct, and another 1,500 acres from the anikats down the stream; but the average area irrigated under the Tanks for the past 10 years is only 1,295 acres, against the assessed area by Revenue Survey of 2,295 acres.

V. A large sum of money has been spent on these Tanks and the works below them. The question appears to involve the full realization to Government of value that can be derived from the outlay incurred on the improvement of irrigation works, and seems to be outside ordinary routine revenue work, or the mere prescriptive rights of raiyats, *vide* Deputy Commissioner's No. 864, dated 10th October 1890. It also affects the Public Works Department who are responsible in a sense, for the success of their projects, and who are naturally anxious that the benefits due thereto are as wide spread as possible, and are not confined to a mere section of the community under a claim of prescription, or because of opposition on their part.

VI. I would therefore suggest that proper Rules should be framed as to regulation of supply, and that the matter be settled in the Revenue Department. The Rules should, I think, provide that when the Tanks are once full, the surplus water, about 1,500 units, may be used for the irrigation of the lands under the anikats below. Without some such arrangement, the 1,500 units will be kept in the Tanks to no purpose.

No. 5649-65—959-75, DATED BANGALORE, 22ND DECEMBER 1892.

ORDER THEREON.—The Government direct that the Deputy Commissioner be asked to lay down a definite regulation of the supply of water to all lands both under the tanks and anikats in question, as suggested in para VI of the above Note. It is very clear that the cultivators of the 1,295 acres under the tanks cannot claim a right to the use of the whole of the water in the tanks. The atchkat under the tanks referred to is 2,295 acres. Admitting this area of 2,295 acres has the first claim to the water in the tanks, the 1,295 acres cannot exclusively claim it. If 2,295 acres are cultivated, the surplus from such cultivation would ordinarily be sufficient to feed the anikats below; but when 1,000 acres of this area are waste, the Government surely has the right to take the proportionate share of water required for these 1,000 acres and pass it down to the anikats below. This is quite plain and there can be no doubt of its justice. The Deputy Commissioner must explain to the raiyats concerned the right to water as set forth above, and then arrange to enforce it by means of regular rules,—*always taking care to give quite sufficient to the existing cultivation under the tanks.*

2. Copies of rules laid down by the Deputy Commissioner should be submitted for information of Government and record.

Public Works Department.
